Dr. Heath says that tuberculosis or consumption in a cow is transmissable to the person who consumes the milk. A ballock when slaughtered yields about fifty pounds of blood, which for

fertilizing purposes is worth twenty-five It is said that newly laid eggs may be kept fresh for two to four months by

packing in clean old oats and storing in a temperature of thirty-six to forty degrees. At a recent farmers' meeting a

speaker gave a recipe for making farming pay as follows: "Have but one see to it vourself."

The Cotton Exchange reports as to the condition of the cotton crop in North Carolina and Virginia that since the 20th of July there have been freerop not, as good as last year, eleven highest terms, he further said : last year while some believe that it is the best grown in the State since the war. In Louisiana the average condition is good, although not equal to the same time last year. Compared with last year the Mississippi crop is not so favorable, owing to excessive rains recently. In Arkansas the general condition is good, and in comparison with last year is somewhat better. In Tennessee it was never more promsing, and in Alabama, with the exception of a few counties, the prospects are as good or better than last year. A similar report also comes from ities? Abraham Lincoln's Opinion of

When Mr. Lincoln issued his Emanipation Proclamation-I believe that was the occasion-a deputation of citizens from Baltimore went on to Washington to congratulate him. Mr. McDougal was one of the number.

'Take seats, boys, take seats!' exclaimed Mr. Lincoln, as he rang the

bell for chairs to be brought in. The visitors sat down and spent an hour in conversation. Presently the subject of Generals came up, and various opinions were expressed as to who was the ablest officer on our side. When a great many opinions had been ritated, swells, and sometimes bleeds; given Mr. Lincoln said :

Gentlemen, in my judgment you headache, with humming or throbbing have not struck the right man yet.' And of course all were anxious to hear him name the man, and asked

him to do so. He said: 'It is Gen, Hancock.'

The countenances of his visitors expressed their surprise, and one of them ventured to say that he feared regular, at times costive; stools slimy; Hancock was too rash.
