## Successful Tobacco Cures.

It is a noted fact that the tobacco cures in the Eastern and Southern attracts large numbers of our sections of North Carolina are generally successful. A well known

tobacco man accounts for this in House square has the fact that tobacco in those secu artistically decorated with tions is always cured during the cus pictures. Some people have warm weather in August. The little regard for the beautiful temperature is then high, generally they do not appreciate this even, and bence it is much easier seace of culture and refinement, to regulate the heat than in Sepwa Sheriff Crowell does not ad- tember when the nights are cool. affe these artistic decorations. But Mr. R. H. Ricks, of Nash county Sheriff was at Baltimore when has cured 74 barns this season, all y were put up and could not of the brightest color and without his objections at the proper a single failure of any sort. All

his tobacco was cured by the 20th he business men of Wilson can of August and, hence during the lish a vast deal of good for hot weather. This theory seems whit they will work in harmo- very plausible and if true then ber the apbuilding of the the Eastern tobacco counties have What we need, as the AD- a big advantage over those in the It has before suggested is an cooler sections of the State .-
