No details were given and the law under which the case was brought was not known here. "A few good cases of profiteering in each state will settle that trouble," Mr. Palmer remarked.

Back in 1894, Congressman John S. Henderson, then chairman of the postoffice and postroads committee of the House and father of the rural mail service, had the first experimental routes in United States established in Rowan county. There were two of them, one 18 long and the other 12 miles. Mr. Trexler was carrier for both routes, taking the longer route in the afternoon. He furnished his own horse and buggy and got \$1 daily as compensation.—(Newton Enterprise)

The Opportunity is Here Doomed by Salisbury Testimony.

Williams, 311 N. Long St., says, "My back ached considerably and when I tried to bend over, knife-like pains would shoot through me and I could hardly straighten up again. I had awfully bad dizzy spells and black specks appeared before my eyes. Mornings I was so lame I could hardly get my shoes on and my kidneys were out of order and annoyed me. I got Doan's Kidney Pills at the Smith Drug Co. and began using them. It was no time before Doan's had me feeling like myself again. They strengthened my back and regulated my kidneys. 60c. at all dealers. Foster-Milburn Co., Mfgs. Buffalo, N. Y."
