THE CONDITION OF THE CROPS.

Mail Storm in Davie County Damage Tobacco and Corn—An Excellent Corn Crop Will be Made—The Present Condition of Crops in the State is: Cotton, 76

The Reports of the correspondents of the Weekly Weather Crop Bulletin, issued by the North Caroli na Experiment Station and State Weather Service, for the week ending Friday August 21st, 1891, show that very favorable weather conditions have continued. The temperature and amount of sunshine have been considerably above the normal. Oc casional showers have fallen, but the rainfall has generally been deficient;

Local heavy rains (one inch) occured at Asheville on the 20th and at Raleigh on the 21st. As compared with last week, cotton and corn show slight improvement in condition, while tobacco has deteriorated somewhat, owing to firing, and damge in few places by flea-bugs. Without doubt the corn crop will be most excellent this year, while with respect to cotton a number of correspondents remark that with favorble conditions and a late fall an average crop can be made. Good Growers, Certainly. Three Griffin brothers in this neighborhood have 35 children, 25 of whom are boys, and they are good tobacco growers and have fine crops. Mr. J. C. Beal has a fine crop of cotton and tobacco, but his boys are scarce.-Red Oak Cor. Argonaut,

If you have made up your mind to buy Hood's Sarsaparilla de not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of the peculiar medicine, possessing, by virtue of the peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tol

would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not preved on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other
