

REMARKS.

[From the Observer.]

A leading Republican newspaper, received last evening, referring to Senator Ransom, says that "Ransom has been quiet, firm, courteous, fair in all things and devoted to his party. He has, through his genial social qualities won the confidence and regard of everybody; and to day we think he occupies a position in the national Democratic party far higher than that held by Gordon, Lyman, Hill, or any other Southern man. Thurman, Bayard and Ransom are the Democratic giants of the 3-nation."

VISITING.—Mrs. Judge Grant of Danversport, Iowa, and Miss Maggie E. Johnston, of Philadelphia, Pa., are visiting relatives in the upper portion of this county. We wish them a pleasant sojourn among their kindred and friends.

ROBERT O. BERTON, JR., a prominent young lawyer of Halifax, was married to Miss Marc Carroll, of Ashland on Wednesday the 29th ult. May they live long and prosper.

My children do not thrive. They have such a changeable color. It now occurs to me that worms are the cause of all this trouble. I will try Shirner's Italian Vermifuge.

JOHN A. WORTHAM, the celebrated Richmond gambler died in that city last Sunday evening. He was at one time well known in some portions of this State.

PENNET, tea is a simple remedy to quench the thirst, this lemon-ade article is embodied in Dr. Bull's Baby Syrup, which puts the baby to sleep without the evil use of opiates. Price 25 cents.

DR. R. L. MADISON, Surgeon of the Virginia Military Institute and formerly physician to Gen. Lee, died in Lexington, Va., last Monday. Dr. Madison was a great-nephew of President Madison.

MR. JOHN W. SUDNER had the misfortune to lose his fine Italian greyhound on Sunday last, from some very peculiar disease. All of our slaves will bear the death of "Larry" with regret, for he was one of the prettiest dogs we have ever seen and was really a pet for nearly everybody in town.

HEADING THE SHERIFF.

A Tale of the State Prison.

It was a bright day in the merry month of May, the sun shone brightly on the green young leaves which heaped and quivered to meet the embraces of his rays. By the old tower of Halifax, the noble Roanoke swept majestically onwards bearing its excessively muddy tribute to the great deep. The court house was packed with a silent throng hanging spell bound on the words of the eloquent jurist who was addressing as follows a lone specimen of the genus homo species Africanus: "Dave Peebles the sentence of the court upon you is that you be confined at hard labor in the State Prison for ten years." The crowd breathed more freely and Dave attended by the sheriff passed out unto the jail.

The above was to have been the introduction to an elegant literary morceau but a kind and polite friend to whom we read it having characterized it as a jester's bomb we have concluded to turn Pegasus loose and tell in simple language that Dave was carried to Raleigh in charge of a deputy sheriff and safely delivered to the Penitentiary authorities. The sheriff then returned to Weldon to find that Dave had become tired of Penitentiary fare and breaking therefrom had come to Weldon stolen a boat and gone to join Bob Johnson. The boat has been taken up at Halifax.

Some of the ladies making their first debut—"Combing—yes we're combing."

THERE is a daily consumption in the world of over ten thousand lead pencils. Somebody is bound to make a mark.

MARRIED.—In Weldon, N. C., on Friday May 31 1878 by J. T. Evans J. P. Geo. W. Morgan to Miss Ary L. C. Massey all of Northampton county.

THERE is some talk in Petersburg of an agricultural fair there next fall. We hope the idea will be carried out, as the Petersburg Fairs have always been an attraction to our people.

DIED at his residence near Crowell's X Roads on the 26th inst. Mr. Albert Branch in the 63th year of his age, he had been afflicted with rheumatism for 35 years and was perfectly helpless for the last five years of his life.

Mrs. SUMMERBELL, relict of John Summerell of Northampton county, died suddenly about one week ago. She was engaged in same household duties when she was stricken with heart disease and died in a few hours.

WHOLESALE CASH PRICES AT V. J. NAW'S BAKERY AND CANDY MANUFACTORY.—Sugar Cakes per barrel \$5.00. Ginger Cakes per barrel \$4.50. Candy 13 cents in lots of 25 pounds and upward.

RATHER EARLY.—Mr. Cullen C. Tucker showed us a ripe peach last Tuesday which was found in the orchard of Col. Thos. Goode Tucker on that day. We have forgotten what variety of peach it was, but are inclined to think it was the Beatrice. This is probably the earliest ripe peach on record for this locality.

A Military Company has been organized at Garysburg with the following officers: J. L. Sulter Capt., J. G. Ellis 1st Lieut., B. H. Sulter 2nd Lieut., Squires 3d Lieut., William Harding Ordly Serg't.

NORTHAMPTON Superior Court adjourned on Friday. Judge Seymour presiding. He is said to despatch business rapidly and to possess a thorough knowledge of his duties as Judge. Several old and important cases on the Docket one that has appeared for trial at twenty-four times of the court were decided on Thursday.

COLLISION.—Our Devil complains of being sore this morning, occasioned by an accidental collision with our worthy county Treasurer, while playing base ball a few evenings since, but we are happy to remark, that the Treasurer was not seriously injured by the unexpected contact with his satanic majesty. We claim that Halifax has the only Treasurer on earth who can knock the devil out of time.

We learn an effort is being made by the merchants of Richmond to purchase the Petersburg R.R. Should close freight connections be made at Petersburg and rates kept moderate, almost the entire trade of this section will be directed hence to Richmond. We will say one thing for the Richmond merchants we have found them extremely courteous and gentlemanly.

At this writing, Thursday night, Weldon is being deluged by a very heavy rain attended with vivid flashes of lightning. We intended writing a sentimental account of a midnight storm with a picture of the tired laborer slumbering on a long blank to be filled with heavy heart and drooping eyelids, wishing his weary task over, that he might dream of loved ones far away, &c., but our partner (who has attended a picnic to-day) is moaning so heartily loud that all poetic ideas have been dispelled, so we must content ourselves to let it rain without further comment.

Matrimonial Poetry.

DR. THOMAS LAMB having married Miss Matilda Lyon, the village poet wrote as follows:

Millennial advocates may sound their Gabrielic horns;

The end of the reign of peace, this simple notice warns.

For let him loth down Together with the lamb;

And soon, perhaps, a little child Shall lead them by the hand.

CHARLES DAY married Miss Lissie Week, upon which a local poet comments as follows:

A week is made a day at last

But time should not complain,

There'll soon be little days enough To make the week a gain.

SUNDAY SCHOOL PICTURES.—The Sunday School picnic of Grace church (E.iscopal) came off on Friday the 24th at the Fair Grounds under the management of the St. Albans' and a most enjoyable affair for both old and young. It was never our lot to hear of unfortunately we were not able to be present. Report after report came in of the graining tables—the fact is of barbecue and ham, there seemed no end, while ice lemonade flowed freely, and strawberries were in abundance to say nothing of cake, pickles and condiments. There was nothing forgotten to please the appetite of the grown up children, even mustard was on hand. The house keeper who had that orthographic we commended. The last report "from the court table" was for little more chocolate cake and the demand was fully supplied. And the children voted that they never had so much fun, from the all time swing to racket they never were at a loss for amusement, while their elder brothers and sisters thought it no harm to indulge in that which though it dates back to the garden of Eden never grows old.

The Methodist Sunday School picniced last Thursday and on this occasion it was our good fortune to be present. It is very hard to describe a picnic. Each one is so nearly alike that the description of one may do for all. Of this one it is sufficient to say that it was gotten up for the benefit of the youngsters, and that so soon as the elder girls got tired of them and began to open their batteries on the grown boys, the said youngsters seemed heartily to enjoy themselves. There was less flirting than is usual at picnics but the ubiquitous small boy who tells everything he sees and hears may have accounted for this. Howbeit there was a great deal of swinging some very good singing and plenty of good dinner. The middle was extra nice, and serious fears were at one time entertained for the safety of certain gentlemen. In fact we have received certificates that one young gentleman ate more than his weight. The crowd retired at about 5 1/2 o'clock heartily tired but very happy and most of them sorry that the day was over.

OUR SPECIAL REPORTERS TOUR OF INSPECTION.

SCENES AND SMELLS IN OUR MIDST.

A Warm and Continuous Invitation to Disease.

Herodotus tells us that in his day it was remarked that the science of governing towns, then in its infancy, was learned so slowly. As he put in his strong Greek way: "It is the text for wender that no man within the walls of Athens has ever seen a good city government. Even the most travelled literate, and most lying travellers far back to tell us that such things exist, and now men are beginning to say that the immortal Gods do not like that men should live in towns and so have shaped the human brain as to render the production of a good town either an impossibility."

Among Dr. Schlemmer's discoveries at Myrae, was a supplement to the Trojan Sootywar which throws some light upon this remark of Herodotus. The supplement is evidently the report of an investigator to look into the condition of the Trojan suburbs, and we reproduce it in order to show how much the town governments and newspapers of that day resemble those of the present.

The Extra reads as follows: On Monday last a special reporter of the Sootywarer specially employed for that purpose, made a tour of inspection of the neighboring village of Jonesborough. Our reporter commenced operations in the neighborhood of the locality. Here he found things in a decent condition, but the condition of the canal is absolutely appalling. During several hours of every day the water of the canal so recedes as to leave exposed a large surface of mud black with corruption, which under the influence of the present hot sun gives forth such exhalations as most breed disease. O' Fried Meat Row, hog stys and houses and gutters hardly less unsavory, send up to heaven rank off-ens against the noses of all good citizens. In fact the only thing that one fails to smell in this neighborhood is something that smells good.

On Washington Avenue the smells do not appeal with so much of directness to the sensibilities in the quarter of the town we have just alluded to, but even here the disastrous effects of employing huge scavengers are painfully apparent and are such as to give the transient traveler the impression that the town is mainly inhabited by that useful but uncleanly animal. But immediately adjoining Washington street, and in the bottom are many localities which call aloud for quick lime and disinfectants. Our reporter was informed that at some remote period in the history of the town there had been an attempt made to have this part of the town cleaned up, but after consultations with all of our best citizens a performance lingered out with any of them were so forced to regard the whole thing as a f. Our reporter would have investigated further but the combination of foul smells which had during the whole time of his tour of inspection been saluting his nose had by this time become too many for him and at last he has succumbed, and two doctors are considering what name they shall call the disease which he will die of.

This is all of the Sootywarer's report which has yet been found, but from tradition we learn that it, at great sacrifice of reporters continued to investigate the sanitary condition of Jonesborough and to write on the subject until the town was thoroughly polluted. We learn further that immediately upon the accomplishment of this fact emigrants began to pour into the village and in the course of comparatively very few years it grew to be so very large a city that the name was changed and under its new name of Antioch it became the seat of a vast empire.

Does anybody know any town of more modern date and less imposing name to which the foregoing might apply.

A CHANGE OF PROGRAMME.—Messrs T. H. PUMMER & Co. of Petersburg have during the past spring been announcing through the columns of the News that they were sole agents for the celebrated Farwell's Friend. They wrote us last week telling us to change their announcement from Plows to Thrashers which we do in this issue. People must not understand, however, that Messrs. Pummer & Co. have stopped selling their Plows. Their reason for making the change was that they sold so many of them that they were satisfied every body in this section of county was supplied with them and on the principle that one good turn deserves another they wish to give them an opportunity to get something else good.

RELIGIOUS INTELLIGENCE.—Rev. Mr. HIGGS of Jackson preached to a very attentive and appreciative congregation at Grace church, on Friday evening. His subject was the marriage feast at Cana in Galilee. He impressed his hearers that we can never be sure that our walk in life is right, unless we can, and do with God's presence, and give it a hearty welcome. If we do that we may be right certain that all will be well whether we are at a social gathering or in God's own household church.

On Sunday Rev. Mr. Smith preached one of his usually able and telling sermons. He left before the congregation a searching self examination on the path of duty, which we cannot make to great haste to follow. There was a large turn out and music was particularly fine.

Nash County Politics.

BATTLEBORO N. C. May 30th 1878.

DEAR NEWS: The delegates of the Democratic party of the county of Nash met at Nashville last Monday, and nominated the following excellent ticket: For the Legislature, Capt. Geo. N. Lewis, the present sheriff, for Sheriff, C. W. Ward, for Probate Judge, B. H. Lusk, who holds it now, for Register of D. C. Capt. A. W. Brigg, the present incumbent, and for Treasurer, N. W. Cooper who has long held the same office. One is one of the noblest counties in the Old North State, and may she long bear the honors she now meritoriously wears.

There seems to be a likelihood of any opposition in the county, but it will be well for us to follow the injunction of other men, "In time of peace prepare for war." There may be a snake lurking in the grass, for which we should look. Our disaffection should occur in the ranks. The radicals will surely take advantage of it. As yet, though everything seems to be working admirably well.

I happened to be in Wilson some time since, when I saw a remarkable piece of mechanism from the bowels of a native of North Carolina. The instrument in question is a clock, with duplex movements, and the result of the labors of Prof. W. J. Churchwell. From one winding up, it will run for 265 days. It is a most remarkable invention and he intends to have it exhibited at the Paris Exposition.

Ours is certainly a town of much (1) to enter. A dispute arose as to who was the largest one. At last one of the disputants disappeared, and was found upon the street, under a shabby ask, with his hat mowed, supported by a cord from his hat crown. This is true, and a patent has been applied for.

Trade is as dull as the "times will afford."

Many drummers have visited us this week. Cops have been somewhat damaged by the late rains.

The weather you know all about. PETERSON.

AN HISTORICAL FACT.—Every agent who has been actively selling the Improved \$20 Homestead Sewing Machine for three years, owns his dwelling house, has a good account in bank, is clear of debt, and has money at interest—the natural consequence of securing a good agency for superior goods at the lowest prices. A good first-class Sewing Machine, most useful—reliable at all times, easy to understand and control, the same size and does the same work as any machine that will at Four Times the price. There is no machine at any price better, or that will do finer or more work, and certainly none so low in price by some dollars. The Homestead is widely known and used in thousands of families in the Eastern and Middle States, and daily becoming popular in the West. It will save its cost several times over in one season, doing the work of the family, or will earn four or five dollars a day for any man, or woman who sews for a living. It is the strongest machine made, is ready at all times to do its work, makes the strongest and finest stitch yet invented, and is fully acknowledged as the standard Family Sewing Machine. Price, complete for domestic use, \$20, delivered at your door, no matter how remote you may reside. Business permanent and honorable, with more certain and rapid sales, and larger profits than any other. Extraordinary offers made to local or traveling agents where we have none established; or if there is no agent near you, send your order direct to the factory. Address John H. Kendall & Co., 421 Broadway, New York.
