Two young English-, men, direct from Cuba-Harry E. York and Lee A. Hervey-have reached this city after having passed several weeks in Cuba and with the insurgent ar.n7 pirt of the time and the remainder in the field with the Spanish troops . Hervey has received a shot through this le't arm. They are preparing a report for Senitor Cameron, which will be forwarded to Washington in a few days. The Cabups are not in want of man, but money, ammunition and medicine. There are not over 25,000 Cuband, while the Spinisds and volunteers now number 285,010 men, \* mostly very young and not good flighting material.

All operations are in the 'nature of guerilla warfare, and both sides are systematically burning plantations, and the country will be reluced to barbarism. The Cubans are expecting to be favored by McKinley, and expect immediately on his inauguration he will recognize their in charge of the Gerry society. belligerency, if not their independence. Hervey gives a graphic account of the capture of Santa Clara by the insurgents, where the utwost gallantry was displayed and the Spaniards being overcome by the magnificent valor of the patriots. Hervey says it was told him in the Caban camp that Maceo had his lower juw shot away, but was alive and recuperating. General Gomez is not treating for peace. and although there is a peace party among the Cubans it is a small one. The cupture of the town of Agutec by the Cubans was a brilliant piece of work. Three thousand Spaniards held the place, but the Cubans showed better generalship. At Santa Clara the Cabans took and held the town just long enough to ruin it. Hervey does not consider there is any decided prospect of victory for either side.
