Jas, H. Webb, Sec'y, Washington, D. C.:

Dear Sir—I have been using one of your Electropoises for four years, upon a little invalid son, who has been afflicted with a pulmonary trouble and a dropsical tendency. I have found great relief for him in the use of the Electropoise, when the doctors had failed to give him any permanent relief, and I am satisfied that but for its use we should have lost him. I have never seen it fail to reduce his fever, or to bring sound sweet sleep. I would not be without it for many times its cost.

Yours truly, J. C. BUXTON.

BILL ARP'S LETTER. HE SAYS INGERSOLL WAS WRONG WHEN HE SAID

He Would Give a Divorce to Every Woman Who Asked for One Whether Her Hus-

ask, "Is man a failure, is woman a failure, is creation a failure?" But suppose marriage is a failure, what are you going to do about it? Mr. Ingersoll says untie the knot. Let a man untie it for a cause and a woman without cause. His precise language is, "I would give divorce to every woman who wanted it, whether the man had violated the coutract or the man had violated the coutract or The man had violated the coutract or the didn't reflect on the consequences. Mr. Ingersoll says that "parents make a mistake in bringing up their children, instead of letting them grow." Was there ever such theoretic nonsense

uttered by a learned and intelligent man? We have all admired his beautiful expressions, his tenderness, his sympathy, his exquisite pathos of thought, but his utterances in his late lecture in Chicago would indicate that the man has lost his reason. In his desire to obliterate the Bible and all its teachings, he makes a stab at marriage and training up children and at the Christian Sabbath. He says welcome to his company, for every immoral woman, every anarchist, every law breaker is on his side. On the other side are all the great and good men of the centuries that have passed from Milton to Shakespeare down to Macauly and Gladstone.
