Greeks' Foreign Volunteers to be Quickly Exported.

THEY TERRORIZE THE VILLAGERS

Indulging in Riotous Excesses, They Provoke an Attack by Greeks—Will Not Be Allowed to Remain in Athens—Armistice May Be Extended

London, May 24.—The Athens correspondent of The Times says: Owing to the disquietude caused by the presence in the city of large bodies of volunteers the government has hastily recalled the force of gendarmes sent to Arta and will take measures to deport these dangerous allies to their various countries at the earliest possible date.

Most of the volunteers making up the Berthet column are anarchists, and the government has done wisely in refusing to allow them to come here, although they insisted on the privilege. The government sent them from Arta to Zaverda, and there disarmed them, with orders to leave for Italy in Greek vessels. Thereupon they began to indulge in all sorts of excesses, and got into conflict with the inhabitants, with the result that one Italian was killed and six were seriously wounded. Finally, after a great deal of trouble, they were sent to Brindisi under the escort of two Greek men-of-war.

The correspondent of The Daily Telegraph in Epirus gives a terrible picture of the excesses of the Italians while traveling from Arta to Zaverda. He says:

"They stole brandy and drank it like water. Armed only with revolvers and bayonets, by the time they reached Zaverda they were quarrelling fiercely among themselves. The villagers, thoroughly alarmed, gathered in readiness to fight the Italians, and the situation became serious. A Greek tried to pacify a Garibaldian, who was about to dash his brains out with a stone, whereupon an Italian officer fired and wounded the Garibaldian.

"Instantly the cry was raised, 'A Greek has been killed,' and the villagers began to fire their rifles. The melee became general, but the Italians manly displayed a flag of truce, and the embarkation was effected, though with great difficulty. Several Italian officers told me they did not expect to reach land alive, as their ruffianly soldiers would surely kill them."

The forces of the Ethniké Hetairia have distinguished themselves more since than during the war, and the hands of irregulars and deserters are pillaging and devastating the Phthiotis district, where the condition of the villages is almost lamentable.

The Athens correspondent of The Standard says: The government and people are now only anxious for the disarming of the irregulars, and they confidently rely upon General Smolenski to do this as soon as the condition of peace have been agreed upon. The Greek army is paralyzed, and news comes from Salonica of the dispatch of large Turkish reinforcements to Thessaly.

It is reported in Athens semi-officially that Edhem Pasha, commander of the Turkish army in Thessaly, has informed the Greek officers who, in conjunction with Turkish officers, are arranging the neutral zone, that he is empowered to negotiate the terms of peace with Greece direct. It is understood that the armistice will be prolonged if at its expiration the peace negotiations should not be finished.

The correspondent of The Times at Constantinople says: The powers have instructed their ambassadors to act as their representatives in mediating between Turkey and Greece. A collective note will be handed to the porte forthwith. Palace circles now realize that great maladresse has been displayed on the Turkish side. The question is how to retreat from the present situation without humiliation, and a change of ministry is being discussed as the best way to save appearances.

"It is asserted that the amount of indemnity will be reduced to 8,000,000 liras, 2,000,000 to be paid in cash to Turkey and 6,000,000 to be accepted by Russia as part payment of the indemnity owed to her by Turkey."

Killed by a Jealous Husband.

Red Bank, N. J., May 24.—James Rosier, a negro, clubbed and shot David Locker, another negro, to death Saturday night on the road between Red Bank and Shrewsbury. Both men lived at Shrewsbury, and were farm laborers. The killing, it is alleged, resulted from the fondness shown by Rosier's wife for the company of other men, one of whom was locker. Mrs. Rosier was in Red Bank Saturday night, and Locker was returning home with her, when they met the woman's husband. Rosier attacked Locker, beating him about the head with a revolver. Rosier then shot him in the head, Locker dying soon after. The murderer gave himself up.

DEATH OF JOSEPH H. EARLE, GENERAL SOUTHERN NEWS.

Who Defeated Evans For Senator From South Carolina.

Columbia, May 21.—United States Senator Joseph H. Earle died at his residence in Greenville last evening. He had been ill for several weeks, but until Wednesday hopes were entertain-

ed for his recovery. Bright's disease was the cause of his death. Governor Ellerbee will have to appoint a successor to serve until the general assembly meets next winter when it will elect a senator for the unexpired term. Congressman McLaurin and Attorney General Barber are mentioned in connection with the appointment.

Judge Earle was born in Greenville county, April 30, 1847. His father, Elias D. Earle, was a prominent lawyer. Judge Earle's early education was received in the Academy of Sumter. Immediately upon leaving the academy he joined the ranks of the Confederate army. After the war he chose the law as his profession, but being too poor to take a course he taught school by day and studied law at night. In April, 1870, he was admitted, and began the practice of his profession at Anderson, where he remained until 1875. He removed to Sumter, S. C., and soon distinguished himself. After serving in both branches of the legislature and as attorney general, he ran against Tillman for governor in 1890, but was defeated. The history of the campaign in which he triumphed over John Gary Evans and was chosen United States senator is recent history.

New York, May 21.—The stock market was relieved today of some part of the pressure of heavy liquidation in the coalers, and especially New Jersey Central and in Chicago Gas, which has been the heaviest drag upon it for several days past. Both made advances, resulting in fractional gains all through the list. Closing bids:

New York, May 24.—In the glove contest Saturday night in which Casper Leon, of this city, defeated Edward Vaughn, of Trenton, Vaughn was struck on the jaw and knocked down. His head struck the floor and he became unconscious. He was taken to the Manhattan hospital, where he has not yet recovered consciousness. He sustained a concussion of the brain, possibly a fracture of the skull. Leon, Referee Carroll, Manager Kennedy, the timekeeper and seconds were arrested. All were released on bail.

Austin, Tex., May 21.—Governor Culbertson yesterday vetoed the general appropriation bill, on the ground that the legislature had been too extravagant in its appropriations, and that a deficit of nearly \$500,000 would be brought about within the next two years unless the pruning knife was applied.

Richmond, Va., May 19.—Negro representations from the ten congressional districts of the state met here yesterday and organized the Negro Protective Association of Virginia. There were present about 100 of the race. Resolutions were adopted looking to better educational facilities for the race, condemning lynching, the solidifying of the Republican party so far as the negro is concerned, but placing race interests first and party interests second.

Monticello, Ky., May 20.—News has reached here of the cremation of a farmer named Thomas Biddle, his wife and three children, on White Oak creek, across the line in Tennessee. Some tramps had asked permission of Biddle to build a fire in his barn to keep them warm during the night. Biddle refused to allow them to do this, and ordered them to leave. The same night Biddle's house was destroyed by fire and the whole family roasted alive. It is supposed the tramps applied the torch to the house out of revenge.

Atlanta, May 19.—A suit filed here yesterday against Georgia Penitentiary company, No. 1, by George Brooken, an ex-convict, promises an investigation by state officials. Brooken was confined at company No. 1's camp for five years, and claims that during that time he was forced to work 131 Sundays. He files a suit for \$181, charging \$1 a day for this time. He declares he was compelled on pain of punishment to do the work. The case will no doubt cause the convict camps to be investigated to ascertain if the laws are being violated by Sunday work.

Tallahassee, Fla., May 18.—Resolutions were adopted unanimously by the house of representatives yesterday demanding that Clarence E. Collins, treasurer of Florida, be impeached for high crimes and misdemeanors, incompetency, malfeasance in office and conduct detrimental to the public good. The resolutions provide that a committee of seven be appointed by the speaker to conduct the impeachment. Four charges will probably be preferred: Leaning of money in violation of law, that cannot now be collected; use of public funds in private speculation; false reports to the executive as to the condition of the treasury, and actual defalcation.

Mobile, Ala., May 20.—The Register's correspondent at Puerto Barrios writes under date of May 9, saying that he was the only American newspaper man at the scene of the capture of Puerto Cortez on the 7th inst. He says nothing of the reported firing upon the steamer Rover on May 5, but says that the British steamer Clearwater was fired upon on the 6th inst. by the Nicaraguan commander. Some 200 of the foreign residents took refuge in the lottery office. The foreign consuls hoisted their flags for protection. General Drummond was the only rebel leader who failed to escape, having lost both eyes. His face is horribly disfigured. He will probably be shot.

Frankfort, May 20.—The legislative fight of two winters is ended. The house passed the anti-mob bill yesterday, thus removing all possibility of an additional extra session, and the senate silver minority fought through another whole day without allowing the fusion bill to pass. This makes the bill's passage at this session, which ends Friday, an impossibility. The silver Democrats, with this fight settled, feel that the candidate for appellate court clerk to be nominated here June 2 cannot be beaten by any fusion of the gold Democrats and Republicans, and are more than ever determined to reaffirm the Chicago platform at that state convention and to keep out all but Eryan Democrats.

Asphyxiated Under Water.

Stockton, Cal., May 21.—It is now believed that Charles Cavill, the noted Australian swimmer, was asphyxiated, and not drowned. Cavill had an inverted tube in the water, which he used in his exhibitions of remaining under water for several minutes. The water in the Stockton baths comes from natural gas wells, and it is believed gas had accumulated in the tube, causing his death. Examination showed his lungs free from water.
