

CALOMEL SICKENS! IT SALIVATES! DON'T STAY BILIOUS, CONSTIPATED

I Guarantee "Dodson's Liver Tone" Will Give You the Best Liver and Bowel Cleansing You Ever Had—Don't Lose a Day's Work!

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver.

If you are bilious, feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tone instead of using sickening, salivating calomel. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working. You'll be cheerful; full of vigor and ambition.

Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone

under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you can have your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't gripe or cramp or make them sick.

I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable, liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist or storekeeper about me. Adv.

Women Drive War Automobiles.

Between 150 and 200 women soon will be driving military motor cars behind the French front.

Women have tried since the beginning of the war to enlist in the automobile service. The Club Feminin Automobile was the center of this group, and it had secured the signatures of several hundred of the thousand women in Paris who hold licenses to drive motor cars. The passive resistance of the different war bureaus held them back until now.

The women are obliged to enlist for three months and to agree to submit scrupulously to military rules and discipline. They will in the beginning replace motor ambulance drivers in the foreign sanitary sections who are transferred to other services. Later on they may replace men in other automobile sections.

Cutting Down Gossip.

"How do you suppose some people spent their spare time before motion pictures were invented?"

"I don't like to appear unkind to those persons, but before they started to spending practically all of their leisure moments in photoplay houses they knew a great deal more about their neighbors' private affairs than they do now."

For Unruly Window Shades.

When a roller window shade refuses suddenly to remain unrolled at a certain point, a handy kink is to insert a small wooden wedge, such as a match or toothpick, between the unrolled curtain and the roller. This is only an emergency device, and may injure the fabric if repeated often at the same point.

LESSON FOR SEPTEMBER 23

DANIEL IN THE DEN OF LIONS.

LESSON TEXT—Daniel 6.
GOLDEN TEXT—The angel of the Lord encampeth round about them that fear him, and delivereth them.—Psalms 34:7.

I. Daniel the Prime Minister of the Medo-Persian Empire (vv. 1-3).

Daniel's sterling worth brought him to the front and kept him there. The new king was quick to discern his merits and to give them recognition by placing him at the head of affairs in his kingdom.

II. An Occasion Sought Against Daniel (vv. 4-9).

(1) The Reason of—Envy. To have this foreigner placed over them aroused the jealousy of the presidents and princes of the empire, so they set about to have him removed. The presence of envy shows inferiority. One never envies those below him. It is hard to forgive those who have outstripped us and left us behind in the race of life.

(2) The Failure (v. 4). Daniel's official record was blameless. Not even an error could be found of which they could accuse him. Though he was without fault he had to suffer. Those who excel in any line are sure to suffer in some way. It is true in business, the home, the school, politics and religion.

(3) The Wicked Plot (vv. 5-9). Not being able to find any fault, they trumped up a charge against him on the ground of his foreign religion. They were not careful about the method employed, just so their end was attained.

III. Daniel's Noble Confession (vv. 10-13). Though Daniel knew that the wicked decree was signed, he knelt before God three times a day as usual. He went quietly about his affairs, attended to his regular devotions, because he trusted God. There is always a marked silence about heroism. Weak men bluster, but strong men have little to say. Daniel continued his usual habit of prayer, even though it was a violation of the civil law, because he knew that God's law was first. When the laws of earth conflict with the laws of heaven there is but one thing to do; that is, to obey God rather than man.

IV. The Foolish Decree Executed (vv. 14-17). The king was greatly displeased with himself (v. 14) and diligently sought to deliver Daniel, but he was helpless (v. 15). The proud ruler was a slave. Laws which change are not self-condemnatory, foolish, positively wicked. The king was weak for fear of others, which is utter weakness. Daniel was cast into the den of lions (v. 16) and a double seal placed upon the den (v. 17). They were not content with the king's seal alone, which shows that one rascal will not trust another. The king's words, "Thy God, whom thou servest continually, he will deliver thee," to Daniel were a poor excuse, but they were the best that he could offer to his conscience.

V. Daniel Delivered (vv. 18-23).

(1) The King's Sleepless Night (v. 18). Doubtless Daniel was more comfortable in the den of lions than the king in his palace. His quietude is a picture of the safety and peace which are the portion of those who trust God and do his will. This is a sample of what faith can do. "Thou wilt keep him in perfect peace whose mind is stayed on thee, because he trusteth thee."

(2) The King's Question (v. 20). In the morning the king called to Daniel in the den of lions saying, "Is thy God able?" This is always the question of the unbelieving heart. The believing heart says, "Our God is able."

(3) Daniel's Answer (v. 22). "My God has sent his angel." Angels are God's ministering spirits. "The angel of the Lord encampeth round about them that fear him, and delivereth them." (Psalms 34:7.) Many times no doubt our lives are preserved because we are guarded by God's angels. Not even a sparrow falls to the ground without the Father, and the very hairs of our heads are numbered, so we ought to expect the mouths of the lions to be shut against us.

(4) Daniel Removed From the Den (v. 23). There was no manner of hurt upon him. The reason was that "he believed in his God." The same reason is why the garments and hair of his companions were not even singed.

VI. Doom of Daniel's Accusers (v. 24). They were cast into the den of lions "and the lions had the mastery of them, and brake all their bones in pieces or ever they came at the bottom of the den."

Daniel's God to Be Feared.

VII. Darius' Decree (vv. 25-27). He decreed that in all parts of his kingdom men of all peoples and tongues should tremble and fear before the God of Daniel.

VIII. Daniel's Prosperity (v. 28). Though Daniel's enemies perish, he goes higher and higher in the kingdom, even continuing into the reign of Cyrus. In all our trials and testings we should not be moved, for there is a righteous and just God in heaven, and nothing can occur without him. Man's schemes shall even continue to praise him.

DAIRY FACTS

RISE CALF ON WHOLE MILK

Various Supplements Which May Be Combined to Lower Cost of Ration.—Skim Milk Economical.

(By R. S. HULCE and W. B. NEVENS, Illinois Agricultural Experiment Station.)

Raising the dairy calf on whole milk alone is too expensive. There are a number of supplements which may be combined with whole milk in order to lower the cost of the ration. The feeds most commonly used as whole-milk supplements are skim milk, home-mixed meals, commercial calf meals, and hay and grain.

On farms where skim milk is available, it may be substituted for whole milk in the ration of a healthy calf when the animal is three or four weeks of age, a few days being necessary to

Whole Milk Age (Holstein).

complete the change. If the skim milk is fed in a warm, sweet condition, or nearly no difficulties will be experienced. The amount of skim milk fed may be increased as the calf increases in size, but it is rarely necessary to feed more than 15 pounds daily, provided grain and a good quality of legume hay is being used. Where the supply of skim milk will permit, it is advisable to continue its use until the animal is five or six months of age in the case of grades, and for a longer period in the case of purebreds. Skim milk is one of the most economical feeds known for producing growth in calves.

WORK OF MILKING MACHINES

Test Made by United States Department of Agriculture in Dairy Regions of Many States.

The United States department of agriculture has put out a bulletin on milking machines. They made studies in dairy regions in New York, Michigan, Ohio and Illinois. They found that in herds of 15 cows or less the average time required to milk a cow by hand is a fraction over seven minutes, and by machine a fraction under five minutes. In herds of 50 cows the average time required is seven minutes, but by machine just a little more than four minutes.

The cost per year to milk a cow in a herd of 15 cows or less is \$10.91 by hand, and \$10.45 when the herd numbered 50 cows or more. With machines the cost was \$11.75 per cow in herds of 15 cows or less, against \$7.34 per cow per year with 50 cows or more in the herd.

In computing these figures, a total of 156 farms were investigated. Interest on the investment, the value of gas and oil, the cost of repairs, depreciation and labor were all considered.

SCOURS IN YOUNG ANIMALS

Generally Result of Overfeeding or Use of Unclean Utensils—Best to Reduce Feed.

Scours in our animals is generally the result of overfeeding or feeding from unclean troughs or buckets, or from feeding food that is stale. Milk fed to calves should either always be sweet, or always be sour. If it is one thing one time and the other the next, it will result in scours.

The buckets should be as carefully scoured out as are the pails in which the milking is done.

Musty or bin-burned grain should not be fed, particularly to young animals. When the calf gets too much milk or the young pig gets too much feed, we have scours, possibly thumps in the pig.

The best remedy is to reduce the amount of feed, clean up the troughs and buckets, and give a good dose of castor oil. Two ounces is a dose for a calf, and from a teaspoonful to a dessertspoonful to a growing pig, according to its size.

DRYING OF DAIRY UTENSILS

Process Equally as Important as Thorough Cleaning, Especially in Summer Season.

Much emphasis has been laid upon thorough cleaning of dairy utensils, and rightly so, but the process of drying is equally as important in warm weather. Drying should not be done with a cloth, but by heating the utensils in hot water, steam or even sufficiently to evaporate moisture.

Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact.

Ridgway, Penn. — "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old." — Mrs. O. M. RHINES, Ridgway, Penn.

Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga. — "I want to tell you how much I have been benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited." — Mrs. W. E. LINDSEY, R. R. 3, Tennille, Ga.

On Writing Letters.

"I was told by Capt. Harry Light the other day," writes a Canadian major, "that there is a new style in trench letters. The censor's duties have been reduced by many per cent. The soldier now has the sense of the situation engrained in his thinking. He sees through the need of keeping quiet even on matters that call for some criticism. There is more humor and matter-of-factness about his letters. One of my men who can't write very well, was telling me the other day that one letter a week is all that he can summon up his courage to write, and he gave this as a reason: 'The people at home don't, can't understand life here. We have got to go through it. Why tease them with anxieties—they have enough to put up with in pacifists and political grumblers.' And I think he is right. Don't you?"

Nitrogen From Air.

The production of nitrogen from the air in Germany, which was only 30,000 tons in 1913, has been so successful that 300,000 tons were so produced in 1916, and it is expected that 320,000 will be produced this year. According to the Frankfurter Zeitung, the cost is only six cents a kilogram.

Left Them Outside.

"Where are your manners, sir?" asked the crusty business man of a stranger who unceremoniously rushed into his private office.

"I left them out in the main office," answered the irate called, "where I was insulted by two or three of your impudent clerks."
