GIVE GRENADE BANKS TO SCHOOL CHILDREN

Millions to be Distributed by Treasury Department to Encourage Happy Habit of Thrift.

Hand grenades made by the United States government to bomb the Hun to destruction are now to be used to boom thrift. Millions of the little machines of destruction, with the explosives carefully removed, are to be given to the school children of the United States to encourage the saving habit. The grenades are being converted into miniature savings banks. They will hold pennies and nickels and dimes which can be converted into Thrift Stamps. The Thrift Stamp in turn can be converted into War Savings Stamps.

Distribution of the grenades in the several Federal Reserve Districts will be left in the hands of the district Savings Directors. In this district the War Loan Organization, with headquarters in Richmond, Va., has so ar-

HAND GRENADE SAVINGS BANK ranged that a grenade bank will be awarded to each child, who, during the vacation period, earns enough money to buy a War Savings Stamp.

Some bank in every community will lend each child a grenade and at the close of the vacation period the child will return it, with the money it contains, to the bank. There the money will be counted. If the child has saved enough to buy a War Savings Stamp the grenade-bank will be his. But in all events the cash must be invested in Thrift Stamps if not enough has been saved to pay for a War Savings Stamp. The grenade-banks are of considerable value and will be splendid souvenirs of the great war, and the War Loan Organization of the Fifth Federal Reserve District is anxious to place them in the hands of as many children as possible.

Thrift is not miserliness, it is getting a hundred cents worth out of every dollar.

BRITISH THRIFT.

The British War Savings Committee has become a permanent institution in England and the following declaration has been issued explaining the English attitude toward thrift:

"Quite as important, both as a source of revenue and as a social movement, is the restraint of luxury, and growth of economy and simplicity of life among the well-to-do. Otherwise goods and services will be wasted. War savings applies to all classes and appeals to all incomes."

HOW SAVINGS HABIT HELPS EVERYBODY

Money Invested This Year in Thrift Stamps Returns in Five Years Vastly Increased.

On New Year's day 1923, there will begin a remarkable series of dividend payments to American people. Hundreds of millions of dollars of War Savings Stamps sold during 1918 will then be redeemable. On each New Year's day thereafter for a number of years there will undoubtedly be huge returns to the American people of the money borrowed with interest.

These great dividend days bring American bankers new opportunities and also responsibilities. How can new thrift habits be linked to thrift institutions? How can this money, the product of thrift, be mobilized for further work?

Already the bankers are working with the Treasury Department to continue thrift habits. For people who save money there is a wide range of thrift institutions that will take charge of funds, put them to work safely, and return good earnings. As the government plans to borrow by general education of thrift in every kind, so the banks and thrift institutions can aid the government by encouraging general thrift and building larger business themselves.

One of the first steps to be taken by bankers is that of spreading information about banks, life insurance, building and loan associations, federal farm-loans, and all other thrift institutions. The best way to meet Uncle Sam's borrowing needs is to promote thrift in the broadest possible lines.

Every dollar deposited in a savings bank becomes available for national finance. Every life insurance policy sold is equivalent to an indirect loan to the government. Every obligation assumed by thrifty people such as a building mortgage is a stimulus to production and saving, and therefore, as much a national service as the direct purchase of government securities. In placing these matters clearly before everybody in his community the banker will live up to his opportunities and his responsibilities in the new thrift movement. When the billion dollar New Year Days arrive he will be ready.

TELLS HOW SHE BUYS WAR SAVINGS STAMPS

Woman Tells How by Intelligent Savings Plan She is Able to Accumulate Money Which Was Formerly Wasted.

"Save while the money is warm" is the motto of a woman who has established a reputation both for herself and her family by the number of War Savings Stamps she bought without apparently stinting in the least. Here is her system.

"The only way to save is to save. When I have actually saved a quarter I put it into a Thrift Stamp without delay. If I save that quarter on one thing and then spend it carelessly for something else, I have not saved any real money.

"For example the other day I went down town expecting to pay \$10 for a pair of special shoes. To my surprise, I found there was a sale that day, and got the very pair of shoes I wanted for \$7.75. I had saved \$2.25. But how to keep it saved. I knew that if I simply regarded it mentally as saving, before the end of the month it would be spent miscellaneously. I went right down stairs in the store and bought nine Thrift Stamps and stuck those quarters in the Thrift card where they could not get away before the end of the month.

"I do the same thing when I have saved a single quarter or half dollar, and I am seriously thinking of getting a little penny bank to hold saved pennies or dimes until they grow to Thrift Stamp size. What is more, I am getting a whole lot of fun out of this most fascinating game, the game of 'Getting Ahead.'

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

Sellers Hosiery Mills at Burlington Burns.

Burlington, June, 15.—During the the thunder storm which occurred here this morning about 3 o'clock, lightning struck the Seller's hosiery mill and did great damage, setting it on fire and causing the roof and floor of one of the buildings to be burned. Considerable damage was done to the machinery, the extent of the damage not having been determined. The local fire company responded promptly upon being called to the scene, but arrived too late to prevent the spread of the flames. The mill is constructed in two buildings, the one suffering damages being the older building. D E Sellers the secretary and general manager was unable to give the amount of loss sustained as the machinery had not been thoroughly examined today, but he stated that the loss may be estimated at about \$40,000.

C A Montgomery last Wednesday received a telegram from his son Robert, at Ludlow, Ky., announcing the death at that place of his wife. The remains will be taken to her former home at Chilcotthe, Ohio, for burial. One child with husband survive.
