

WASHING FLANNELS. A lady correspondent writes as follows: I will give you a little of my experience in washing flannels. I was taught to wash them in hot water, but it is a great mistake. In Italy they always wash them in cold water...

WOODS'S FULL OF 'EM.' In Wayne County, Texas, lived a well-known character, named Bill Dean. He was always endeavoring to perpetrate a joke at somebody's expense. One day, while riding to Richmond, every foot of which he knew, he spied an old gentleman named Chersam, accounted for a hunt, earnestly looking up a tree. Approaching him, Dean asked: "Can you tell me the way to Richmond?"

WOODS'S FULL OF 'EM.' "There was two of 'em run by this tree," was the response of the old gentleman who was somewhat deaf. "I didn't ask you anything about it," said Dean. "How far is it to Richmond?" "One of 'em just went in that hole; didn't you see him?" the old man said, earnestly. "Out of patience Dean yelled out, 'You must be an old fool!'"

A NAME FOR AN ESTATE. What is a name worth? A good deal, apparently in the case of Alfred Tenyson, who is so fully alive to the magic charm of his patronymic that he has declined to become the heir of certain estates in Lincolnshire rather than exchange it for that of Turner. The laureate's elder brother inherited Grassy Hill and some neighboring farms many years back, and for the sake of the £1,000 or £2,000 a year which they yielded he entirely dropped the Tenyson and became the Rev. Charles Turner, a name which stands on the page of his book of sonnets. He died a few months ago, leaving no issue, and his wife followed him to the grave within a few weeks. The next heir is the laureate, but he will not accept the condition which rigorously enforces the entire suppression of the Tenyson. Doubtless there will be found a brother or a nephew, if not a son, willing to forego the prestige attached to the family name for the sake of a comfortable inheritance, but the succession is still, I believe, unsettled.—London Truth.

ICE AND BRIGHT'S DISEASE. The latest medical theory we have seen about Bright's disease of the kidneys is that it is largely caused by the excessive use of iced water and iced drinks, and its wide prevalence in this country is thus explained. It is surprising how much kidney-complaint there is here, and how great a proportion of all the deaths occur therefrom. Bright's disease is comparatively uncommon in Europe, owing, it is asserted, to the very small use there of iced and iced drinks. We are prone to think that Europeans do not use ice freely because they are unwilling to pay for luxuries. But they are opposed to ice, many of them at least, on hygienic principles; they are afraid of it, particularly the French and Germans, who can seldom be persuaded to touch it. They like beer and wine cool, but not ice cold, believing that to drink beer and wine at such a temperature as we drink them must do irreparable harm. It is said that seventy-five per cent. of Bright's disease known to civilization occurs here, and that we use nearly ninety per cent. of all the ice used in the world.—These two facts are significant; but whether they stand related to one another as cause and effect has not been clearly determined. The almost general prevalence of the terrible malady in the United States is startling. There must be some special reason for it, and it behooves Americans who are such sufferers to try to find out what the reason is.

TWO GIRLS' TERRIBLE FIGHT. An episode in the career of two well-known young ladies is too good to be kept to their residence in the upper part of the city and are fond of riding, and may be seen on Main-street almost any day in a buggy, driving down on one side and up on the other, being delighted with being the served of all observers. The other day they took it into their heads to drive out to the banks of the Maguaketa. Tying their horse under an unobtrusive tree, the society damsels sought the declining bank of the river, and seated themselves upon the velvet grass, fearless of snakes or of intrusion. The amiable themselves awhile by throwing pieces of wood and pebbles, when Miss H. proposed to Miss S. that they go in bathing. The day was hot and sultry, and the proposition met with favor. They sought a retired spot, hid by hanging branches, where they disrobed themselves, and were soon up to their waists in the cool water, splashing one another in a playful mood. While they were thus innocently plunging in the classic Maguaketa, they were not aware that a crafty gentleman was lurking in the beauty of their charms, or that he saw them disrobe. But such was the case. Two piles of muslin and lace, like small balloons, were in the bank of the stream, and some distance from the shallow place where "Udina and Sistrum" were toying with one another. To remove the balloons of lace and muslin was the work of a moment. The wicked thought entered the mind of the same young man, and in a twinkling the theft was committed. The young ladies found themselves sans skirts, sans dresses. Here was a plight! Two beautiful girls in the water, that nature gave them, six or eight miles from home! What was to be done! One who had attended to flannels. But she thought, "Ever a fool!" besides there were no flannels to be had. Miss H. started for the buggy. There was a lap-robe there. That would answer immediately purposes, as, like the ostrich, their heads and faces could be covered—hoping that the villain would relent and return their clothing. Miss S. was becoming annoyed. Miss H. while going for the lap-robe, found a wretched petticoat and a black overskirt, which the thief had dropped in his flight. The girls soon got into them, and, tearing the lap-robe in two places, they arrayed themselves in primitive style. They then got into the buggy and drove toward the city, remaining in sight until Louis saw her late in the afternoon, and under whose pale plumage the young ladies sought their homes and families.—Dunbar (to.) Herald.

Robt. Hanson, Gen. Gaston Lewis, Gen. W. R. Cox, Col. F. M. Parker, Col. W. F. Beasley. These gentlemen are well versed in every thing pertaining to military affairs, having served with distinction in the army of Northern Virginia during the late war. The article them are well made.

PAPER, PAPER AND PERSEUS!—The invention of that Superior and Complete Sewing Machine (The Family Sewing Machine), marks one of the most important eras in the history of machinery, and when we consider its great usefulness and extremely low price (\$25), it is very difficult to conceive of any invention for domestic use of more or even equal importance to families. It has great capacity for work; heavy, coarse, plain, fine, or fancy needle-work with ease, and certainly a delightful ease of operation that at once commends it above all others. The working parts are all steel, strong and durable, and will last for years; the bobbins hold 100 yards of thread; the stitch is the finest of all stitches made, neat and regular, and can be regulated in a moment to sew silken from an inch in length to coarse material down to the finest, so infinitesimal as to be hardly discernible with the naked eye, and with a rapidly rendering it impossible to count them as fast as made; it has more attachments than any other, and it does to perfection all kinds of heavy, coarse, plain, fine, or fancy needle-work with ease, and for less labor than required on other machines. It needs no commendation, the rapid sales, increasing demand, and voluntary ex-omnium from the press, the thousands of families who use them, amply testify to their undoubted worth as a standard and reliable household necessity, extending its popularity each day. Machines sent anywhere to be examined before any money is paid. AGENTS WANTED BY THE COMPANY. ADDRESS THEM FOR INFORMATION. FAMILY SEWING MACHINE CO., 755 BROADWAY, NEW YORK.

SEABOARD AND ROANOKE RAILROAD.—Excursion rates from station to Weldon and return during Fair week:

Table with 2 columns: Station name and fare. Includes Seaboard to Weldon, Margarettsville, Branelville, Boykins, Newsoms, Handsome, Notaway, Franklio, Carrsville, Purvis, Suffolk, Portsmouth, and Weldon, N. C. Oct. 16, 1879.

ANOTHER WHISPER NAILED.—We understand a ridiculous rumour is in circulation to the effect that the town authorities had recently passed an ordinance imposing a heavy penalty on all persons, other than Weldon merchants, who may hereafter buy or buy cotton on the streets of Weldon. This report smacks of bad motives and we cannot help suspecting that it was conceived and fostered with a design to injure the trade of the place. Mayor Daniel's attention has been called to the subject and he authorizes us to pronounce the report false from beginning to end. He says no proposition of the kind has ever been brought before the Board of Commissioners and nothing like it even been suggested. We are glad to have the opportunity thus officially to contradict this mischievous report. Our business men are too magnanimous to desire such legislation, they are opposed to rings, cliques, and monopolies, and they will not be coerced into an act which will not only injure their own interests but also the interests of the community as a whole.

RAILROAD AND GASTON RAILROAD EXCURSION.—Excursion trains to the Weldon Fair on Wednesday and Thursday Oct. 23d and 24th, leave Henderson at 7:00 a. m., arrive at Weldon at 10:00 a. m.; leave Weldon at 5:45 p. m., arrive at Henderson at 8:45.

GLASS BALL TRAP SHOOTING. Tenth Annual Fair of the R. & T. R. A. Society.

COL. JNO. W. COTTON IS CHARGE.

RULE 1st. All matches or swappatches shall be shot at eighteen yards rise from Card's revolving trap. Single balls.

RULE 2d. When the traps are ready the referee says, ready! after which the shooter calls pull! In all cases the puller must pull far for each shooter. If the trap is sprung before the shooter has given the word, he can take the shot or not; but if he shoots, the ball or balls shall be scored, whether broken or not, as the case may be.

RULE 3d. Referee.—In all cases, a referee shall be appointed, and his decision shall be final. In case the trap, when sprung, breaks the ball, the referee, in all cases, shall require the party to shoot at another ball, whether he had previously shot at broken ball or not.

RULE 4th. Position at the Score.—After a shooter has taken his place at the score, he shall not leave his gun, or raise the butt above the elbow until he calls pull. Should he infringe on this rule, the ball or balls shall be scored as lost, whether broken or not.

RULE 5th. All balls must be broken in the air to count.

RULE 6th. There shall be no restriction as to size of shot used, or charge of powder, but the charge of shot shall not exceed 1 1/2 oz. Dixon measure. Any one using larger quantity of shot shall forfeit all rights in the matches. After a gun is loaded and challenged, and the shooter discharges his gun, the penalty will be the same as for overloading.

RULE 7th. All ties to be shot off at 21 yards' rise, at five single balls each, and in case of a second tie, five more balls at 26 yards and so on, until decided. In all cases, ties must be shot off before sunset, or postponed until next day, unless the interested parties agree otherwise.

RULE 8th. Time at the Score. A participant in a match shall hold himself in readiness to come to the score when his name is called by the scorer. If he is longer than five minutes, it shall be discretionary with the referee whether he shall allow him to proceed further in the match or not.

RULE 9th. Should any Miss-fire, unless fired or fail to discharge, from any cause, it shall score as a lost ball, unless the referee feels, upon examination, that the gun was properly loaded and the missile unavoidable, in which case he shall allow another ball.

RULE 10th. Loading Guns.—In case of breach-loaders, the party called to the score shall not place his cartridge in the gun until he arrives at the score. In case of muzzle-loaders, the party called to the score shall not place the cap on his gun until he arrives at the score.

NO ONE but a contestant has a right to challenge.
