COTTON GIN

And Condenser. GIVES BETTER SATISFACTION THAN ANY GIN ON THE MARKET.

---:0:----The Magnolia Gin has come in competition with nearly every other gin on the market, at State Fairs, etc., and in every instance has beaten all competitors, and taken the honors for fine samples, light draft, and

In every cotton growing State the Magnolia Gin has made a most enviable name for itself, and may well be called the "Planters' Favorite," as they prefer it to all others, and those who have used this Gin will

LATE IMPROVEMENTS. In offering the Magnolia Gin to the public this season, we desire to all attention, especially, to the improvements made in same during last year, and which improvements were thoroughly tested and endorsed by every party who was so fortunate as to become the purchaser thereof.

They consist—first, in the improved Cotton Box, which has been found incapable of being choked under the severest tests. It is a well known fact, that in all other Gins particular attention is given to feeding more freely at the ends of the Cotton Box than anywhere else. With the improved Cotton Box it is entirely immaterial to the perfect running of the gin, whether you feed at the ends or exclusively in the centre of the box, as by its construction, the cotton is at

once distributed throughout. This at once corrects a want long felt in ginning, and makes it unnecessary to have any one in front of the gin at all, when provided with our feeder—known to be the most simple and reliable feeder ever offered

We have also added an attachment to our feeder, by which you are enabled to increase, at your pleasure, the speed of feeding. This is brought about by changing a bolt in feeder arm, which increases the movement of the apron, presenting more cotton to the drum, which im-

This attachment becomes necessary to those who desire rapid gin ning without reference to sample. We ask the public to examine fully the claims of our gin to super ority before purchasing.
