THE ADVANCE, Wilson, N. C.

the man who can be taught by one mistake what a fool he has been.

There is only one real failure in life possible; that is not to be true to the best that one knows.

THE reason why so few marriages are happy, is because young ladies spend time in making nets, not in making cages.

"Infant industries" will one day arrive at that age when they can eat good solid food and renounce government pop.

WE should so live and labor in our time that what comes to us as seed may go to the next generation as blossom, and that which came to us as blossom may to them as fruit. This is what we mean by progress.

MR. H. R. KINLAW. the veteran newspaper man, was in to see us Monday. He says he will start a new paper at Rocky Mount shortly that will knock the spots off of everything in Eastern Carolina. Success to you brother.

THE Evening Telegram, a bright six colum daily, made its appearance, at Greensboro, North Carotina, on Saturday last. We congratulate the management, their first issue shows every evidence of a healthy support. May it live long and and prosper.

A BALTIMORE firm recently underbid all England over forty thousand dollars on 7,000 tons of steel rails, said rails to be used on English railroads, and yet when this same concern gets ready to sell rails at home it must be protected against English competition.

THE American Monthly Reviews of Reviews for August devotes itself with accustomed thoroughness to the new tariff. The editor, in "The Progress of the World," discusses the subject in its general bearings, while Mr. Charles A. Conant of the New York Journal of Commerce reviews the salient features of the new law in an impartial and luminous article.

WE received to-day the attractive illustrated catalogue of The William Bingham School, Orange County, near Mebane, N. C .- a location long noted for healthfulness of climate and the morality of its country neighborhood. The faculty is one of which any school might well be proud, four of whom are College degreemen and

two practical operators in Stenography, Typewriting and Telegraphy. The principal, Preston Lewis Gray, is the son-in-law of Col. William Bingham, and a B. L. of Washington and Lee 'University Va., a teacher and admin istrator of unusual power and attractiveness. J. M. Oldham, professor of Latin and Greek, spent several weeks in our town on our ball team, He made many friends while here and proved himself in every way a gentleman. We know of no better place than the William Bingham School for without the name of the writer being those who have sons or wards to educate. Every advantage is offered and at very reasonable rates. We are glad to know that several Wilson THERE is always hope for boys will be likely to attend this school next season.

THE POOR MAN'S ONLY HOPE.

"Speaking of the Local taxation election Aug. 10, one man says: "Taxes are too high already; I don't want to pay any more taxes." But this man has children and wants to educate them. If he sends them, to a public school like we now have, the school will only last 12 weeks. He cannot educate his children this way. They never learn much studying 12 weeks and not studying 40 weeks. So this man decides to send his boy and girl to a private school. How much It is to be hoped that our five dollars for the boy and five for the girl. This is a tax of ten dollars on him. But if he will vote for local taxation he will get good six months' schools for his boy and girl and for all the boys and girls he has at a cost of \$1.30 if his property is listed for \$1,000; at a cost of \$5.30 if his property is listed for \$5,000; at a cost of forty cents if his property is listed for \$100; at a cost of eighty cents if his property is listed for \$500.

So you see this local taxation is the poor man's only hope of educating his children."-Times.

Was it with an intent to deceive, or was it simply ignorance, that led the editor of the Times to make the statement, "But if he will vote for local taxation he will get good six months' schools, etc."

There are, in Wilson county, about 2,000 polls, that come under the provisions of this law, at 30 cents each they would pay \$600. The total amount of property, that could be reached is less than \$2,000,-000, at 10 cents per \$100 this would pay \$2,000. The extreme revenue would therefore be \$2,600 from which all expenses and non-payments of the tax must be deducted. In other words, if the entire county should vote for this extra/tax the net amount would be a little more than \$1,500.

The present school appropriation is a little more than \$12,000 which (according to the Times) runs the schools 12 weeks, therefore if the entire county votes (and pays) the tax, we may expect the school term to be lengthened one and one half (11/2) weeks. Does

this double the present term? We again ask, did the Times intentionally publish an error, er was it simply ignorance?

CASTORIA

For Infants and Children.

Cupid's Capers.

In love'tis opposites attract; The short would wed the tall, The old be mated to the young, The large would wed the small. - And this is why the proud young

man, Too poor to cut a dash, Is ever eager to procure A bride with lots of cash. -L. A. W. Bulletin. Benefit of the Trusts.

The Washington Seatinel does not like the new tariff, and declares that it is worse than the McKinley bill. It declares that it is altogether a tariff bill for trusts, monopolies and campaign contributors. It puts its finger into the sugar bowl and gives the choice lumps to the Havemeyers. It taxes every pair of shoes for the benefic of the beef trust. It taxes the builder and farmer to enrich the lum ber kings. It makes every man pay more for his coat and every woman for her gown in order that the sheepgrowers may be deluded with the hope of getting more for their wool. And none of these extra taxes will go into the Treasury. They are not taxes for "the general welfare" but for the private enrichment. It is a tariff for robbery and protection to

The country has heard something like his before, but did not expect to see it so plainly put in the Senrine'. The Sentinel is published in Washington within a short distance of the Capitol, and if it continues to talk in this manner it will incur the anger of Hanna & Co. It had better fook out.-Norfolk Virginian.

A Lively Fight.

Winston, N. C., August 2 .-There was a lively time at Oak-Ridge Church, Stokes county yesterday. The annual session of the Pilot must he pay? He must pay at least Mountain Baptist Association had just closed. The new Deputy Marshal for Stokes, arrested Jim Taylor, a celebrated whiskey blockader, when he called upon the blockader to surrender Taylor rolled out of his buggy in an instant and drew his pistol. Betere he had time to use it, however, Marshal Preddy fired, the ball going through the hand in which the blockader held his pistol. In an instant the officer and his assistants were on top of Taylor and a lively tussle foilowed,

The officers finally tied Taylor and he was placed in a buggy and carried to jail at Danbury.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years, was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and testimonials. Address,

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.
