

**German Monster Cannon Is Located 76 Miles from Paris.**  
 Paris, March 24th.—The German "monster cannon," which has been bombarding Paris has been located in the forest of St. Gobain, west of Laon, and exactly 122 kilometers, approximately 76 miles from the Paris city hall.

The bombardment of the capital ended around 1 o'clock. Although during the earlier hours of the bombardment the shells arrived on 20-minute intervals, later in the day they began arriving every 15 minutes, and some of them fell 12 minutes apart.

In military circles belief was expressed that the Germans were using two long distant guns. The Matin says that the position of one of the guns was established in the St Gobain forest which would place it further south than had been believed. This position would be about 70 miles from Paris.
