BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for runi.

BROWN'S IRON BITTERS is guaranteed to be a nonintoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time abso-

lutely kill the desire for whiskey and other intoxicating beverages,

> Rev. G. W. RICE, editor of the American Christian Review, says of Brown's Iron Bitters:

> > Cin., O., Nov. 16, 1881. Gents :- The foolish wast-ing of vital force in business, pleasure, and vicious indul-gence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debiladvertises extensively and we will show you a ity, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney Dust at first and reaching into the years when troubles, &c., and it never fails to render speedy and permanent relief.

### 28/88 2019 NOTICE OF REGISTRATION.

OFFICE OF THE BARD OF CONSIS-MONERS OF HALFAX COUNTY, Birger, Hill, 1883

It is ordered by the Board that a new Registra tion of the voters for the county of Halifax, 1 c held before the election to be held on the 1th day of whom were Democrats drawn there by cariof November next, and that notice of the semi he pested in each township of the county and it not have been a sufficient number of Liberals. published in the Reanoke News and Common

HALIFAX, N. C., Sept. 11th, 1882. MESSUS. Entrous : I am the one alluded to by your correspondent from Littleton of the favorite name of "Jack" in the last issue of your paper in regard to the analysis of the Panacea Spring above. I will ask you to let me losert a few simple facts in the next issue of your paper and show "Jack" he should not speak before thinking and especially should he be cautions when na. ture not endowing him with extra thinking power. I mode the analysis in the Analytical Laboratory of the University of N. C under the direction of Prof. A. F. Redd. My analysis was verified by two qualitative and four successive quantitative determinations, and I g. ve to the public only what chemical analysis proved to be present. I had no motive whatever to prove or disprove anything in the water, but gave a pure and correct analysis of what the water contained, for which I am able to rough. I would not have written anything but for some man of bills education or sense tried to detract from the correctnes: of the result of my analysis. Prof. A. T. Redd would not have let me make an analysis for publi a-Alon if he thought I was not e spuide to make a correct one, much less give me a diploma of graduation with distinction in the school of analytical chemistry. This is enough to let the people know that he, though envious of one person, has tried to throw discredit, on myself by telling the people that I have presented them, with an analysis of the Panacea Spring faulty, by being incompetent to make a correctione, and this may deceive the public; I will positively assert that the named incredients as given in my suslivais are in the water and can be found if tested for by any skillfuchemist, but the spring may contain more or less of some of the constituents, and not be the exact amount (in fractional part of grains to gallon) as the water may have grown stronger or weaker in the course of three years. As some eminent authority has remarked that the most suitable person te mike a critician are na now to be une four acquilited with the auto ject of which he is discoursing, this I think is it a great measure correct, and I will so cou alder "Jack" in the last issue of your paper of that type of an ignoration as whis has loss trains. and more brass than an ordinary individual should possess. I sincerely hope that the Shaw springs will be found a valuable water, and be a help to the thriving little town of friends of frinity will rejoice with us to know Littleton, and also that the Panaces Spring be that Dr. Craves's health has improved very still considered a valuable health-result, and as improving and as valuable as it has been with former patients.

a subject entirely foreign to himself, and it is now students have a ready matchulated and new and next appearance. a subject entrey foreign to himself, and it is others are arriving daily. Most of the oid has marry reached the top of the second story. and contemplate making min-ral water a specialty and b able to discourse on them more wisely than at the communeement of his press their regret at the loss of our pupular Carteer

I am Very Respectfully.

HENRY B. FURGERSON M .D. [The letter above alluded to, was, or should have been signed "Jake" and not "Jack." Jack is an onlindy different person. Ens. NEWS ]
