ONE YEAR.....\$1.00  
SIX MONTHS.....50  
Remit by draft, post-office order or registered letter at our risk. Always give post-office address in full.

Advertising Rates furnished on application.

No communication will be printed without the name of the writer being known to the Editor. Address all correspondence to

THE ADVANCE,  
Wilson, N. C.

THURSDAY, - - August 8, 1895.

## CHANGE OF FORM.

With this issue we change the form of our paper from a four to an eight page sheet. This change has been made necessary in order that we might meet the demand for special position advertisements. It is also done that we may group our subjects to better advantage. For example, we have set aside an entire page for the especial reading of our farmer friends, and will be glad to have communications on farms and farming from any of our readers who would like to contribute to the columns of this page.

The town locals will be found on pages three and seven, editorial on page two, telegraphic news on pages one and eight, fiction on page five, and financial clippings on page four.

It will thus be seen that each subject will be treated separately, and those wishing to read only a certain class of matter may find it in a moment. It will be our endeavor to make every page as attractive as possible.

## THE ROBINSON IMPRISONMENT CASE.

The reading of the whole matter in the Robinson-Ewart case of contempt and imprisonment has satisfied us as to two points:

1. The most remarkable forbearance, serene temper, and calmness of statement and comment of editor Robinson, and

2. The high-handed tyranny and vindictiveness of the judge presiding—Hamilton G. Ewart. There is not a vestige of justice in this persecution. It is the greatest judicial outrage ever attempted in North Carolina and to find its parallel you must go back to Jeffries, and the "Bloody Assize." How a half fledged Judge can dare to so bear himself in free North Carolina is very difficult to understand. He must be of very weak brain or most virulent temper. Surely no man of balanced mind and proper conceptions of right and justice would act as he has done in reference to editor Robinson.—Messenger.

## FREE COINAGE ADVOCATES.

Under the above headline the Smith-Herald says.

"It is all foolishness to talk of the silver craze and its advocates being fools, when its advocates all along through the century have formed such a brilliant array of intellectual lights. Take as examples Washington, Jefferson, Jackson, Calhoun, Thurman, Carlisle, Morgan and Stephenson."

He is like the republican party, claiming everything in sight. Out of the eight men above mentioned only two have made any open declaration for the silver of the Herald (16 to 1), and one of those "great intellects" (Thurman) was never heard of outside of his own State until this year, and then only appeared as a flash in the pan.

This is another of his misleading statements.

The first register of deeds of Orange county is still in office and has never been defeated.—Ex.

## DON'T FAIL TO CREDIT.

"The Herald census shows that there are 155 more women than men in Morganton. Maybe that's what makes it the best town in the State."

The Morganton Herald has the above in its editorial columns, but we notice in the locals that Mayor Bristol and Chief of Police Wall are doing business too. They arrested, convicted and imposed fines to the amount of \$86 50 from thirteen law-breakers. They deserve some praise as well as the ladies.

THE Commissioner of Immigration at the Port of New York reports a heavy increase in immigration. So far about 45,000 more immigrants have landed at that port than for a corresponding period last year. There has been a marked increase in the number of women and children brought over to join their husbands and fathers, which the Commissioner thinks goes to show the returning prosperity of this country.

THE developments in the Beaufort insurance frauds show that some people are willing to go to any length to get money. In a recent conversation with a gentleman from Beaufort he stated that in one instance it was currently believed that a man had murdered his wife in order to secure the insurance on her life. We trust that the guilty will be punished to the full limit of the law.

DURING the past few weeks nearly \$1,000,000 has been invested in North Carolina in cotton mills and other manufacturing enterprises. All this goes to prove that an era of solid prosperity is dawning in the Old North State. Let our people go to work and encourage outside capital to make investments among us; it will prove a benefit in more ways than we could imagine.

THE United States cruiser Columbia arrived on this side after a most successful trip across the Atlantic. Her speed was remarkable, and fully demonstrates her ability to overtake any merchant ship afloat. Although she did not maintain a full head of steam for the entire trip, the record of the ocean, made by the New York, was only a few hours better than hers.

MR. L. B. ALEXANDER, of the 4th regiment of North Carolina National Guard, has written to President Collier, of the Cotton States and International Exposition, asking for space near the Exposition grounds for a camp of ten days. The regiment expects to encamp during the Exposition.

A RECENT decision handed down by Judge Simonton declares the law taxing piano dealers \$250 per year, as passed by the recent legislature, unconstitutional, as it conflicts with Article 1, § 3 of the Constitution of the United States, which gives to Congress the exclusive right to regulate the trade between the States.

THE American yacht Defender will doubtless be chosen to defend the Queens cup. She has proven herself the fastest sailer afloat, and if the English boat beats her she will indeed be a marvel of speed.

IN Spain gold and silver are carried at a fixed ratio. We have not heard that Spain is bothered with too much silver.—Tarboro Southerner.

No; Nor gold either.

THE first tax paid by a music-instrument dealer came into the State Treasury from Wilmington. The tax is \$250. It is the first paid in two years.—Ex.

Nervous debility is a common complaint, especially among women. The best medical treatment for this disorder is a persistent course of Ayer's Sarsaparilla to cleanse and invigorate the blood. This being accomplished, nature will do the rest.

## KENLY NOTES.

We have lots of girl babies here but Dot don't feel like waiting for them just the same.

I have been informed since my last report that Mr. J. T. Edgerton says its a boy, which stands No. 40.

Mrs. B. B. Rhodes, of Wilson, is visiting her daughter here, Mrs. Dr. Pennington. Hope when she leaves that she may carry with her an increased admiration for Kenly.

We had five rains here last Saturday night and Sunday which were perhaps more beneficial to crops than any rain during this year. The feelings with regards to the cotton crop are much better than they were two weeks ago.

Mr. Jarvis Edgerton desires a correspondent of the following description: Female, unmarried between seventeen and twenty years, good looking to others. If such a one will send him their address, they will receive reading matter that will be edifying and probably productive of good.

At this time, Tuesday morning, I am called to see the child of Mr. J. H. Davis die, age about nine months. It breathed its last at 7:15 p. m. It was thought some days ago that the child was improving but it is only a reiteration that hope is a delusion. We extend sympathies to the bereaved parents and say of the child:

Sleep on darling take thy rest,  
Do not feel at all forlorn;  
Jesus says thou shall be blest  
In the resurrection morn.

Well, as I intimated last week I went to the picnic at Zion last Friday which I found was represented by a very large number of people of all ages, from the old grandmother to the other end of your imagination. Some of which squalled as though their feet had been poulticed with live coals of fire. One mother told me that her's was crying because somebody got its piece of chicken. The people were so accomodating with their edible viands that I eat myself to unreasonable weight just to oblige them, so much so that I went in the church to lead the singing, the capacity for expansion and contraction to give power to the vocal organs was a failure and I could do nothing more than simply whine and squeak from the throat. I took a lady to the picnic and had to contend with a great many blushes from being teased but if the ladies will come to the same determination that I have we will make such so common that they will have to look some other sport and not be all the time hallowing out "look at Dot."

MISSOURI Democrats met at Perle Springs, Mo., Tuesday, and after electing Hon. R. P. Bland chairman, resolutions favoring the adoption of free silver at the ratio of 16 to 1, without waiting for anything, were unanimously adopted.

FRESH outrages are reported from China. American missionaries at Yungshu were surrounded at night and women and children killed. Details of the Kucheng massacre are horrible.

\$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.

Address, F. J. CHENY & CO., Toledo, O.

## LITERARY NOTES.

The forth coming international yacht race gives an additional strength to the article on "The Yacht as a Naval Auxiliary," by the Hon. Wm. McAdoo, Assistant Secretary of the Navy, in the August number of the North American Review, Mr. McAdoo writes brilliantly regarding the future of the naval militia.

The North American Review for August opens with a paper on "The Menace of Romanism" by W. J. H. Traynor, President of the American Protective Association, and Andrew Lang, the well known English writer, contributes a piquant article on "Tendencies in Fiction." A most seasonable paper is that on "What to Avoid in Cycling," by Sir Benjamin Ward Richardson M. D., and in "The turning of the Tide," Worthington C. Ford, Chief of the Bureau of Statistics at Washington, asserts that the commerce of the country has turned from depression toward prosperity. "The new Administration in England, is ably treated by the Right Hon. Sir Charles W. Dilke, M. P., who gives a forecast of what may be expected in British politics from the Unionist administration.

Not since "The Anglomaniacs" has there been so clever a society satire as Henry Fuller's "Pilgrim Sons," which is published in the August Cosmopolitan. The problems involved in woman's use of the bicycle are so startling and so numerous, under the rapid evolution of this art, that one welcomes a careful discussion of the subject by so trained a mind and so clever a writer as Mrs. Reginald de Koven. The Cosmopolitan illustrates Mrs. de Koven's article with a series of poses by professional models. A new sport, more thrilling than any known to Nimrod, more dangerous than was ever experienced by even a Buffalo Bill is exploited in the same issue in an article on "Photographing Big Game in the Rocky Mountains," before shooting. The idea that ten cents for The Cosmopolitan means inferiority from a literary point of view is dispelled by the appearance in this number of such writers as Sir Lewis Morris, Sir Edwin Aronld, Edgar Fawcett, Tabb, W. Clark Russell, Lang, Sarcey, Zangwill, Agnes, Repplier, etc. Nor can we entertain the idea of inferiority in illustration with such names as Hamilton Gibson, Denman, Van Schaick, Lix, Sandham, etc. figuring as the chief artists of a single month's issue.

From the manner in which some of the great newspapers are putting on style we guess good times have arrived. The New York Herald recently completed a building at a cost of \$2,000,000 and put in sixty type setting machines. The editor of the Harnett County Union announces that he has just taken a bath, and The Progressive Farmer has just added a hand painted cuspidor to its office fixtures.—Progressive Farmer.

Mrs. Anna Gage, wife of Ex-Deputy U. S. Marshal, Columbus, Kan., says:

"I was delivered of TWINS in less than 20 minutes and with scarcely any pain after using only two bottles of

"MOTHERS' FRIEND"  
DID NOT SUFFER AFTERWARD.

Sent by Express or mail, on receipt of price, \$1.00 per bottle. Book "TO MOTHERS" mailed free.

BEADFIELD REGULATOR CO., ATLANTA, GA.  
SOLD BY ALL DRUGGISTS.

EXECUTOR'S NOTICE.  
Having qualified as executor of the estate of M. C. Pridden, deceased, this is to notify all persons holding claims against the estate of said deceased to present them to me on or before the 1st day of August, 1896, or this notice will be plead in bar of their recovery, and all persons indebted to said estate will please make immediate payment. This August 1, 1895.

W. H. PRIDDEN,  
Executor.
