 Entered as second-class matter January 19th, 1905, at the postoffice at Salisbury, N. C., under the act of Congress of March 3rd, 1879.
 Salisbury, N. C., Oct. 10, 1917

Some of the boys of the high school have formed a club with very laudable undertakings, one of which, which is enough, is to attempt to extend a high standard of Christian living throughout the school and the community, but they had a supper, etc, to start it off with, and, propose to do the same next Friday night. We fear the supper part of it is going to be about all of it. It is a pity they did not think of this matter during the summer when there was little else to do, for now since school has opened they are supposed to be putting in all time possible in making progress in their classes. The people are being taxed to run the public schools and if the pupils haven't anything better to do than have suppers; attend the gymnasium and play ball, some of us would like to be relieved of the tax necessary to keep them up.

JEWELRY FOR OCTOBER

An authority says of the Opal: "It is a precious stone which bath in it the bright fiery flame of the carbuncle, the fine refrigent purple of an amethyst and a whole sea of the emerald's green glory."
 Opals come principally at the present time from Australia. They are also found in Hungary and Mexico.
 By a strange freak of fashion, Opals were at one time falsely accused of bringing ill-luck, but the mistaken idea has gone the way that all superstition must.
 Cosmos is the October birth flower.
