School Books.

At the meeting of the County Board of Education, held on Monday last, the old list of books was continued with the exception of Holmes' reader which was dropped.

Your Boy Wont Live a Month.

So Mr. Gilman Brown, of 34 Mill Miss Minnie Wyatt and Mrs. St., South Gardner, Mass., was told by the doctors. His son had Lung trouble, following Typhoid Malaria and he spent three hundred and seventy-five dollars with doctors, who finally gave him up, saying: "Your boy wont live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's New Discovery, and knows it to be the best in the world for Lung Trial Bottles Free at B. W. Hargrave's.

Children Cry for

The W. M. A. held their commencement excercises on last Tuesday and Wednesday nights, June 2 and 3d. The address was delivered on Tuesday night by Judge H. G. Connor. The exercises opened Tuesday night with music by the W. M. A. Band, a declamation by W. H. Applewhite and an instrumental duet by Misses Yerex and Farmer.

Prof Beasley in a very nice little speech then introduced the orator of the evening, Judge H. G. Connor, who delivered an excellent address to all young people who were on the eve of battling with the world. He opened by giving the audience reminicences of his boyhood days, when, over thirty years ago, he had stood upon that same rostrum and made an attempt to deliver a speech, which he said was one of the most honest efforts of his lite but feared it was not as successful as it was honest. After having entertained the audience for a few moments in this style he commenc d his talk to the young people, filled with good advice, which if followed, will undoubtedly make them honored and respected citizens of their town and State. One thing which he dwelt upon especially, a habit which is doing more to ruin our boys tahn anything else was the habit of using tobacco. We heartily agreed with him when he said "boys using tobacco in any form, but cigareties especially will eventually take to cank, after the poison of the toha has done its work." Judge or's address was one that every y person should have heard. he had finished, Miss Yerex, in behalf of the Victoria and Lee and Jackson Literary Socities, presented him with a beautiful waiter of flowers. After music by the band the audi-

The programme Wednesday night consisted of exercises by the school and reflected credit upon themselves and their Academy.

The different pupils now go their homes to enjoy a well earned vacatian and rest up for the hard work next term.

lwo Horses Hart.

ence was dismissed.

Sunday was an unlucky day for Mr. J. O. Farmer in the livery busi-

A colored man hired a horse from him to drive over to Elm City. While on the road the horse fell down two or three times, but no notice was taken of it until on the way back when the animal gave out and was left on the road. Mr. Farmer sent for it Monday, and when brought to town his shoulder was found to be badly hurt-whether the horse will recover we have not heard.

Accident No. 27 Two of our young "sports" drove over to Elm City, presumably to see some of the fair sex. After tieing the borse to a tree they went in to have a few hours chat. The horse, aftar waiting until nearly 9 o'clock, came to the conclusion that it was time to start for Wilson, so he proceeded to unhitch himself. After several unsuccessful attempts he succeeded and made a "bee line" for home. The railroad being the most direct route the horse took to the middle of it and came at a "2:30 gait" for Wilson with the buggy. After going about two miles down the track, over a trestle and cattle-guard he was stopped. Result-badly cut horse and one of the shafts to the buggy broken.

Most coughs may be cured in a few hours or at any rate in a few days, by the use of Ayer's Cherry Pectoral. With such a prompt and sure cure remedy as this at hand, there is no need of prolonging the agony for weeks and months. Keep this remedy in your

The Streets in Wisson Should be Macade-

The improvements that are most gratifying to the citizens of a town are those that are permanent, that make the town, a more desirable place to reside in, that attract the attention and admiration of other people and give to the citizens the assurance that they get value received and have something substantial to show for the money so expended.

We have a town that all of us may feel justly proud of. In the last several years it has taken bold and decided steps toward a great and bright fu ture, it has a splendid, but an ipsufficient, electric light plant, the water system could not be improved on. the sewerage system has been built in accord with the most modern and scientific methods of sanitary drainage and we are also fortunate in enjoying a model telephone exchange. We must not halt in this progressive murch, to talter is to fail.

It has one other step to make, it is this; we must have macademized

Spend the money now paid for throwing mud and sand on our streets for something permanent in street improvements, put it down a little at the time until all the streets in the town are macademized. It is high time to discard the present plan of the street force, remember under the present system the streets will be in no better condition filty yeras hence than they are to-day.

A complete plant for making macadam roads with a capacity for crushing So tons of rock per day can be purchased for \$1,600. Last summer the citizens of the town spent one-third (1/3) of this amount without any perceptible effect whatever on the roads near the town. As for material, Contentnea creek, from Wiggin's Mill to the railroad bridge is lined on either bank with beds of rock sufficient to pave every street and road in Wilson county, this rock, only three miles from town, could be delivered and crushed in Wilson at a mininum cost.

Macademized streets will soon be a necessity to us and in the future let all our energies and subscriptions be devoted to the consummation of this object.

TO THE EDITOR:—I have an absolute remedy for Consumption. By its timely use thousands of hopeless cases have been already permanently cured. So proof-positive am I of its power that I consider it my duty to send two bottles free to those of your readers who have Consumption, Throat, Bronchial or Lung Trouble, if they will write me their express and postoffice address. Sincerely, T. A. SLOCUM, M. C., 183 Pearl St., New York. The Editorial and Business Management of this Paper Guarantee this generous Proposition.

Alleged Fail of Prices.

It is said that the single gold stroderd bas produced a disastrous fall in to prices of commedities. Prices of con. medities reast to either advancing or declining or chaisnesy. The Perk has no experience of stationary prices and probably never will have. Therefore those, who ery out against declining prices must be in favor of wivancing ones, but how far they would push the advance they do not say. Is there are limit to the desirable advance? If so, what is to be done when it is reached? As prices cannot be studiouary, there must, then, be a decline. So we do not avoid misery by gratifying the bimetal. lists. We only postpone it.
