A SUPERIOR NAVY,

If Not a Larger Navy, Than the Other Great Countries,

IS WHAT IS CLAIMED FOR UNCLE SAM.

One of the Vessels Uncouples Her Engines in Less Than Three Minutes, While It Takes the Great English Blake Over 30 Minutes.

WASHINGTON, Aug. 26.—An unofficial report to the secretary of the navy recently received contains further evidence of the general superiority of the new ships of the navy over most of the navies of the European countries, especially of Great Britain. Mention has already been made of the facts that at the Keil, at midnight without a moments warning or preparation the engines of one of the vessels, were coupled and uncoupled at the request of Emperor William, who was spending the evening on board, the whole operation requiring but two minutes and forty-five seconds, greatly to his majesty's astonishment. But it has not been published that the same operation on board the cruiser Blake, the crack ship of the British navy, at drill, when every preparation had been made for it, required 33 minutes for its performance.

Another thing which elicited expressions of praise and astonishment from the official visitors to the Columbia at Kiel, was the condition and appearance of the vessel so soon after its trial trip. Everything was found in shipshape greatly to their surprise. After the Blake had undergone her trial trip, it was said, months were required to put her in order, the machinery having been wracked so in that ordeal, and it was difficult for visitors to the Columbia, to understand how the American ship had so speedily been put in condition.

The report further stated that the machinery in the Blake was to be torn out, and that she is to be reconstructed although one of the newest vessels of navy.

Smart Advance in Pig Iron.

CLEVELAND, Ohio, Aug. 26.—There is a stir in the pig iron market. Pig iron has advanced \$1 in the last three days and is now quoted at \$15.50 per ton, which is the highest point reached since 1890, when it sold at \$4.50. This advance has long been expected by the manufacturers, owing to the ever-increasing demand for pig iron, which is the basis of all grades of iron and steel. A general rise in price may also be looked for along these lines.

A REAL BULL FIGHT

Takes Place in Colorado That is Disgusting to Spectators.

BALLOU'S IDEAS WELL SUSTAINED.

Two Bulls are Cruelly Killed and the Sheriff Comes Upon the Scene and Arrests the Parties, Who Give Bull—Wicked Sport.

CRIPPLE CREEK, Col., Aug. 26.—Manager Jose Wolfe again carried out his promise to give the people a real bull fight, the performance yesterday resulting in the slaughter of two bulls. He has probably made money out of the speculation, but he has not succeeded in making the miners of this camp believe that bull fighting is entertaining sport. The novelty of the exhibition and the anticipation of a conflict between the sheriff of El Paso county and the management of the carnival, drew five thousand people who crowded the amphitheatre, more than the desire to see a bull slaughtered.

The sight of an ordinary Hereford bull, accustomed to quiet scenes, being badgered and tormented, his sides pierced by the cruel darts and by the goads of the picadors, and finally the disgusting brutality of the stabbing and death of the tortured animal, was a spectacle revolting to American ideas of fair play. The Cripple Creek miners want the public to understand that they do not endorse the show; had the civil authorities used their proper power to stop it, not a protest from the miners would have been made.

There is no doubt about the genuineness of this bull fighting. La Charita, the banderilleros, Garcia, Esquivel and the chief Mexican, Cheche, performed their parts with sufficient agility, grace and fearlessness to satisfy the public of their ability. The referred bulls were declared "no good" by Cheche. In the mortal thrust Cheche, however, proved not to be expert, for both Saturday and yesterday had to use his long, sharp sword several times before the bulls were killed.

Excursion trains from Denver and Colorado Springs were waited for, and it was late in the day before the picturesque cavalcade came into the arena and saluted the spectators.

Deputy Sheriff Brisbane, was present and declared that no cruelty would be tolerated. Manager Wolfe promised this as usual, but when the first bull was admitted to the ring, the picadors lost no time in prodding up the animal, while several steel darts were swaying from the sides of the maddened Hereford. The managers and assistants were placed under arrest. A justice was handy who quickly accepted bail. After the first bull was butchered, arrests were again made and bond as specially secured.

Adjutant General Moses advised with Brisbane and urged him to stop the cruelty. When the toreador bungled at the end of the second killing, the governor's representatives left the scene, evidently disgusted. After his conference with the governor over the telephone he returned and told Brisbane to go into the arena and arrest each mardor every time a dart was thrust into the bull. The presence of a lot of tough men, all armed with revolvers, cowed the deputy, and he contented himself with wordy altercations with the management.

Night came on before the long program of wild riding, steer tying, lasso throwing and other similar sports had ended and many left before the performance closed.

The audience was generally quiet, growing excited only when the bull drove the men into boxes and over the barriers. But they watched the officers of the law as well as the bull killing.

BLOOMERS GO IN LITTLE ROCK.

The New Woman Must Dress Appropriately and She Didn't Frighten Horses.

LITTLE ROCK, Ark., Aug. 26.—Judge Wilson dismissed the prosecution against Mrs. Noel, who was arrested last Thursday for appearing on the streets in bloomers. In delivering his opinion, the judge said: "Women have a constitutional and God-given right to ride a bicycle and they are bound to have some comfortable and appropriate dress therefor. Woman with one foot in the grave and the other on a pedal, were she of a size to threaten to frighten horses, and impede traffic; or were her habiliments of the sort originally designed by the woman whose name they bear, I should be disposed to give her the limit of the law. As it is the case, it is dismissed at the city's cost."

NO PRIZE FIGHTS IN TEXAS.

The Sheriff is Ordered to Notify the Fighting Management to This Effect.

AUSTIN, Tex., Aug. 24.—Governor Culberson, yesterday, made public some correspondence between himself and Sheriff Cabal, of Dallas, anent the Corbett-Fitzsimmons prize fight.

The governor in his letter asked Cabal if he intended accepting the attorney general's opinion holding the prize fighting law valid. Cabal replied that if any writ was placed in his hands by the county attorney he would certainly serve it and he adds that in case no writ is issued and the responsibility is thrown entirely on him, he will unhesitatingly discharge his duty. He in turn asked the governor if under the law he would be justified in using force, even to shooting down citizens, or if such a course would be advised by him. In reply to this the governor says that at the proper time what force may be necessary to successfully quell the fight will be easily secured. He further advises the sheriff to notify the fighting management at once that they intend to suppress the fight at all hazards, so that the management can cease operations on the ring and building at Dallas.

Won't Recede From His Position on the Kentucky Platform.

LOUISVILLE, Ky., Aug. 26.—Gen. Hardin and all of the other candidates on the democratic ticket were present at the conference of leading democrats here Saturday.

Gen. Hardin made a speech full of vigor. He did not recede one iota from the position he had taken on the financial question. He contended he was standing on the platform, and was not in conflict with his party.

Hardin said in his speech to the committee that he would submit to a caucus of the party, but he would not yield to dictation. He asserted his ability to construe the platform, and said he abided by his utterances, which had been published, and had nothing to retract or mollify.

When he closed there was warm applause from the silver men present. All the candidates, with the exception of Mr. Tyler, candidate for lieutenant-governor, agreed to stand by Mr. Hardin in his construction of the platform. Mr. Tyler announced his purpose of continuing to speak for sound money, and that the utterances of the platform of the ticket might be on the currency question.

BANK NOTE BOYCOTT.

The Knights of Labor Asked to Join In It.

MINNEAPOLIS, Minn., Aug. 26.—H. B. Martin, of the executive board of the Knights of Labor, who has just returned from the east, declares the knights are dead in earnest as to the boycott of the national bank note urged by General Master Workman Sovereign and that the boycott will be put into effect after Labor day, September 2.

"After that date," says he, "all knights, their friends, farmers' organizations, populists and money reformers generally, are requested to refuse to take bank notes for any obligation due them. We expect active support from the silver men, who recognize in the banks the bitterest enemies to the white metal. Many labor organizations have already given notice to their employers that they desire to be paid off in legal tender money and not in bank notes, and many employers will co-operate with us. We shall put the bankers on the defensive, arouse public sentiment against banks of issue and ultimately wipe out the malign influence of the banks on our currency system. It must be remembered that bank notes are not legal tender, and no man can be forced to take them. By the time congress is in session next December we expect the boycott to be in full swing and to have a good effect on legislation."
