## BILL ARPS LETTER

THE OLD MAN HAS THE GRIPPE.  
He Gives a Few Well Deserved Licks at Our Enemies.

La grippe—the influenza—the catarrh—the lae-pizoot—the nose and mouth and throat and chest—the handkerchiefs a day and one under the pillow at night, the flow and sneeze and cough and expectorate and nobody wants your company and you want nobody's company. When this thing stop? The edge is worse than the brimstone. Take quinine. You taken it and my head aches and there is roaring in my ear. Take some cough syrup; done taken it and it makes me sick at the stomach. Put some turpentine or Kerosene on a piece of flannel and apply it to your throat and breast, done it until I'm burnt and smell like a drug store. Well, I don't know what else to do for you. You had better take a Dover's powder and go to sleep, which I did and in my dreams I had a fight with a black snake that was trying to make me swallow it and I wouldn't and finally woke up and cleared my throat in the first time. But I'm convalescing now and cross enough to fight anybody.

I would like to have a fight with Tom Reed if he was in reach and wasn't too big for me. I reckon it is all right to fight Tom Reed and to abuse him and denounce him and raise as big a rumpus as possible, but for the life of me I can't see what good it will do. Tom Reed is only a mouth piece for his party. His tyrannical rulings have already been agreed upon. They have got the power and where there is a will there is a way. Why not give them the rope and let them run the machines. These tyrannical rulings always rest upon the party that makes them. When the Gods wish to destroy they first made mad. The Republican party is manifestly against the South. Mr. Harrison was disappointed us. We had hopes of him as a Christian gentleman. He had an opportunity—a great opportunity to make peace and restore harmony but he seems to think that discord is the best policy and will ensure his re-election. We thought him a great man and we were not to be deceived. He wants the Southern Republican vote in the next nominating convention. And so he must throw them a bone or two to get that vote. Buck tells him that Matt Davis was the postoffice at Athens or else Matt Davis will kick and Matt is a high kicker. There are a score of clever white Republicans in Athens who are competent but he says they can't control the negroes. And Athens is to be insulted. A negro is to have the postoffice—an office that brings him in daily, hourly contact with white men and women and children. Oh, my country! Somebody hand me the cologne, my head aches awfully.

John W. Harrison knows that the surest way to make a race trouble at the South is to appoint negroes to such offices. Our people will not stand it. We have enough to bear besides insults. It is enough that we are called upon to pay our part every year of one hundred millions of pension money to Northern pensioners and our part of the interest of the public debt that grew out of the war. It is enough that our negroes were set free without compensation and our land swept with fire and desolation. It is enough that we have taxed ourselves to pension our own soldiers and to educate the children of our freedmen. When our people will raise up as one man and say: "Thus far shall thou go and no farther." Please hand me the camphor bottle.

Yes, boycott him. Let every Southern merchant swear off from John Wamamaker. He has proved himself an unrelenting enemy. He has been beggared and importuned to give Athens a white postmaster and does not give a respectful answer. Now if Buck is moving on that line let the people of Atlanta boycott him. Ostracize him rule him out of all respectable society. Let him feel and know what it is to insult our people with his appointments. Why even in Missouri a Circuit Judge has just not suited a negro who sued for damages because he was not allowed to sit in the dress circle with the white folks. All honor to that Judge. But John Wamamaker would put a negro in office over six thousand white people. You boycott him. I wouldn't buy a hat or a cravat from a merchant who would trade with him. Boycott everybody who deals with him. Let the South stand firm on the color line. There are thousands of people up North who idolize Grant for conquering the South and who don't know yet that Grant was a slave owner when the war began. I was talking to a

Boston man about it and he smiled a smile of incredulity, and I had to get Applpton's Biography and read old Jesse Grant's letter to him—the letter he wrote to General Grant Wilson in 1868 and told him how Ullyses broke down in St. Louis in 1860 and couldn't make a living, and so he sent him to Galena to clerk for Simpson, his oldest brother, for \$800 a year, and he told Ullyses that the \$800 was the rent of his house and the hire of his slaves in St. Louis, ought to support him. Then I told him about Mrs. Lincoln's brother, Capt. Todd, who fought on our side during the war; and he had never heard of that. My recollection is that the Todd family were slave owners too, but I am not certain.

General Grant's father and Mr. Lincoln's father lived in Kentucky when the war began. It is most astonishing how little the most people know about the war. General Grant was a pro-slavery man as late as October, 1862, but you can't make the negroes believe it. They have been told so many lies that they don't know what to believe. Historical lies are still in force. Even so responsible a magazine as the Century is still allowing them in its columns. The January number has dark hints from Hay and Nicolay that Jefferson Davis contemplated assassination, and the February number has a rehearsal of that old lie about Mr. Davis being arrested in woman's apparel—a lie that has been nailed to the wall by Senator Reagan and Barton N. Harrison and the faithful servant, Jimmy Jones, and now since the death of the great leader his slanderers have come to life again. I am glad to see that the "Confederate Veteran" of Atlanta is equal to the occasion and has republished the true version of the capture. When a man is the hero of any big thing he will naturally attract the attention of the press and make himself out a bigger hero than he was. These men who arrested Mr. Davis have told that lie so long and so often that they are just obliged to stick to it. In fact I reckon they have told it so often that they believe it. Men will do that. I knew an old man who fifty years ago, used to tell us how he settled in the North and how he came to be before the Injuns come and that he knew the Coosa river when it was a little spring branch, and he had jumped across it a thousand times. Old "Uncle Jare," as they call him, had told that no often that he really believed it and he would show fight in a minute if anybody intimated that he was mistaken.

But the question is not about that revamped lie, but that a magazine like the Century would lend its columns to such a slander. Suppose it was true, what does it amount to? Who is benefited by it? Is it of any historical consequence? Mr. Davis was trying to escape capture, and what of it? The Northern papers used to publish how Mr. Lincoln disgraced himself in a Scotch cap and cloak when he first went to Washington, but those slanders never received countenance at the South. Only a few days ago a Northern press told how Mr. and Mrs. Blaine, although overwhelmed with grief, were kissed in the Catholic Church because they did not make the sign of the cross and kneel when they entered the church on the occasion of their daughter's funeral. What kind of people are they in Washington? Have they no feeling, no consideration for the grief that is most crushing. What a people—what a people! Bring me another handkerchief.

But the South is coming to the front at last. The true history of the war is being written. Even Brick Pomroy has dared to publish a tribute to Jefferson Davis. A few more years will see our slanders all dead and then maybe we will have peace. The "Confederate Veteran" of Atlanta, has made a good beginning in preserving the record and I hope that our people will patronize it and perpetuate it. It is a monthly magazine and the subscription price is only two dollars a year. Let every veteran take it for the sake of his children and grandchildren so that they may not be ashamed that their fathers fought and bled in defence of principles they believed to be right. The veterans will soon pass away. Ours will for they are not supplied by pensions to overlive the war. The government has 480,725 pensioners on the roll—more pensioners than we had soldiers at the close of the war, yet twice as many and they increased thirty-seven thousand during the last twelve months. They are not dying, but multiplying. They must be done like a faller at Missionary Ridge who had a contract to exume the scattered bones of the Federal dead and haul them to Chattanooga to be buried in the National Cemetery. He divided the bones

and mixed them with hog bones and cow bones and any other bones and so managed to fill two coffins from every grave and got paid accordingly. They say there is many a grave in that cemetery that has no skull in it. But let us all have peace.

THE NEW RULES.  
They Open the Doors of the Treasury to all Sorts of Jobs.  
The new code of rules drafted by the stragglers in the House of Representatives ought to be styled "a code of rules to simplify and facilitate the business of the lobbyist." Hereofore the lobbyist whom business called to Washington was sometimes paid to great loss of time in hunting up the Congressmen whom he wanted to "see," and sometimes to great expense to persuade these Congressmen to see these things as he saw them, and he sometimes spent months, when he had important business on hand, in this audacious and expensive labors keeping open quarters in the meantime in some of the tony caravansaries. Under the new rules it may be dispensed with, for as they put it in the power of the Speaker to count a quorum whenever it suits his convenience or interest, if there don't happen to be one present, and thus leave it in his power to decide the fate of any warmly contested measure that comes before the House, the lobbyist may dispense with the needless formalities of "seeing" and "persuading" members and simply "see" and "persuade" the Speaker, which will answer the purposes quite as well, if not better, and save him a good deal of time trotting around and considerable incidental expenses. You might take Washington with a fine-tooth comb and you couldn't find a lobbyist who isn't hearty and enthusiastic accord with the majority on the new code of rules. The probabilities are that they had a pretty considerable hand in fixing them up.—Wilmington Star.

THE PULPIT AND THE STAGE.  
Rev. F. M. Shroat, Pastor United Brethren Church, Blue Mount, Kan., says: "I feel it my duty to disclose what I know of the life of King's New Discovery for Consumption, which I used for many years. My lungs were badly diseased and my parishioners thought I could live only a few days. I took five bottles of Dr. King's New Discovery and an amount well gaining 26 pounds in weight."  
Archer Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident that King's New Discovery for Consumption, beats me all and cures when everything else fails. The greatest kindness I can do many thousands of friends is to urge them to try it." Free trial bottles at A. W. Rowland's Drug Store. Regular sizes 50c. and \$1.00.

A Heavy Mortgage.  
The "boss" mortgage was registered in this county last week. It was executed by a citizen of this county to a citizen of Randolph, and was made to secure a debt amounting to the immense sum of sixty-one cents. The property conveyed in this mortgage was a single barrel gun and a scythe, and the officers' fees (it was probated in Randolph and then sent here) for its probate and registration amounted to seventy-five cents. Is there another such mortgage in North Carolina? We hope not.—Chatham Recorder.

Epoch.  
The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is witnessed in the memory and the agency whereby the good health has been attained is gratefully heeded. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alternative and Tonic. If you are troubled with any disease of Kidney, Liver or Stomach, with long or short standing you will surely find relief by the use of Electric Bitters. Sold at 50c. and \$1.00 per bottle at A. W. Rowland's Drug Store.

## FOR THE FARM.

MATTERS OF INTEREST TO FARMERS OF THE SOIL.  
Original, Borrowed, Stolen and Communicated Articles on Farming.  
The farmer of this county are zealous and enthusiastic over their Alliances.—Elizabeth City Falcon.  
We are sorry to see our farmers loading their wagons here with Western flour, meat and hay. These things should not be in a country like this.—Henderson Tomahawk.

Active preparations are going on for crops, and from observation we think our farmers are much farther advanced in work than usual in this county.—Red Springs Farmer and Scottish Chief.  
Much uneasiness is felt in regard to the wheat crop in this county. Farmers says that it is putting up the head stalk, and fear a freeze may kill it, which will injure, or ruin the crop.—Danbury Reporter.

The Snow Hill correspondent to the Kinross Free Press says: Crops in Greene county are not as short as was at first feared. We are informed that there has been as much—if not more—cotton sold here this season than was last.—The farmers in this county have planted lots of what this year. That's a step in the right direction.—The exodus fever has about subsided around here.

The penitentiary farms on the Roanoke river are assuming large proportions. Mr. H. J. Pope, general supervisor, reports that the new quarters are nearly ready. There are 198 hands on the farm, 70 on the Halifax side and 126 on the Northampton side. They will work 75 horses, will plant 1,000 acres in cotton, 800 acres in corn, 400 acres in clover, 400 acres in oats, and have now 100 acres in wheat, besides some in rye and clover already in.—Raleigh Call.

Col. R. B. Creecy, editor of the Elizabeth City Falcon, has planted in the public square of that town a dozen peach trees, which it is said will mature in fifteen years and bear full crops of nuts, enough to supply the present population of the town. The Wilmington Star thinks the peach culture might be made a profitable industry if our farmers would give it attention. The peach tree will grow anywhere the hickory and locust will, and it protected from stock until they get a fair start, require no further attention. For timber purposes the tree is valuable, while the nuts find a ready sale which would pay handsomely for the expense of setting out trees.—Kinross Free Press.

WORK VERSUS WAITING.  
The times are hard, out of joint somewhat in a financial way, but whining and repining will not mend them or improve them. There is only one remedy. Shut up and go to work. The promise is distinctly made to man, and it will be assuredly kept, that he can obtain bread by the sweat of his brow.  
The latter part of last year and much of this month has been more or less taken up by too many of us in talking hard to times, complaining over the short crops, whining that we did not know what to do, but seldom if at all considering how our difficulties could be overcome.  
We have mourned long enough over the hickory and locust, any gain to arise therefrom we have invested heavily enough to be sure of our share. As Long Fellow would say: Have no repinings how'er please! Let the dead past bury its dead. Work, work in the living present; Gods resign, better times ahead.—Tarboro Southerner.

TOBACCO GROWING.  
The tobacco growers of the State have had, the past season more success than the growers of any other clean cultivated crop. While the leaf has been light in weight, it has been generally fine in texture.  
Having heard much of the success attained in the tobacco-growing in Nash County, I paid a visit to that locality a few days since, to see and know for myself. While there was the guest of Mr. R. H. Ricks who has probably attained as great success in the growing of fine tobacco as any man in the State—at least for the past ten years.  
Mr. Ricks had the past season in tobacco, forty-five acres. The average production per acre was 725 pounds, for which he will realize at least forty-five cents per pound. He has sold half his crop, forty-five cents being the average. What he has to sell is equally as fine, if not better. Seven hundred and twenty-five pounds per acre, at forty-five cent per pound, is a calculation easily made, and shows an income which surpasses anything connected with

farming that has come under my observation in the State. Mr. Ricks informed me that he had a white man employed for the past five years as a tenant, and that this tenant had saved from his part of the crop during that time \$5,000 in cash, with which he now wishes to buy a place of his own.  
Mr. Ricks' lands, and also those of neighbors (who are also doing well in growing tobacco), is light sandy, with an original growth of long leaf pine, small oaks and hickory. There are thousands of acres of just such lands in the Southern portion of Anson and Richmond counties, and also in Robeson county, that with the same intelligent management will produce as fine tobacco as the Nash County lands.  
Mr. Ricks manures his lands very heavily, using from twenty to thirty dollars worth per acre. He considers the use of five or six two-horse wagon loads of stable manure indispensable to successful tobacco growing, which is included in the above amount of cost per acre.  
Mr. Ricks is a very practical man and grows clover and the grass, and is raising horses, cows, and fine hogs. He also has considerably dairy interests.  
I learned from him this fact that he could not grow clover and cotton together; that is cotton will not grow on land that has been in clover, neither will it grow in close proximity to it.  
I saw a similar communication in the Southern Farmer and Dixie Farmer, in which the writer asked to have the matter explained why he could not grow cotton after clover. This is a matter that should be investigated by the Experiment Stations of the cotton States and is a proper field of investigation for the farmer. John Robinson, Commissioner of Agriculture in the Wilmington Messenger.
