THE ADVANCE, Wilson, N. C.

Mr. Kingsbury and Mr. Kilgo are at it with gloves off. A lively fight seems to be on the topics.

THE miners' strike is assuming vast proportions. Already the railroad companies have begun to confiscate coal, passing over their respective lines, and the supply of coal in the great manufacturing cities is getting low.

WE congratulate the Charlotte Observer upon their enterprise. Always newsy, and what is more, reliable, this paper is now published in eight page form and by the use of their new presses they are the last to go to press and the first to leave it.

WE have before us the last catalogue of the State Normal & Industrial school, at Greensboro. This school is doing a great work for the young women of the State and should receive hearty encouragement at the hands of every citizen of North Carolina.

The English railroads are reported to have struck on a plan of bringing the producers and the consumers closer together. They will take boxes weighing not more than 60 pounds on fast passenger trains and deliver them at the buyer's house in London at the rate of 8 cents for 20 pounds and 2 cents for any additional five pounds. This shows that the English railroad men are beginning to catch on to the American Express idea.—Wilmington Star.

WE beg leave to differ. The American Express idea is to collect 20 cents (or more) on 2 pounds freight and carry nothing for less than 25 cents. We know because we had to pay 50 cents last week for the transportation of a 4 pound package, which, by the English plan, should have cost only eight cents.

"PREACHING vs. PRACTICE."

Quite a remarkable article appeared in last week's Times.

The editors seem to have a grievance against the tobacco warehousemen and occupy two and one-half columns of their editorial page in "telling their troubles" to the public.

Perhaps if the editor of the Times had sold his tobacco with the gentlemen WHO DID GIVE HIM THEIR PATRONAGE LAST YEAR he would have retained, the printing from, at least, one of the four warehouses.

It seems to us that the dear brother should get a pick axe and work on his own beam before essaying the removal of the mote in the warehouseman's eye.

CASTORIA.

The famo-simile signature of Dr. H. P. Hatcher is on every wrapper.

THE OTHER SIDE.

In his letter, addressed to the Railroad Commission, Governor Russell has taken a stand, which if followed out, will produce startling results. He claims that property should be taxed, not according to its value, but according to the revenue derived therefrom.

If his idea should become a law it seems to us that a damper would be put upon all industry. He argues that "as the North Carolina railroad earned in 1896 what was equivalent to 6 per cent interest on \$6,000,000 that the road tax valuation should be \$6,000,000."

Carry this argument to the farm and we would have the industrious farmer who cultivated his 30 acres and makes an average of \$10 per acre called upon to list his farm at \$166.66 per acre. Now if farm land which can only produce a net income of \$10 per acre is to have a valuation of \$166.66 where would our truck farmers, who claim to have made upwards of \$200 per acre, on berries, this year be. Their land would be valued for taxes at just \$3,333.33 per acre, and they would be called upon to pay taxes on this amount. In other words, it would seem that the governor thinks that all incomes accruing in excess of 6 per cent on capital invested should belong to the State.

LI-GRAFCFUL CONDUCT.

WE all know that small boys are not only thoughtless but at times absolutely cruel, without in the least intending the full injury that they inflict. It is also granted that the home people have a perfect right, and should exercise the right, to "root" for the home team, but when grown men and boys old enough to know better, carry their zeal to the extent that it even passes rowdyism and becomes ruffianism it is time that a halt should be called.

If scenes like that witnessed at the baseball park on Thursday last are to be permitted, then all decent, self respecting citizens should refuse to attend the games, thereby, in a manner, adding the weight of their tacit approval to the acts of a crowd of ungentlemanly ruffians.

When a club comes to Wilson they become the guests of the town and so long as they comport themselves as gentlemen they should be treated as such, and it becomes the duty of every citizen, as well as police officer of the town, to see that the honor of the town is maintained. It filled us with a deep sense of mortification and shame to witness the scene at the ball grounds last Thursday, in which grown men not only encouraged the small boy but actually took part.

WE refrain from mentioning any names but give all men fair warning that should such another act be perpetrated in our presence, for the honor of the town we will not hesitate to publish the names of those to blame.

Bill Against Free Passes.

Washington, July 12.—Representative Stokes, of South Carolina, today introduced in the House a bill to prohibit the issuance by railroads of free transportation to members of Congress, Federal judges, the heads of executive departments of the government, and chiefs of bureaus.

A Bimetallic Talk.

London, July 12.—An important conference was held at the Foreign Office today between Senator Wolcott, former Vice-President Stevenson and General Paine, the members of the United States bimetallic commission, and Ambassador Hay, and Lord Salisbury, Sir Michael Hicks-Beach, Mr. Arthur Balfour, and Lord George Hamilton.

The conference was preliminary to carrying on further negotiations on the subject of international bimetallicism. It was understood that France was ready to co-operate with the United States and Great Britain in agreement looking to international bimetallicism.

Lord Salisbury accompanied Messrs. Wolcott, Stevenson and Paine on Saturday to luncheon at Windsor, where they were received by the Queen, and presented to her Majesty their commissions as special envoys. Their reception was entirely informal.

Geo. Stevens' Salaried Arm.

Charlotte has given the Northern diamond two good players this season—Will Roberston, who is playing with the Atlantic city nine, and George Stephens, who is using his strong right arm in behalf of Orange, N. J.

The Orange team played against the Crescents, of Philadelphia, several days ago. A Philadelphia paper in an account of the game said:

"Stephens, the University of North Carolina pitcher, was in the box for the Orange team, and his fine work contributed largely to the victory. Miller pitched great ball for the Crescents until the fifth inning, when Orange bunched some well placed hits and managed to score five runs."

Stephens made two runs, played an errorless game; stole two bases; struck out five men.

The Orange team will play the New York National League team Wednesday. The Record says:

"The Orange Athletic Club will be greatly strengthened for this game, when they place George Stephens in the box. Last year Stephens won every game he pitched for Orange, the teams he played against including Boston and Washington league teams. If the New Yorks are able to make many hits on his delivery, they will do more than the other leaguers have been able to do. Bill Joyce will have the full contingent with him, and Clarke or Lawyer Sullivan will be in the points.

New Paper at Greensboro.

Greensboro, July 12.—A new evening daily will be launched here soon. Its managers will be Messrs. Clem Wright and J. J. Stone. The new paper will be called the Evening Telegram. It is heavily backed and will doubtless succeed.

Decision on Original Package.

Charleston, S. C., July 10.—In the United States circuit court here today Judge Simonton rendered a decision in the "original package" store, placing such institutions on practically the same ground as state dispensaries.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years, was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Tobacco growers in Robertson county, Tenn., are almost in despair. Owing to lack of rain plant beds are going to waste, and much of the tobacco ground will have to be prepared over again when the long delayed season finally sets in. The indications are that there will not be more than half a crop. Tobacco is a great staple of the county and the curtailment of the crop will work great hardship on all classes. Not for twenty years has the tobacco season been so late and unfavorable—Ledger.

Nerves

Are the Messengers of Sense,—the Telegraph System of the human body. Nerves extend from the brain to every part of the body and reach every organ. Nerves are like fire—good servants but hard masters. Nerves are fed by the blood and are therefore like it in character. Nerves will be weak and exhausted if the blood is thin, pale and impure. Nerves will surely be strong and steady if the blood is rich, red and vigorous. Nerves find a true friend in Hood's Sarsaparilla because it makes rich, red blood. Nerves do their work naturally and well,—the brain is unclouded, there are no neuralgic pains, appetite and digestion are good, when you take

Hood's Sarsaparilla

The One True Blood Purifier. All druggists. \$1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills

the best family cathartic and liver stimulant. 25c.

NORTH CAROLINA, In the Superior Court, WILSON, COUNTY. ORDER.

In the matter of J. J. HALES. To the Court.

Whereas Jos. J. Hales, a citizen and resident of the County of Wilson, in the State of North Carolina, has filed his petition in the Superior court of Wilson county pursuant to the provisions of Chapter 27 of the Code, entitled "Insolvent Debtors" which petition, with the schedules thereto attached, are on file in the office of the Clerk of said court, and has, in all respects, complied with the provision of the law.

Now therefore, the creditors of the said Jos. J. Hales, are hereby required to show cause before the undersigned at my office in Wilson, N. C., on the 31st day of July, 1897, why the prayer of the petitioner should not be granted.

Let a copy of this order be published in the WILSON ADVANCE, a newspaper published in Wilson, N. C., for three successive weeks.

J. D. BARDIN, Clerk Superior Court. June 30th, 1897. 25-31.
