NORTH CAROLINA'S BLACK SHEEP. [Washington Post.]

It will be remembered that in the recent passage between Melsers. Kitchin and all he had agreed to, and was not aware Russell, of North Carolina, in the House, of having raised his pay. Mr. Kitchin asked Russell if he "was not court-martialed and dismissed from the Con ederate s-rvice," and that Rusrell replied; "I was court-martialed and dis missed from the Confederate service for whipping a con cript efficer, and I was a terwards restored to the Confederate service by order of Jeff Davis." Unfortu as ely Mr. K to in did not laye at hand the bottom facts in this case, or nu could have cut the comb of his eppenent in a way that would have served as an "awful example" to braggarts for a century to come. The facts which Mr. Ketchin did not have are now in our possession, and are briefly, that Russell was reported for frequent and unlawful interference with an enrolling officer who was regularly and properly performing his duties; that upon such misconduct being reported. Russell in the most cowardly manner muster al empted to assassinate the enraling officer by creeping up behind him and hitting him over the head with a club while he was in a sitting posture, and following this up with a shot from a pistol; that for this he was tried, con victed and cashiered, but was subsequestly "permitted to select the company in which he would be corolled." It is painfully evident that Mr. Russell has been as inverse one in the House an Le was cawardly in his conduct towards the officer whom he tried to kill by an attack on him from the rear when he was sitting dewn and un rued.

COM ANY MANNERS FOR EVERY DAY.

A little more fermality in serving the family meals wouldn't harm some househeids. There is no need of saving all the "company manners" for company; if you do, the children, at least, will be found wanting wh n the occar'es comes. The necessity of cucer ulness and contentment at mouls cannot be too often enforced. The wisdom, on purely physical grounds. of a tranquil mind at meal times, is as old as Bacon, in our language, and as ancient cotton-as the patriarchs in practice. The time Corn, p. given to the table ought to be doubled in many fand es, and the cheerfulness, goodnature, and demestic conversation in-creased in like rate. -- Golden Rule.

AMECDOTE OF THACKERAY.

Thackery was always at one time a welcome visitor at the house of Lay Ashburton, who was somewhat free with her tengue and opinions of others, Something that saucy hostess said offended her gnest, and he not only declined her invitations, but spoke of her with discourtesy Some months after, when his angry feelings had died out, he received from Laty Ashburton a card of invitation to dinner. He return it with a pen and-ink drawing on the back, representing himself kneeling at her leet, with his hair all affame from the hot neals she was vigorously pouring On his head out of an ornamental brazier. The humorous expression of contrition was followed by a complete reconciliation. The satirist and the lady continued a warm friendship.

A courteous man often succeeds in , life when persons of ability fail. The experience of every man furnishes frequent estances where conciliatory manners have made the fertunes of physicisus, lawyers, divines, politiciers, merchants, and, in seed in tividuals of all puranits. It being intro duced to a stranger, his affability or the reverse creates instantaneously a preposses ion in his favor, or awakens unconscious! a prejudice against him. The best men often injure thems: Ives by irritability and consequent rudeness; whereas, men of inferior ab lities have frequently succeeded by their pleasing and agreeable manners. Of two men, equal in all o her tespects the courteous one has twice the advantage and by far the better chance of making his way in the world.

A CANDID OPINION,

A Detroit lawyer, famous for his wie and candid opinions, was the other day mearly \$60,000 to the Chowan as ciation, visited by a come attorney, who ex-

Weldon for the past five years, and has given entire satisfaction to all who have ago, and I think I ought to know sends thing about law, yet the minute I wrise to a tilress a jury I forget all my points and can say nothing Now I want to ask you if this don't show a lack of confidence to myself, and how can I avercome it?"

The wise attorney shut his eyes and studied the case before answering: "My young triend, if its lack of con fi lence to yourself it will some day vanish but if it is lack of brains you had better sell out your office off cts and buy a pickax and long-handled shovel " "But how are I to determine?" anx

loudy asked the young man. "I'd buy the pick-ax anyhow and remy chances!" whispered the aged advi-er, as he moved over to the peg for his overcont.

A PROVITING CONSIDERATION

Od John A., a niggardly fellow, was erecting a new house for himself, and among these engaged in its construct h was an Irishman, who knew a little about carpenter work, and had agreed to work for a triff less that competent jeurneymen. Between ed by his fellow work-men to ask full wages, he did so; but M . A, put him off by saying ! Well, well, you go to work, and when

the work is done, I'd consider you " This satisfied Pat: but when pay-day came be received only the amount originally agreed upon. Swelling with indigna-tion to repaired to Mr. A.'s presence and demanded an explanation. His employer smilingly teld him that he had given him

of having raised his pay, "But," returned Pat, "you sail you'd tonsider me. 'And so I do " said John, with a provaking smile, "I consider you a da ne Ionl P

Pat vaca'ed his employer's presence in a burry, and has not b en knewn to say snything about high pay since.

When, a short time age, the secret police commissioned a well-known writer to BEST STOCK READY MADE CLOTHING produce a series of soil Nihilist articles the level lit-rateur is said to have asked tor the latest revolutionary pamphlets before setting to work. I nagine his dismay when the parcel that was to contain the subterranean literature, though scaled with the seal of the political police, brought nim a letter from the Revolutionary Commit ee threatening death if he presumed to carry out the government order.

A si g'e word will blast a repu'ation a molulation of tone will convey a rutneus instituation-a passing fancy will determine the occupation of a life.

"My dearest Maria," wrote a recentlymarried Breoklyn husband to his wife. She wrote back, "Dusrest, let me correct orther you grammer or your morals. You address me, 'My dearest Maria' Am I to suspose ou have other dear Marias ?"
