### WHAT WILSON NEEDS.

Better School Facilities for her People.

Very few people in the civilized world so utterly disregard the source and sustainer of the civilization by which they are surrounded as not to admit the importance of education in general and we hope none are so blind to their own mental and material good as to oppose the education of their own and their neighbors' children. The last half century, interrupted only by the war, has indeed been an educational era. The few opposers of general education have long since been silenced by enlightened public opinion, and to-day the cry is for education, and higher education. To satisfy this general demand schools have sprung up all over our land, great universities have been established, and all enlightened and patriotic citizens have looked on with interest, knowing that with better schools we will have higher education, higher civilization and greater prosperity.

During this school era the people of Wilson have not been idle. Will has never been slow to recognize the great advantages of education nor has she been backward in what she has done to secure them. Go back as far as you may in the history of Wilson, and you will find few, if any, times when our schools did not compare favorably with those of other towns. While this is, and of right should be, a matter of pride to our citizens, it should not stop there—we should strive to excel our neighbors.

A few years ago, which was the period of blessing of our town. What is there more in its favor than the fact that as soon as the people realized their loss, they immediately began to rebuild it, and now it is fast approaching its former proportions. Wilson has also had many good high schools, the last of which, the Wilson Collegiate Institute, was a blessing to our town and honor to our State. But Providence has removed its efficient leader, and now Wilson has only the Graded school to depend on for the education of her sons and daughters. What is needed? Do we need a school to compete with the Graded school? No, not that. But no one claims for the Graded school anything more than a good preparatory school, and the need of the town is a high school in which students may enter after completing the Graded school course—the one supplementing the other. There is always a circle of higher refinement and intellectual radiating from a good college, but this is by no means the only reason why one should be established here. The material benefit alone, to say nothing of the many other reasons, would justify its establishment.

Any one acquainted with the town can easily reckon at least twenty boys and girls of Wilson, who are regularly attending school in other towns. These students are each paying out from two to three hundred dollars a year, making about five thousand dollars which is carried away from Wilson by twenty students alone. Why should this state of affairs continue? Why should not Wilson have a good college, thereby not only saving many thousands of dollars, which would be brought here from other places? The citizens of Wilson need only to open their eyes to their own interests and see that the old time school enthusiasm to build up a school which would be a pride and an honor to our community.

Where will you find a better town for a school than Wilson, and where is better site for the Warren property? It is the very place for a large co-educational college. The old idea, which so long prevailed, that boys and girls while procuring an education, should not be allowed to see one another is fast being driven out by more advanced educational methods and is being replaced by the broader and more generous ideas of co-education of the sexes. Many of our best universities and colleges are opening their doors to both sexes alike, and why should they not? When we admit that women should receive as high an education as men and since she is to be his companion through life, why should they be separated during their school days?

Let the town secure and control this property, let her citizens unite and build up a school which shall be the pride of our community, an honor to our State, rising as a heavenly luminary, giving light, liberty and prosperity to all upon whom its bright rays may fall.—Daily Star.

### INVESTIGATION INVITED.

Of course it is proper to inquire about what any man says. Is it true?

The most rigid investigation is invited into the testimonials published in behalf of Hood's Sarsaparilla. Special attention is called to the high character of the persons whose testimonials are published by the proprietors of this medicine, as evidenced by their occupations or indorsements. In fact, no matter where a testimonial in behalf of Hood's Sarsaparilla may be from, it is reliable and as worthy of confidence as if it came from your most trusted neighbor.

Franklin Searchlight: From the present outlook we will have more home made bacon in Franklin county than any year since the war, a great many of our citizens in town are trying to raise meat enough for their own use.

NO OTHER Sarsaparilla has the merit to secure the confidence of entire communities and hold it year after year, like HOOD'S Sarsaparilla.

### CLOSE OF THE RELAY

Race Finished in Six Days, Ten Hours, Seventeen Minutes.

RUSH INTO DENVER'S LINED STREETS.

The Governor of Colorado Receives the Wheelmen Amid Prolonged Cheers and Reads the Messages Contained in the Pouch.

DENVER, Col., August 13.—The relay race of the L. A. W. was finished last night at 10:37—six days, ten hours and seventeen minutes from Washington. The signal rocket at Sand Creek, five and three-fourth miles distant, went up at 10:30 and the cheering of the waiting crowds that lined the streets soon heralded the oncoming of the wheelmen. The riders on the last section, George L. McCarthy and George W. Hart came in on Annapolis street to the corner of 16th and from there up 16th to the county court house where an immense throng had been patiently waiting since 5 o'clock. The Governor received the pouch and took from it the messages, reading the one to himself and his telegraphic reply, and handed a message to General McCook and one to Mr. Blake, who had charge of the race from Washington, from representative Springer.

The Governor then said: "Mr. George McCarthy, as the Governor of Colorado, I desire to thank you for the delivery of this autograph letter which was placed in the hands of the first relay wheelman at Washington August 8th, at 1 o'clock noon by the private secretary of the President of the United States. In future years it will be a matter of pride to you and your fellow-bicyclists that you had part in this grand achievement and in helping to make this wonderful record of the skill and speed of the American wheelmen. (Applause.)"

Turning to Mr. A. D. Black, of Jacksonville, Ill., of the L. A. W., the Governor said: "It is my pleasant duty to congratulate you, Mr. Black, as the manager and promoter of this great enterprise upon its auspicious termination."

You have aroused a new interest in that beneficent invention—the wheel—which has already produced so extraordinary a change in locomotion. The fact is the wheel is the greatest invention of modern times. (Applause.)

Which in the head always excepted. (Laughter.)

General McCook then read his reply to General Greeley, after which the crowd slowly dispersed.

### THE INDIANS UP IN ARMS.

Embarrassed by Their Successes They Commit Depredations With Impunity.

HERNANDO, Mexico, August 13.—The forces of government soldiers sent out against the Yaqui Indians have met defeat in all attacks so far made, and the Indians, emboldened by their successes, are committing depredations upon the unprotected ranchmen. A courier has arrived here bringing news of an encounter between soldiers and Indians near the village of Chilpancingo, which resulted in fifteen soldiers being killed and a large number wounded. The Indians lost about ten killed. The Indians ambushed the soldiers and after firing one volley into their ranks fled into the mountains. The government will be asked to send reinforcements against the Yaquis.

### SUNDAY WITH THE HONORABLES

Caucuses, Conferences and a General Busy Day for the Tariff Makers.

WASHINGTON, August 13.—Sunday was anything but a day of rest for the tariff makers. It was a day of conferences at the White house, at the private residences and at the hotels. Secretary Carlisle was with President Cleveland throughout the afternoon. The senate and house conferees made no effort to get together, and they remain as far apart as when their meeting broke up on Friday night. The house conferees were in consultation informally all day, although at no time were they all together at once. Chairman Wilson spent the day with Representative Breckinridge, of Arkansas, at the Elcom hotel, and was there until noon by other conferees. Mr. Wilson did not see the president yesterday.

The meeting of the house men brought about a thorough understanding among them as to the line of action at the caucus today and in the subsequent proceedings of the senate and house. They reviewed the situation from every possible standpoint and prepared themselves for all emergencies. As one of them said last night, it was like going over the field of battle and learning the topography of the ground on the night before the great fight.

At the outset the house conferees satisfied themselves of the parliamentary character of the bill. This was done with great care as to securing an accurate and authoritative decision. Speaker Crisp had been asked to examine with care the precedents bearing on the case, and it was understood that he had done so. He was then consulted by Secretary Carlisle, who, as an ex-speaker of the house of representatives, is regarded as one of the best authorities on parliamentary procedure. From the examination of the precedents, the conferees were fully satisfied that the house of representatives had the right to pass the bill now or at any other time. This decision went much further than has heretofore been understood. It was decided that the house having the actual physical possession of the tariff bill, could pass it with the senate amendments before the Hill resolution passed today, or after the Hill resolution passed, or after the Hill resolution was defeated. That is, so confident were the house conferees of the right to pass the bill at any time that they regarded their rights as entirely unaffected by this congressional action.

### GEORGIA DEMOCRATIC CREED.

The Platform Adopted at the State Convention in Atlanta.

ATLANTA, August 4.—The following is the platform adopted at the democratic state convention which nominated W. Y. Atkinson for governor of Georgia:

"We the representatives of the democratic party of Georgia, in convention assembled, declare our unflinching faith in the principles which brought the party into existence under the wise leadership of Jefferson, and which gave victory to the democratic party in 1862, under the masterly leadership of Grover Cleveland. We declare anew our devotion to the fundamental principles of sound democracy, which are: first, the maintenance of local self-government, and of the rights of each state to govern itself and exercise all functions of government not delegated to the constitution to the federal government; taxation only for the purposes of government honestly administered; gold and silver, the money of the country; equal and exact justice to all men, and the courageous maintenance of the rights of all citizens. We denounce the socialism, paternalism and other dangerous and destructive heresies."

"We hereby approve of and reaffirm our allegiance to the principles of the Georgia state platform of 1892, and of the platform of the democratic party of the nation, as adopted at the convention in 1892, and especially do we insist upon those parts relating to the tariff and currency. Upon the question of the tariff we reiterate the principles and purposes of our national platform endorsed with such unanimity by the democratic party in 1892, and urge upon our senators and representatives, in congress, and upon our president, a speedy repeal of the prohibitory law upon the issue of state banks."

"We demand the immediate passage of such legislation as will render silver to the constitutional position as a money metal, and will secure at once the free and unlimited exchange of gold and silver on a parity, and give to every dollar in circulation, whether coin or paper, the same debt-paying purchasing power."
