NEW TREATMENT BY A MARYLAND PHYSICIAN.

The Medical World for September contains an interesting article by Dr. Nevin B. Shade, formerly of Hagerstown, but now of Washington, describing his plan of treating tubercular diseases and the results of his treatment. For some years past Dr. Shade has been treating tubercular consumption with hydraroyri chloridum mite, giving from one to two grains every night for a week then omitting the medicine perhaps for a week. Meanwhile quassin is given with hot water before meals. Care on the part of the physician is required. The result has been a success in about all the cases treated. The theory, fortified by microscopic studies, is that the hydraroyri chloridum mite disorganizes the bacillus of tuberculosis.

**A HORSE'S MEMORY.**

AFTER AN ABSENCE OF TEN YEARS HE RECOGNIZES HIS OLD MASTER.

"About nineteen years ago Dr. Walton bought a pair of chestnut sorrel horses for \$500," said Tom Felts last night, "and after keeping them a short time he sold one of them for \$150 to Mr. Teasley. I bought him from Mr. Teasley for \$150, and for nine years that horse and I lived together nearly all the time.

"Part of the time I lived in the country, and one rainy night the loft of the stable, with sixty-five barrels of corn in it, fell in and pinned that horse down to the ground so that he could hardly move. I did not hear the crash, but I afterwards found out it occurred about midnight. Next morning I went up to the stable, and it nearly broke my heart to see the horse that I loved more than anybody or anything in this world in such a fix. He lay perfectly still, and I thought he was dead, and I couldn't help crying. After a while we got him out, and I just know from the way he rubbed his nose against me that he knew how much I loved him, and how much I suffered to see him pinned down to the ground that way with sixty-five barrels of corn on top of him.

"About ten years ago I sold the horse to Stirling Walker, and he promised not to sell him any more. But after he had kept him a long time he traded him to a man up in Springfield, who afterwards sold him at public auction down here on the Square. A man named Griggs, in North Nashville, bought him and now I'm going to tell you something funny.

"Day before yesterday I was passing along Buena Vista street when I saw a horse standing on the other side of the street. I wasn't thinking about anything in particular, and just walked on. First thing I knew that horse had crossed the street and was rubbing his nose against me. 'Twas my old horse, and he hadn't seen me in ten years. But he had remembered me—Nashville American.

**A STEAMER FOR THE CLOUDS.**

NAVIGATING A LAKE IN THE PERUVIAN MOUNTAIN TOPS.

The Peruvian Corporation, of London, has recently placed an order with a Dunbarton shipbuilding firm for a steamer which is to ply on the waters of Lake Titicaca, high up among the Andes Mountains in Peru.

The steamer will be built complete in Dunbarton and then taken to pieces and packed for shipment to the west coast of South America. The parts will be carried by rail and muleback to the lake, which lies 12,850 feet above sea level.

It is probably that two more steamers of the same pattern will follow.

This is probably the highest point in the world where steam navigation has been attempted.
