G. S. TUCKER & CO

—His Honor Judge Timberlake, arrived at two o'clock Monday and promptly opened Court. In his charge to the grand jury His Honor called their attention particularly to a species of fraud that has been practiced a good deal on our warehousemen. He says that if a man gets an advance on tobacco by promising to bring the tobacco to that particular house to sell, then it is obtaining goods under false pretences unless he complies with his agreement.

Many people are surprised to learn that milk which is liquid has a larger proportion of solid contents than have many articles of food. Milk averages 85 per cent of solid matter, of which a considerable part is albumen. It is this which coagulates with heat and still more when rennet is used. Potatoes are 80 per cent. moisture, though when the potato is cooked the starch in it expands, making it seem much heartier food than it is. The solid of the potato is mainly starch. That of milk is divided between casein, butter fats and sugar, the last of which is found in whey, which, even though it be soured, shows by that fact that it has had some sugar in it.

The only permanent cure for chronic catarrh is to thoroughly expel the poison from the system by the faithful and persistent use of Ayer's Sarsaparilla. This wonderful remedy proves successful when other treatment has failed to relieve the sufferer.

Double Time at the Cotton Mills.

The Wilson Cotton Mills are running day and night. The have orders enough in hand to keep them at work, double time, for a long way ahead and every indication points to a daily increase in the demand for warps and yarns.

Rebecca's Triumph.

The Opera House was filled with people to witness the reproduction of Rebecca's Triumph. The play was well acted, many thinking it an improvement on last year's performance. All the parts were well rendered, but Gyp carried the house off its feet, by a little scene (not on the bills).

Bitten By a Mad Dog.

Mr. Frank Webb was brought to the city Monday morning and arrangements made to send him to Baltimore for treatment. Early Monday morning Mr. Webb was attacked by a dog and was badly bitten in the face. Mr. Webb runs a small store at the fork of the road, just beyond the "Calvin Woodard Place."

Bucklen's Arnica Salve.

The best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chibblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by B. W. Hargrave.

Assaulted With a Brick.

Near Sander's market Saturday night Robert Williams was struck on the head with a brick at the hands of Sandy Battle. Williamson and Battle (both colored) had some words, when the latter picked up a brick and let drive, the missile striking the former in the forehead, fracturing the skull and inflicting a serious wound. The injured man fell and when last heard from was in a dangerous condition. His assailant, Battle, had just returned from Washington—arrived on the 7:30 train from Norfolk.

Tobacco Sales.

The sales of tobacco on this market during the month of October amounted to 1,678,967 pounds, and would doubtless have passed the 2,000,000 pound mark if the last two weeks weather had not been such that it was almost impossible to handle the weed. This carries the total sales up to something over 5,000,000 pounds.

The sales yesterday were very large indeed, blocking at the 2nd warehouse. Prices still continue high on all good grades.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery says that last winter his wife was attacked with LaGrippe and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at B. W. Hargrave's Drug Store.

Those Fire Proof Vaults.

Col J. B. Neal, of Scotland Neck, was in town this week trying to get the County Commissioners to act upon the question of providing fire vaults for the offices of the Clerk and Register of Deeds.

This matter is one that should have been attended to many years ago. One little fire would cost the tax payers of Wilson county more than an hundred times more than the cost of the vaults. Deeds and transfers of various kinds covering millions of dollars worth of property is daily exposed to a chance of loss and destruction, when the expenditure of a few hundreds of dollars would make them secure.

Let's have the vaults.

BETTER than cure is prevention. By taking Hood's Sarsaparilla you may keep well, with pure blood, strong nerves and a good **APPETITE**.

Mother Goose Bicycle Carnival.

On Friday (tomorrow) evening, Nov. 5, one of the most enjoyable treats of the season will be given at the Centre Brick Warehouse. Mother Goose with all her attendant fairies will be seen (on bicycles). The participants will be children but the old folks should go to see them. The grand procession will be headed by Mother Goose herself while "The frog that would a wooing go" brings up the rear. The ladies have taken especial pains in the selection of the characters and costumes. The frog is an importation from a costume artist North.

Admission to cents

The Langdon Dramatic Company.

On Monday evening the company opened their week's engagement with a one act play "The Rough Diamond," followed by a three act farce comedy, "Matrimonial Troubles."

The audience was much larger than one would have supposed when the terrible weather was taken into consideration. The Company showed their appreciation by throwing a zest into the play that brought forth round after round of well merited applause. On Tuesday evening "The Count of Monte Christo" was presented to a large and appreciative audience. The Wednesday evening's performance was going on as this sheet was being printed. There will be performances tonight, Friday and Saturday evenings to which we can safely advise our friends to go, as Mr. Langdon has always presented good plays and the samples thus far given indicate that he has not changed his plans.

A Legal Point.

Last week a country friend sent in a legal query. The case was as follows: B was appointed administrator of an estate which was settled in due form with the exception of the portion falling to one heir. The whereabouts of this being unknown. Later the administrator receives a letter from a lawyer, in which he is notified that the heir has been found and wishes an immediate settlement. B calls upon the lawyer who produces and reads letter and power of attorney from said heir and demands, in the heir's name, the portion falling to him.

B, acting under the advice of his lawyer, refuses to pay until claim is established by suit. Suit is thereupon brought, judgment given plain and money paid over to the claimant and judgment docketed and endorsed "paid in full." After a lapse of four years the heir comes forward and brings suit against B, claiming that he has never given power of attorney nor has he received his portion of the inheritance.

The question now arises, should the heir be able to prove that he has not received the money who is to be the loser? The heir, the administrator or the court. We are rather inclined to the belief that the court must shield the administrator and if it is shown that the money was paid over without due authority being filed by the attorney, then the clerk's bond must make good the amount.

Pardoned His Son.

Exchange. The belief that Governor Atkinson will pardon his wife in the event of her conviction for forgery recalls a famous case in Kentucky. When General Desha was Governor of Kentucky a traveller named Baker disappeared from Doggett's Tavern, on the Licking River, between Carlisle and Maysville.

Baker was journeying from Texas to New Jersey, where he was to be married. He had spent the night at the tavern and set out alone on horseback early the next morning. Isaac B. Desha, son of the Governor, had also been at the tavern; he too, was an early riser.

The same day Baker's horse was found riderless, but the owner did not appear. After several days the body of Baker was found hidden in leaves. Near by was a piece of a riding whip, tipped with a lead ferule. Baker had been murdered. The death blow had been struck from behind, and the riding whip had been the weapon. Some of Baker's fine linen with which his traveling bags were packed was found in Desha's possession; the piece of whip was identified as Desha's.

Young Desha was arrested, tried, convicted and sentenced to be hanged. He was twice respited and finally absolutely pardoned by his father. He disappeared soon after, and is believed to have died recently in Honolulu.

Something Worth Considering.

Truckers' and Planters' Journal.

Being, as we are, native to a section of country where raising live stock is a regular part of the business of every farmer, we find it difficult to habituate ourselves to the practice among the Southern farmers of buying and consuming imported horses and mules. We cannot persuade ourselves that it is good business. In viewing the situation we find nothing in natural conditions to prevent stock breeding and we believe a colt can be foaled and put on the market at less cost than in the north. The causes that prevent horse breeding are artificial and grow out of the suicidal methods of farming which prevail. Before the horse can be made a regular product of the farm cotton must be relegated to a subordinate position and in its stead forage and home supply crops must be made of first importance. We must convert our raw material into the finished product ready for the market in the shape of horses, cattle, sheep and hogs, and the waste matter from the process of production should be returned to the land for improvement. There should be fields of forage crops where we now have patches and patches of cotton where we now have fields. Then we would always find a ready and profitable market for our cotton, tobacco, fruits and truck, while every article for home consumption would be supplied from our own fields. Our farms would become self sustaining and self improving and there would be an end to the everlasting drain on our soil that is keeping us bankrupt. During court week at Whiteville probably fifty head of horses and mules were sold. Why send this money North? Why not raise our own live stock.

Old People.

Old people, who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey or other intoxicant, but acts a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents and \$1.00 per bottle at B. W. Hargrave's Drug Store.

THE WHOLE system feels the effect of Hood's Sarsaparilla—stomach, liver, kidneys, heart, nerves are strengthened and **SUSTAINED**.

Goldsboro, N. C., Nov. 1.—The County Commissioners this afternoon decided to have the execution of Sam Wright, the negro murderer, the 10th inst., in the jail yard, private. Three burglaries were committed yesterday, one in the city and two in the country. In every instance the thieves were after money.

Asheville, N. C., Nov. 1.—Contempt proceedings against Judge Ewart did not come off because Justice Deaver has been found guilty of embezzlement and retired from office to day. Proceedings in Deaver's court were set for 6 o'clock this afternoon, but his resignation ends the whole case against Ewart.

Sarsaparilla Sense.

Any sarsaparilla is sarsaparilla. True. So any tea is tea. So any flour is flour. But grades differ. You want the best. It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you? When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla. Ayer's Sarsaparilla has been on the market 50 years. Your grandfather used Ayer's. It is a reputable medicine. There are many Sarsaparillas—but only one Ayer's. It cures.

Plain Facts.

We do not claim that the sun, moon and stars would cease to shine, and this great big world would come to an end; that North Carolina, or even Wilson county would have to enlarge her almshouse to receive the starving thousands if it were not for
