You will see from the above figures that eight years ago The Cash Racket Store casted its lot with the good people of this little city, and notwithstanding the prediction made by so many that a "one price, cash before delivery" business could not be successfully conducted here, it has speedily grown from a little 25x60 feet store to three times its original size, and we believe it is only a question of time when we will be forced to get more room. What is the cause of this rapid increase in business? We answer—Underbuy, Undersell. One price to all.

### The Man of the Hour.

He rises every morning,  
Just at the break of dawn;  
He lights the kitchen fire  
And he puts the kettle on.  
He washes all the dishes,  
—Puts biscuits in to bake,  
And as calmly as a cyclone  
Beats to tenderness the steak.

Then he dresses all the children,  
Hears 'em say their morning prayers,  
And lets them go to take the air,  
Or tumble down the stairs.

He sweeps the house all over—  
Knocks the dust from every shelf,  
His wife—she runs for office,  
And he just can't help himself.

—Salisbury Herald.

### John Wanamaker's Testimony.

John Wanamaker is a good business man. He has made a fortune selling goods to the people. He was a successful man before he became a politician. In 1892 he was trying to get votes to re-elect Harrison and keep himself in the cabinet. Then he didn't see anything good in low tariff.

In 1894 he is selling goods in Philadelphia and is not thinking about politics. Now he sees a great deal that is good for his customers in low tariff.

Besides being a good business man Mr. Wanamaker is the smartest advertiser in the United States. He writes "catchy" advertisements that people like to read. His last advertisement is a good Democratic argument. He announces that he kept 619 cases of foreign goods in bond, "in view of the tariff changes," and is ready to offer them at lowest prices. He advertises F. W. Bankers' "on a free wool basis." He offers "400 pairs—handsome all wool couch, bed or wrapper blankets, precisely like them, regularly \$5 up to a week ago; our price \$2.75 the pair."

Low tariff will be a blessing to those who buy from Wanamaker.—News-Observer.

### What do You Take Medicine For?

Because you are sick and want to get well, of course.  
Then remember that Hood's Sarsaparilla will do so with perseverance equaling or approaching the tenacity with which your perseverance equaling or approaching the tenacity with which your complaint has clung to you. It takes time and care to eradicate old and deep-seated maladies, particularly when they have been so long hidden in the system that they have become chronic. Remember that all permanent and positive cures are brought about with reasonable perseverance. Hood's Sarsaparilla attacks disease vigorously and never leaves the field until it has conquered.

### Drowned His Mother.

Capt. John Galbraith, who punches tickets on the O. & C., brings some things besides passengers. He is responsible for the following which he picked up at Clarksville. Near the banks of the river a hen hatched out a brood of young ducks and it was natural for them to take to the water which they did and it annoyed the mother hen no little. She would go up and down the bank with a continual chatter whenever the young ducks were sporting themselves in the water. The ducks must have become tired of so much parental advice and noise, so they gathered about the old hen and actually showed her over the bank and she met a watery grave. She was drowned.—Durham Sun.

Mr. S. D. Cromer, who lives near Walnut Cove, while working in his tobacco a few days since, found at the foot of a tobacco stalk, something in the shape of a ten dollar gold piece. Searching further he found other similar pieces and three pieces of silver, when upon examination proved to be British gold coin of the value of about \$42. The latest date on any of the coins was 1837.—Western Sentinel.

### Nothing Strange.

Intelligent people, who realize the important part the blood holds in keeping the body in normal condition find nothing strange in the number of diseases Hood's Sarsaparilla is able to cure. So many troubles result from impure blood, the best way to treat them is through the blood, Hood's Sarsaparilla vitalizes the blood.

Hood's Pills are the best after-dinner pills, assist digestion, prevent constipation.

## MURDERS ARE MANY STORMS ON THE SEA

The Chinese Soldiers Kill the Missionaries.

### OTHER ADVICES FROM THE ORIENT.

Large Reinforcement of Japanese Troops Has Gone to Korea—Wagers are Being Made That the Japanese Will Occupy Peking.

SAN FRANCISCO, September 17.—News is at hand per steamship (decade of the number of a Scotch missionary named Rev. James Wylie, a New Chicago correspondent of the North China Daily News writing under date of August 20, says: On the 14th inst., at Lyons, fifty miles above this port, soldiers en route for Corea from Tien Tsin arrived. Wylie, a member of the Scotch Presbyterian mission, with knives and pistols. They left him lying on the ground in the public roadway where his colleagues found him murdered and bleeding from his wounds. His lower jaw was broken in two places and he had several wounds about the head and face. These wounds, however, were not so serious as the injuries to the brain caused by the blows or kicks. He died at 6 o'clock on the morning of the 16th inst. The attack was entirely unprovoked. The higher native authorities, it is said, are acting discreetly in the matter. The local magistrates demanded from the officer in charge of the regiment the surrender of the guilty soldiers, but this was refused, and one is not surprised, for if the officer had dared to comply with any such demand, he would probably have been the next victim. This is a rumor to the effect that this officer is to lose his head.

On August the 21st the following telegram from Chee Foo was received at Yokohama: "The German Fathers belonging to the Catholic mission at Keng-chen in southern Shantung have been seized and held for ransom by bandits, whom the authorities are unable to capture."

The Chinese fleet under the command of Admiral Ting has sailed south for the purpose of intercepting the Japanese. Orders have been sent to the Chinese ports to maintain a most careful watch for the approach of the enemy.

### ALL CAPTAINS TO APPEAR.

Work Before the Lease Investigating Committee in New York.

WASHINGTON, September 17.—A correspondent says: Without revealing any secret of the latest maneuvers of its control, or of any one connected with the investigation of the police department, it can be said that every captain in harness today, or on the committee, awaits the call of the committee. There will be no exception to the rule that the inquiry into charges made against the captains already taken up so far, some are to be made some of the others from an opportunity to make an explanation. So when the hands met for work on the day he had been summoned to do, he said he did not propose to pay taxes to work the convicts on the roads and then work himself, and all who agreed with him were invited to pick up their tools and leave.
