A Beautiful Marriage. The marriage of Miss Alice G. Barnes and Dr. E. K. Wright was witnessed in the M. E. Church Wednesday evening at 8 o'clock by a large assemblage of friends and relatives. The church was beautifully decorated in palms, potted plants and chrysanthemums. The bride in an elegant gown of white satin, train, trimmed with duchess lace, diamond ornaments, entered on the arm of her father, Mr. F. W. Barnes. She carried in her hand lilies of the valley. The groom with his best man, Dr. D. E. Everett, of Raleigh, met the bride at the chancel rail, where they were united in the holy bonds of matrimony by the pastor, Rev. Mr. Ivey. The Maid of Honor, Miss Lucy Whitehead, wore white embroidered crepe, trimmed with lace and white satin ribbon, pearl ornaments.

Miss Katherine Wright, of Thomasville, first bridesmaid was gowned in white china silk, pearl and ruby ornaments. Miss Branch, second bridesmaid attired in a gown of white mousseline de soie and diamonds. The groomsmen Mr. E. R. Gay and Dr. W. J. Garner of Darlington, S. C. wore conventional dress suits as did also the ushers Messrs. Ed Graves, Will Anderson, Ed Barnes and Howell Whitehead. The bride was preceded by Miss Gretchen Barnes in blue crepe de chene, and Master Joshua Branch—whose childish fingers unfastened the floral gates. Miss Cheatham played Loenghrins Wedding March and Mrs. W. B. Hill rendered the beautiful vocal solo "Design this marriage to approve."

The bride is the daughter of Mr. F. W. Barnes the well known President of the First National Bank. Possessed from childhood with rare loveliness of disposition, she has adorned her young life with the charming flower of charity and the accomplishments, and cultivation which makes womanhood a charm to society and a blessing to all mankind.

The groom Dr. E. K. Wright a very successful dentist has been in the midst for several years and has won the esteem and good will of the entire community.

THE RECEPTION. Immediately after the ceremony was performed the bridal party entered carriages and were driven to the residence of the bride's father. The reception was held in the West parlor which was beautifully decorated. The bride and groom stood in an alcove with a back ground of pot plants and banks of flowers and shrubs, and received the congratulation of a host of friends. In the East parlor was displayed many beautiful and useful articles, which had been sent by well-wishing friends.

A magnificent banquet was spread and enjoyed to its fullest extent, by the favored ones.

The ADVANCE extends its congratulations and best wishes to the happy couple.

Egypt Mines to be Opened. RALEIGH, N. C., Nov. 25.—Arrangements were made to-day for the resumption of work at the coal mines at Egypt. Work stopped four months ago. During the interval fine hoisting machinery has been put in, and on this and other improvements \$150,000 has been expended. Work will probably be resumed by January 15th. There are heavy orders for coal, particularly from rail ways.

THE NEW TARIFF BILL. A FREE AND FRANK DISCUSSION OF THE INTENTS AND PURPOSES OF THE WILSON BILL—IT IS EVIDENTLY A TARIFF WHICH IS INTENDED TO BENEFIT THE MASSES AND NOT THE CLASSES—RAW MATERIALS GENERALLY ON THE FREE LIST—THE BOUNTY TAKEN OFF OF SUGAR—THE TARIFF ON LIQUORS DOUBLED—REDUCTIONS ON IMPORTED TOBACCO—DIAMONDS, PEARLS AND LUXURIES GET INCREASED DUTIES—MANY OTHER IMPORTANT CHANGES—THE COMMITTEE MEMBERS PRESENT YESTERDAY.

WASHINGTON, Nov. 27.—The tariff bill prepared by the Democratic members of the ways and means committee was given to the public to-day. It deals entirely with the customs and administrative branches of the subject. The internal revenue portion is left in abeyance.

Chairman Wilson has prepared the following statement which was given out this morning with the bill: "The Democratic members of the committee on ways and means are anxious that others could feel, the momentous responsibility resting upon them and the surpassing magnitude, difficulty and delicacy of the duty assigned to them of framing a tariff bill for a nation of seventy millions of people."

"The committee have welcomed information and counsel from every source, and while they do not expect their bill to escape just criticism in all of its details, they do present it to the country as the result of months of study and of an honest discharge of their duty, purged of all taint of local and personal favoritism or prejudice."

"Its main features are two. First, the adoption, whenever it seemed practicable, of ad valorem, instead of specific duties; secondly, the freeing from taxes of those great materials of industry that lie at the bases of production."

"The ad valorem system has worked well in practice, is essentially the fair system, and measures up to the actual value of an article, and was declared by Mr. Clay himself to be in theory and according to every sound principle of justice entitled to the preference and vindicated by long trial."

"The boldest innovation of the bill is its large free list of raw materials. Taxes upon production are double wrongs. They gather ad valorem on the consumer of the finished product. They hurt labor by narrowing the market for what it produces. Coal and iron are the foundations of modern industry. Material progress is measured by the amount of their consumption. No other country can supply them as abundantly or as cheaply as we can. No possible competition can interfere with our own production, a few miles in the interior of the country. Remoteness from the sources of supply is in itself enough disadvantage to any shrunks, and the country without other burdens in tariff taxes. Untaxed ores, coal, lumber, wool and other fibres must immensely stimulate production in certain parts of our country."

"As to the details of the bill, I will briefly recapitulate the salient changes of the several schedules: In the chemical schedule we have transferred to the free list quite a number of articles used in manufactures, the most important of which is sulphuric acid, one of the corner stones of all chemical industry. The duty on castor oil is reduced from 85 to 35 cents per gallon, and the duty on linseed oil, which was secretly raised to 32 cents by the conference committee, is reduced to 22 cents per bushel. The McKinley bill, after each house had openly voted for a lower duty, we put at 15 cents a gallon. Pig lead we reduced from 2 cents to 1 cent a pound, lead paints are correspondingly reduced."

"The McKinley bill increased the duty on opium prepared for smoking to \$12 a pound in the vain hope of lessening its importation. The custom house officers on the Pacific coast declared that the increase of duty has simply placed in the hands of smugglers the bringing in of opium to the detriment of the honest taxpayer, and the loss of half a million in revenue. The duty proposed is believed to be collectable and will put the traffic under government control and supervision."

"In the iron and steel schedule we began with free ore. The discovery of the immense deposits of Bessemer ores in the West, and the discovery of iron in Alabama, has rapidly swept us to the leadership of the world in the production of iron and steel and brought near at hand the prospect of a supremacy in the great field of manufactures. The use of steam shovels reduces the cost of mining to a point where the wages paid 'natural labor' are free-charge. The cost of the iron ore is reduced from 72 per cent, which is from 50 to 60 per cent, to a uniform duty of 25 per cent, a rate somewhat higher in proportion than the rest of the schedule, because of cheap freight rates on foreign pig iron, it being a favorite freight on westward voyages. Steel rail we reduced from \$13.44 per ton, now 75 per cent., to 25 per cent. At the present time, the duty is 15 per cent. In this country seems now disorganized, the other producers will soon need protection more against Mr. Carnegie, than against Mr. Stirling, at Chicago, than against foreign producers."

"Both copper ores and pig copper are made in iron. We being large exporters of the latter, we decided to serve to enable the producers to sell higher to our own people than to foreigners. Nickel is free. Lead ore has a small duty of 15 per cent. Because of the cheap duty on foreign lead, it should be admitted only at the rates which are now existing."

"Sugar has been a difficult subject to deal with. Raw sugar was transferred to the free list by the McKinley bill, because nearly all the taxes paid on it went to the planters. The strong desire among some members of the committee was to put an ad valorem duty of 20 or 25 per cent. on it and to abolish the bounty at once. After much consideration it was decided to reduce by one-half the duty on refined sugar, and to repeal the bounty of one-eighth of a cent a pound, leaving raw sugar untaxed for the present."

"In cotton manufacturers substantial reductions are made, especially on cheap clothes and prints, and the existing system of taxing by a count of threads in a square inch is retained. Hemp and flax are made free; dressed line of hemp and flax 1 cent and 1 1/2 cents, respectively, and cotton and woolen goods are put at 15 per cent, but when imported for covering articles to be exported, are duty free. Wool is made free. This takes the stills from under woolen manufacturers and begets the hope that they may recover from the languishing condition in which they have been for a quarter of a century, and that we may get woolen goods at reasonable rates instead of duties that on common grades frequently reach one hundred per cent."

and in cases, two or three times that mercless figure. "The bill provides that the duties shall be removed from wool March 1st, and reduced on woolen goods July 1st. In the silk schedule the reduction of rates is smaller than in cotton or woolen fabrics."

"The above is a rapid summary of the chief changes made by the proposed bill and will give a satisfactory idea, I believe, of its general structure. It is estimated that it will reduce the revenue on the basis of the importations of 1892 about fifty millions, with an immensely larger decrease of tax burdens to the American people."
