

W. W. HALL, } PROPRIETORS.
J. W. SLEDGE, }

THE NEW YORK WORLD has interviewed Mr. Blaine and he says under no circumstances will he permit his name to be used for the Presidential nomination.

CONGRESSMAN SIMMONS says he would be glad of an opportunity to vote for the Blair bill, but he did not believe in nursing a hope which cannot be realized, and that any Congressman who might be asked about it would say that there was no chance for it.

THE EXECUTIVE committee of the North Carolina Historical Society is endeavoring to rescue from threatened oblivion whatever of valuable historical material may still be available and appeals to all patriotic citizens to join in the effort to gather all noteworthy material bearing on the part the State has taken or any other of her people bore in the struggle of the Confederacy.

It is a commendable undertaking and ought to have the assistance of everyone.

THE INVESTIGATION of the Standard Oil company before the Senate committee has developed the fact that the "Trust" embraced fifty oil refineries located in different parts of the country with a capital of ninety millions, and it controls three-quarters of the oil produced in this country.

THE TARIFF bill which has been prepared by the Ways and Means committee has been made public. It carries out the President's recommendations on the subject. The estimated reduction of taxes by the bill will be about fourteen million.

THE DUTY on manufactured goods has been graduated to the lowest cost of raw material. The tariff has been removed from salt, lumber, jute, flax, copper ore, and a long list of chemicals and wool has been made free, and the disparity between woolen and worsted has been removed.

A VERY IMPORTANT decision was recently made by the Supreme court in the case of Brown vs. Commissioners of Hartford county. The decision holds that townships are within the power and control of the General Assembly and that corporate powers can be conferred upon them to accomplish any lawful purpose or to promote the property, safety, convenience, health or the common good of the people concerned, and further that the Legislature may give to any particular township the power to aid in the construction of a railroad by taxing itself and creating a debt for that purpose.

THE QUESTION of township subscription to railroads was discussed when the Ringwood railroad project was before the people, and it was then thought that such subscription was illegal, but the matter is now definitely settled.

THOS. W. MASON, ESQ.

WE PUBLISH in another column a letter nominating this gentleman for Governor, and frequently we see allusions to him in our exchanges in connection with the office of Governor and Lieutenant Governor. A letter from Anderson in B. R. to county, says: "The Hon. Thos. Mason would stir the whole Roanoke valley and bring thousands out glad to support that noble cause, Democracy!"

THE DEMOCRACY would do itself great good by calling Mr. Mason to the front. He has not sought any preferment, but pursues the even tenor of his way undisturbed by the harassing of any kind of attending to those duties which demand his attention and discharging them faithfully. He has never asked for or intruded or worked for office and never will. The Democracy of Northampton county has demanded his services more than once and like the good citizen that he is he has responded to the call and nobly done battle for his party. His course in both private and public life has been conservative and honest and straight forward on all occasions, and no temptation could swerve him from the right.

OUR EXCHANGES.

WHAT THEY SAY OF MEN AND MATTERS.

Of all the men who have been spoken of, we believe Judge Gilmer is most generally popular.—Newton Enterprise.

The prevailing impression among our people is that Lieutenant Governor Chas. M. Stedman meets all the requirements.—Clinton Democrat.

The New Bern Journal favors Hon. Thos. J. Jarvis for Governor. The Journal is not alone. The woods are full of just such people.—Elizabeth City Patriot.

With Pawle for Governor and Alexander of Mecklenburg, or Mason of Northampton for Lieutenant Governor, the Democrats (we think) could sweep the county.—Louisburg Times.

Judge Daniel G. Bowler is being prominently mentioned in connection with the Democratic nomination for Governor. We have already announced that we were in favor of Judge Walter Clark for that office, but we take pleasure in saying that we don't believe there is a man in North Carolina that deserves more at the hands of the Democratic party than Daniel G. Bowler.—Hillsboro Recorder.

The Ring is of the unqualified opinion that the party would do a very wise thing to make Governor R. F. Armfield, of Stateville, the standard bearer. We know he kicks at the mention of his name in that connection, but if the party would call him to the helm, in view of the situation, we do not believe that the patriotism in that big soul of his would let him decline. And what a campaign! His magnificence, persuasive eloquence and knock-down logic would carry the State as by a stampede.—Marion News.

We respect no Democrat who would abuse the negro for the way he votes. He is the victim of circumstances of influences almost, we may say, beyond his control. But the Democratic party has a right to expect that unselfish, patriotic white voters shall stand together in the next election, as they have done in the past, to prevent the recurrence of Republican rule—made possible only by a solid negro vote. If there is to be no division in the negro vote, then there are a thousand reasons why the white men of North Carolina should present a solid front in opposition.—Rockingham Record.

"Democrat" in another column takes issue with those who think Gen. Ransom very influential as a Senatorial worker. We disagree with our correspondent. Through the same kind of media of information, and therefore through media equally as trustworthy as any through which any information has come or can come, that can be used as a basis of detraction in his reputation, we have been led to conclude, that our some Senator exerts by means of his candidly spirit, popular personal address, exquisite tact and noblesse yet untinged egotism, great influence as a Senator for his State, North Carolina, with her eyes open and in full knowledge of his services in consequence in our conclusion, by retaining him as her Senatorial representative for a long term of years. If he was ever worthy of reelection, it seems to us he ought as regards efficiency to be again. His energy has not abated and his experience has increased. He should be better fitted therefore for usefulness as a national legislator than ever before.—Charlotte Chronicle.
