Herring's Drug Store Will be Open Next Sunday.

LOCAL.

June is half gone. Send in your job printing to this office. Several excursions are on docket for July. Court adjourned last Friday after a short session. The Sunday schools flourish during picnic season. Take the ADVANCE for the campaign, only fifty cents. Picnics are popular. Three of them were held this week. M. T. Rhodes sells ice in two or three pound lots, or more. All the school-boys and girls are now at home for vacation. If you enjoy reading the ADVANCE tell your neighbor about it.

The ADVANCE is the best exponent of public opinion in the county. The ADVANCE is the paper for the people. Take it and you will think so too. Every voter should attend the primaries this year. Important matters will come up. Tell us the news if you know any. No matter how little, let us know and we will thank you. Lookout for M. T. Rhodes' ice vehicle. It goes around every morning, noon, and night. Base ball is raging all over the country. Wilson, however, has not caught the infection yet. Hot, dry weather is what is needed during the month of June to insure a bountiful harvest. Ice during this hot June weather is almost a necessity. Call on M. T. Rhodes, near new depot. This is going to be a hustling campaign. Subscribe for the ADVANCE and read a hustling paper. Some of our correspondents are maintaining a long silence. It is time the silence was broken. The bicycle races will take place on June 27th instead of July 4th, as we announced two weeks ago. We will send the ADVANCE during the campaign for fifty cents. You'll thus get all the news and views. The hot, dull season is upon us now, and everybody should do his best to prevent its being duller than usual. Anyone having job work of any description to do would do well to give this office a chance to bid on same. If you want to read a newspaper that is perfectly fair in its utterances and opinions, subscribe to the ADVANCE. Does any body want to take the Southern Magazine? You can get it and the ADVANCE for \$2.50 a year, the cost of the magazine alone. The editor hasn't a good garden this year, and for that reason he would be glad to take subscriptions in vegetables if they will come along in the right order. Tobacco is said to be backward in its growth so far. The cold nights have had a bad effect on it, but it is thought that the warm weather now prevailing will bring it out all right. In speaking of Hoke Smith's being made a LL. D. by the University, the Washington Post said, "Nothing succeeds like success," and it might be added that Hoke Smith is the success. Good rains are reported in the Wilmington section. Wednesday evening right much of a storm prevailed there. The lightning struck the pole on the government building, splitting it, but nobody was hurt. We learn that a teacher is wanted to take charge of the Collegiate Institute at this place. Mr. Silas Warren's death removed an efficient head from that institution, and another is needed to fill his place. It would be a pity to let to the school go down. Next week we will change back to Thursday as the day for publication. When we changed to Friday we thought that we were doing a thing that was best for our subscribers, but since the change we have found out that some of our subscribers do not get the paper until Monday. That being the case, we shall henceforth issue the paper on Thursday as heretofore.

Mayor's Salary. We were in error last week in stating that the mayor's salary had been reduced to three hundred dollars a year. It is four hundred dollars, the old figure at which it has been for a number of years previous to last year.

Press Convention. This week the editors met at Morganton in their annual convention. The good people of Morganton extended courtesies and the editors, no doubt, have enjoyed themselves hugely. It is always a season of pleasure to meet with those of the same craft and exchange greetings and opinions.

The Pic Nic. This has been a week of pic nics, and Finch's mill is the favorite place. Tuesday the Presbyterian Sunday School had a nice time; Wednesday the Royal Arcanum followed suit; and Thursday the Episcopal Sunday School brought up the rear. All report a nice time. These are especially enjoyable for the young, and the old, too, for that matter.

Annual Pic Nic. On July 20th, the annual pic nic of the county Alliance will be held at Rock Ridge, this county. Dr. C. Thompson and Marion Butler will be there and speak. Everybody is invited to come and bring baskets, as it will be a basket pic nic. It will be an all day meeting and good Alliance doctrine is promised to all who will attend. We return thanks for a special invitation.

New Paper. This week the Search-Light, a new paper published at Franklinton, came to our office. The editor is the Rev. Baylus Cade, a man of strong mind. In his announcement he says that he shall be independent of all political parties, but he adds that he favors the People's party more than any other. He is uncompromisingly opposed to the present Democratic Administration. We think we shall enjoy reading Mr. Cade's paper.

Compliment to Dr. Mundy. In giving an account of the commencement exercises of Stanhope Academy, the Nash County Sun uses the following words: Dr. Mundy's address was a literary treat for all who heard it, and highly spoken of by many. Dr. Mundy is an orator, and the manner in which he handled his subject, "Know Thy Self," showed that he is a great thinker, also. We congratulate the Baptists of Wilson on procuring his services.

Old Paper. We were entertained the other day by looking over a copy of the ADVANCE printed in 1874, and comparing it somewhat with the present status of the paper. Col. H. G. Williams was editor then. The advertising patronage was very good, better, we think, than it is now. The column of professional cards was very much better than now. Is Wilson in a better condition now than then? If so, why not show it so that succeeding years can see?

Prof. Foust to Leave. It is with regret that the community will part with such an excellent man as Prof. J. I. Foust. He has been here two years as superintendent of the Wilson Public Schools, and has done a good work. He has been a careful, painstaking officer, and his numerous friends here regret that he felt that his future field of labor lay in other places, and he therefore declined to allow his name to go before the board for reelection to a place that he has so honorably filled. We wish him abundant success in whatever field he shall labor.

Wilson Public Schools. The following are the officers and teachers of the public schools of Wilson that were elected last Monday by the board of trustees: Prof. Geo. Connor was elected Superintendent of the city schools in place of Prof. J. I. Foust, resigned. White school, W. C. Allen, Principal, Mrs. Mamie A. Tomlinson, Mrs. H. F. Murray, Mrs. W. F. Mercer, Miss Azelia Winstead, Miss Sallie Moore, Miss M. A. Herne, Mrs. Louisa Hart, and Miss Mattie Harrison. In the colored school the old corps of teachers was re-elected.

Reception Tuesday Evening. One of the most enjoyable events of the season was the reception given on Tuesday evening last, by Mr. and Mrs. J. D. Well, at their handsome residence on Nash street. The occasion being the return of their daughter, Emma Lee, who has just graduated, with many honors, from Hollins Institute. Miss Emma Lee, in a lovely debutantes gown of white silk, was assisted in receiving by Miss Sallie Hadley, in white mousseline de soie, and by Miss Wells, in pink organdie. A delightful supper, of salad and ices, was served, in courses, to the many guests, all of whom were in full dress.

Your Name in Print. Mr. Albert Rountree, of Brooklyn, was in town this week. Mr. Alex. Greene, of Whitakers, was in town Wednesday. Mr. Robert Rountree, of New York, was in town this week. Miss Ross Smith has been visiting Miss Sallie Hadley this week. Mr. W. M. Carter has returned from a tour of the wholesale markets. Prof. and Mrs. J. I. Foust have been on a visit to Greenville this week. Mr. and Mrs. N. B. Finch, of Springhope, were in town a short while on Monday. Judge Shepherd, of Raleigh, was in town this week visiting his sister, Mrs. W. J. Harris. Thomas R. Woodard has returned from Horner's School, Oxford, where he has been for a year. Sheriff J. W. Crowell went to Raleigh Monday, to carry three prisoners to the penitentiary. Miss Estelle Brodie has been in Raleigh this week attending the commencement at St. Mary's. Miss Mertie Harper, of Smithfield, who has been visiting Mrs. Douglas Hackney, returned home Wednesday. Miss Emma Lee Wells has returned from Hollins Institute, Va., where she graduated at the recent commencement. Mr. John W. Gardner, with his daughter, Mrs. Charles Hughes, and his little son, Kenneth, of Norfolk, Va., is on a visit to relatives in Wilson for a few days.

The Ladies. The pleasant effect and perfect safety with which ladies may use the California liquid laxative, Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co. only. For sale by all leading druggists.

Dr. Sterling Ruffin. The Washington correspondent of the Goldsboro Caucasian, in speaking of the Woodard club that has been organized there, in which he speaks complimentary of our Congressman, has the following to say of a young man who was reared in Wilson: DR. STERLING RUFFIN

Is the brightest man the State has sent to Washington. From the routine and drudgery of a departmental clerkship he has worked his way to the front in the medical profession in Washington. The Ruffin inheritance would make a man of him. The son of a physician, the grandson of the great jurist, Chief Justice Ruffin, instinctively he is well-bred, accomplished, and a North Carolinian.

Court Adjourned. Court adjourned last Friday just after the criminal docket was cleared. Only one really important case came up and that was the State against Frank Locust for the shooting of Lumford Narron. The shooting occurred last November, no witnesses being present. Narron recovered and testified on the stand that Locust did the shooting. Locust denied it, but the jury believed Narron, and Locust was sent to the State prison for three years. James Mobley was sent up for perjury committed in the court room in his testimony. Two or three other convictions were made and the penitentiary gets a fair quota of recruits from Wilson. Judge Bynum's rulings were impartial and he more than sustained the reputation he made here in February. No civil cases were tried at this term of court.

THREE schools will furnish instructions to teachers during the summer, all run by the University of North Carolina. One at the University buildings, Chapel Hill, N. C., one at King's Mountain, and another at Beaufort. President Winston at Chapel Hill, can give any information one desires about these schools.

It is whispered that Mr. Cleveland is not in favor of the present tariff bill, and will use his influence to lower the rates of duties when the matter is referred to a conference of the two houses. Mr. Cleveland was the man who sounded the note of tariff reform and it would be entirely in keeping with his known views if he were to contend for those protective duties to be cut down by the conference.

A Complacent Economist. In 1740, or so late as 1865, the homestead was practicable, but rapid transit and the other new conditions of life in cities make it impossible now.—Baltimore Sun.

WE WONDER when Coxe expects to get his bills through Congress. He is lying around Washington a very long time, and says that he may take up winter quarters in the immediate neighborhood. The people around there will be satisfied if he does not take anything else.

FREMONT, N. C., June 12, '94. In speaking of our National Legislators the other day, some one remarked that if Webster, Clay, or Calhoun, could be permitted to walk into the Senate chamber, they would feel small intellectually, compared to our great Statesmen of to-day. What a pity the Senate is not composed of such men as they were. Oh, shame, where is thy blush, to say that these three great men of their day, or any day, would be but ordinary men now.

We like what Dr. Kingsbury said in last Saturday's Messenger, "Stay in the Democratic party and work for the principles of Democracy, which are as everlasting as the hills." The principles of the grand old party are all right, and will give to the men who work to carry them out, the fairest page in the history yet to be written. If our present representatives would be governed by those principles, and work for the people, as their servants, with more honesty of purpose, integrity and backbone, and who are of the people and for the people, and who will work for their interest, and not for trusts and monopolies. The people will certainly hold this Congress responsible and ask the question, "What have you done for our interest? Render an account." Then they will be dumb. We know how Republican legislation left the country, and we know the Democrats of the South have had a hard time to legislate for the people, but have they done their duty?

A reckoning day will come, and their mantles, we trust, will fall on wretched shoulders if they can be found in the Democratic ranks. Fremont is on a boom. The Methodists are remodeling and repairing their parsonage. Mr. Best is building a two story dwelling. Clemon Hooks has added to his house. Hooks Bros. will build a tobacco

DEATH OF PROF. WARREN. Last Thursday night about one o'clock A. M., Prof. Silas E. Warren passed from time to eternity. He had been sick for about a month, and from the first his illness had been alarming. His great vitality and tenacity kept him alive for many days after all hope had been abandoned by his friends. Prof. Warren had been the Principal of the Collegiate Institute at this place for eight years, and had brought the school to its present stage of excellence by hard, systematic labor. He was a most excellent teacher. His school was especially noted for the thoroughness of its work. He surrounded himself with first class teachers and infused into them his own enthusiasm and efficiency as a teacher. Wilson experiences a great loss in the death of this painstaking teacher and most excellent man. His place will be hard to fill. It is always a matter of deep regret when a useful man is cut down in the vigor of manhood, but it is especially sad when a conscientious and laborious instructor of youth is removed by the hand of death; for real teachers are hard to find. Prof. Warren was a real teacher. He bore the happy faculty of imparting to his pupils a part of his own enthusiasm in the prosecution of daily labors and thus enlisting the full measure of their abilities. Such a teacher is hard to find and is worth a score of the less enthusiastic class. He was a useful citizen, a kind husband and father. His untimely end casts a shadow of gloom over his large circle of friends and acquaintances. The bereaved ones, a wife and two children besides a mother, sisters and brother, have our sympathies. His burial, in Maplewood Cemetery, was largely attended by sorrowing friends.

Bicycles on the Road. Some two or three of our wheelmen took a spin over to Tarboro this week. They made the 28 miles in two hours and fifteen minutes, actual running time. The time between stations was 3/4 hours, but one hour was spent in rest at the city of St. Lewis, which lies along the route. After spending a day at Tarboro they returned to Wilson; but as the weather was so extremely warm they decided that a ride on the train, with steam pushing the pedals, was far preferable to an exertion of will and muscle power on their own parts. Wheeling is fine sport and should be encouraged, and the best way to do this is for our young people to organize a club and have regular "meets."

The Wilson Stock Association are doing all they can to encourage the wheelmen by improving their track and getting up races. The next race will take place on June 27th, at which time \$100 in prizes will be given away.

house. Dr. R. E. Cox is contemplating building a two story dwelling. By the way, the doctor has had a bad case out at Mr. Britton Scotts; a negro thought he could whip a circular saw; he got one hand cut off, collar bone saw into, and other bad cuts, but the skill of the doctor is bringing him around all right. For the last two years he has had several gun shot patients—some of them were shot bad—all of whom recovered. Dick is a favorite here. He has nine children, and has to hustle. The boys and girls had a picnic at Hook's fish pond last Friday, near here, and a splendid time. More than one girl's eyes drooped and looked into the placid water, as her gallant lover told in touching words his love. Like sunbeams falling amid a bed of roses touched by tiny dew drops, were the words, soft and sweet. Ripples of affection were awakened in hearts, that will continue to grow, until love sits enthroned and shall light up the eyes with that brilliancy of language that only the heart speaketh and the lover reedeth. The boys want to know when two girls kiss which one gets the sweetest kiss. They say when a boy and girl kiss there is no doubt about the matter, but we don't know whether or any lips touched that day or not, but it was a day for shoes coming untied, lemonade and milk shakes. Rev. Andrew Moore, of the Primitive Baptist persuasion, preached here last Saturday night. Our Methodist preacher is off on a sick tour. Hope he will soon recover his wonted health and return. Mrs. Wm. Speight, principal of the school at this place, took in the LaGrange and Durham commencements, and will also visit Dr. Bodie's family, and Mrs. Rose, wife of Rev. W. W. Rose, pastor of this circuit for years, and much beloved. This place is noted for its large number of children, pretty girls, gallant boys, and bewitching widows. Comparatively speaking, there is very little whiskey drunk here to what there used to be, and we hear that is the case nearly every where else. Our older merchants, the Aycocks, have gone to farming. Hope they will find it remunerative. We see it stated that each one of our National Senators under Republican rule cost the country annually \$130,000. How is that? If that be the truth, can the people stand such inordinate taxation? F. R. MONT.

Take Simmon's Liver Regulator to remove the bile, clear the head and restore digestion.

Take Simmon's Liver Regulator to remove the bile, clear the head and restore digestion.

GAY'S, June 15, 1894.

Oxford Ties, We have just received another lot on C D and E lasts in Various styles at prices from 75cts. to \$3 per pair. Without doubt we have the

E. R. Gay. Cor. Nash and Tarboro Sts.

A man is known by the whiskey he keeps. If he has good whiskey he shows wisdom, correct taste, and true hospitality, for he considers the health and enjoyment of his guests, his family, and himself. Prudence and commonsense say good whiskey. Science and correct taste say this is I. W. Harper's Nelson County Ky. Whiskey. It's a gentleman's whiskey. A pure, delicious beverage, and a grand appetizer and strengthener. Don't forget the name. "I. W. Harper's" Nelson County, Ky. Whiskey. Sold by J. WILL GARDNER, Wilson, N. C.

IT IS NOT what we say but what Hood's Sarsaparilla does that tells the story of its merit. When in need of medicine remember HOOD'S CURES. Mr. J. P. Futrell shipped last week 144 barrels of Irish potatoes from 3 acres. He sold them at \$3.50 per barrel. He says the crop from the three acres cleared him above all expenses of seeding, manuring, cultivating, and digging, \$369, or \$123 to the acre. This is a fine showing for the net proceeds of 3 acres of land. This section has as fine possibilities in truck farming, grass, and stock raising as any section of North Carolina.—Scotland Neck Democrat.

KNOWLEDGE Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs. Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Having moved my tin shop to the Morris building on Goldsboro street, and increased my force and stock, I am better prepared to serve the public than heretofore. All work done at the lowest cash price. Mr. J. H. Parker will manage for me in place of Mr. J. H. Lockamy, who has severed his connection with me. Thanking you for past favors and asking a share of your future patronage I am, Very Respectfully, S. B. PARKER.

CAN YOU WRITE? If you can we will give you a FOUNTAIN PEN FREE. Carried in the pocket. Always ready for use. The Holder is of hard rubber, perfectly formed and finished. The feed is of the most approved pattern, (the same used in a pen costing \$2.00) insuring an even flow of leakage. The Point will write and last nearly as long as gold. Each pen is filled with the best ink and tried before sent out. NOW FOR THE PLAN. Send us 25 cents in 1c and 2c stamps or silver, for a half year's subscription to VIRGINIA, a beautifully illustrated, 24 page monthly magazine, with excellent information for the office, parlor, bedroom, dining-room, kitchen, farm and garden, with just wit and humor enough to drive away the blues. Don't put it off, but write to-day, and you will have both the pen and magazine promptly. Address VIRGINIA PUBLISHING CO., 5-24-26. RICHMOND, VA.
