The Government's Exhibit at Cotton States Exposition.

ATLANTA MAN GETS THE APPOINTMENT yesterday.

The Order of Elks Incorporated-Washing. ton Has a Sensation-Alabama and Mississippi Land Commissioners. Georgia Gets a Plum.

WASHINGTON, July 15 .- Register J. Fount Tillman, of the United States treasury, will send from his bureau to the Atlanta Exposition one of the most interesting and attractive exhibits to be ted States government. The exhibit contains specimens of treasury issues of every form, made on account of the various loans, since the foundation of the government, grouped and arranged in chronological order. Added to this is a full and well-preserved collection of colonial money, which is valuable as well as interesting. The government was compelled to purchase this collection by piecemeal from various persons who were holding the money as sonvenirs, and a good sprice was paid for the necessary pieces to complete the collection. One of the features of the exhibit is the continental money. All the issues of the thirteen original states are represented, embracing all dates, denominations and conditions of payment. The exhibit includes continental money, colonial money, specimens of the issues of the late confederate states, both currency and bonds, United States bonds, United States currency, national bank notes, bills of broken wild cat banks in active operation be fore the civil war, and the check which England made out in favor of this country for depredations committed by the steamer Alabama on the commerce

The "loan office certificates" are probably as interesting as any other feature of this collection. Many have the interest figured out on the edge of the note, showing that the holders had puzzled their heads to find out what Uncle Sam owed them. On one of the collonial notes, issued in 1774, are inwith a quill pen could have reproduced the note exactly, so crude and rough

The collection is mounted on two separate columns, each seven feet high. Thirty-two frames are swung on hinges to these columns, and in these frames the notes are mounted. They are well arranged and are lettered and grouped in an artistic manner.

Swineford's Arsenic-Lithia Water Co., Richmond, Va., Dec. 13, 1804 Gentlemen—Allow me the pleasure of adding my testimonial to the many you must have received for your valuable water. It has done me so much good I wish others suffering as I have to receive the benefit. For four years I suffered agony from gravel and kidney colic, and was treated by specialists without relief, and finally was ordered by my physician here to go to "Swineford's Arsenie-Lithia Spring." On the day I intended going I was taken with an attack of kidney colic and could not go, but had the water sent to me, and drank of it freely with almost immediate relief. I kept drinking the water, and now I am happy to say I am entirely cured, and am feeling better than I ever did before. fore.
Hopfing others may be benefited as I have been by your remarkable water. I am,
