Oct. 26.—Sidney Wyatt and wife of Alexandria, Va., are visiting his brother Harvey Wyatt at Rockwell. They went in Harvey's auto to Badin to visit their father, Columbus Cicero Wyatt. Venus went along and we all had a nice trip, the roads were fine.

Venus took dinner for the first time at E P Kuykendall's and got a fine dinner.

Venus took dinner at J F Shoe's the first time and got a fine dinner today.

We saw a northern lady prepare a dish for dinner where she was visiting and she said it would keep off the influenza by eating a few meals of it every week. We eat some of it and will tell any one how she prepared it for nine cents in postage stamps.

John Frick is able to be out again.

Charley Misenheimer who has been very low with influenza is improving.

Venus got another letter from France, this time from J F Earnhardt from Faith. He said he met Major Barker over there.

Woodmen Call off Convention.

The local Woodmen of the World Camps voted to annul the biannual Convention to be held here next March, this being due to conditions brought on by the war and the fact the railroads are taxed to handle travel. The calling off of 1919 session will not cause the cities where these conventions were to be held to lose their claim to the conventions when they are held, but the meeting places selected will have the pleasure of entertaining the conventions when held, and Salisbury will get the next North Head Camp convention when held.

Mrs. A. E. Sidenberder, Rockfield, Ind., states; "For an attack of bronchial trouble which usually assails me in the spring, I find Chamberlain's Cough Remedy the only thing that gives me relief. After using it a few days all signs of bronchial trouble disappears."

Kind of Nuts For Making Gas Masks.

Black walnuts, butternuts, hickory nuts, and the seed of such stone fruits as peaches, cherries, plums, apricots, and pines are being allowed to go to waste. All of these nuts and seed are acceptable so long as the hard shells have not begun to decay. The nuts should be gathered as soon as mature and cured by being spread out in the sun. After being thoroughly cured they should be cracked and the kernels either used on the home table as food or placed on the market. Farmers in eastern Tennessee, for example, realized thousands of dollars by cracking walnuts during the winter evenings. Those whole nuts which are not fit for cracking, and the shells of those which have been cracked, should be turned over promptly to the local branch of the Red Cross for shipment.

There is an urgent need for this material, and all citizens are requested to save as much as possible, so that the best gas masks may be furnished the soldier who is now risking his life for us.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be completely constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard
