

THE ROANOKE NEWS
THURSDAY NOVEMBER 19, 1891.

YESTERDAY was Masonic day at the exposition and was devoted to the Oxford Orphan Asylum and quite a number of the children were in attendance. The masons had charge of the gates and the Asylum received twenty-five per cent. of the gate money. Col. Andrews gave them free transportation to and from Raleigh. He is one of the cleverest railroad men in North Carolina.

FROM the annual report of John W. Mason, commissioner of Internal Revenue, which has just been made public, it is learned that 115,962,380 gallons of spirits were produced during the year ending June 30, 1891—over six million gallons more than produced the year before. On that date, June 30, 1891, the quantity of spirits in distillery warehouses was greater than ever before. In ascertaining the quantity of spirits subject to tax weighing will be substituted for gauging.

THE National Farmers Alliance convened at Indianapolis this week. The session will be equally as important as that held last fall at Ocala. The telegraph says the principal topic that will be under discussion during the session is the financial condition of the country. It is stated that a resolution will be introduced declaring against any third party scheme, and those members who are in favor of the proposition to place the Alliance in the political arena will oppose it strongly. But it is well not to believe too strongly what the press reports say.

THE Baltimore Sun of last week published what purported to be an interview with Governor Holt by a special correspondent which occupied nearly two columns in which the Governor was represented as saying things about the Alliance which were severe and contemptuous. Governor Holt denies the accuracy of the interview and the utterances attributed to him are entirely at variance with the Governor's privately and publicly expressed views. Governor Holt's record is not at all antagonistic toward the farmers or the farmers' movement, and the misrepresentations by the Sun's correspondent are inexcusable.

THE branch of the Keeley institute established at Greensboro is receiving patients for treatment. The Keeley institute is for the cure of the tobacco and liquor habits and is said to be successful in at least three-fourths of the cases treated. Bichloride of gold is the basis of the treatment, but the proportions in which it is administered and the combination of other drugs is a secret which Dr. Keeley, the discoverer, has not made public. He has been using this treatment for about ten years and has established its efficacy by thorough experience. He now has an institute for patients at Dwight, Illinois, and the one at Greensboro is a branch.

CONSIDERABLE interest is felt in the political complexion of the New York Legislature elected this month for several reasons. If the Senate be Democratic there will be no trouble about the confirmation of Governor Flower's appointments. And if the Democrats control both Houses the State can be redistricted in a just manner which will increase the strength of the Democrats both in Congress and in the Legislature. The present Senate holds over and take part in the election of a U. S. Senator next year.

According to reliable information the Senate stands seventeen Republicans, fourteen Democrats and one independent. One Republican senator is quite ill from a stroke of apoplexy. The House stands a tie, if the one independent member votes with the Republicans. The Democrats will have two majority should he vote with them. Several contests for seats will be made, and it is therefore important to each party that it control the organization.

In the Senate the Lieutenant-Governor presides and in case of a tie has a vote, except upon bills.

Oh, What a Cough.

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50c, to run the risk and do not nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves croup and whooping cough at once. Mothers, do not be without it. For lame back, side or chest use Shiloh's Porous Plaster. Sold by W. M. Cohen, Druggist.

MR. FREDERICK TAYLOR, who is, according to the New York Herald, a banker, orator and long an earnest and influential Republican, has published a letter in which he says that bossism and extreme protectionism are the sources of Republican tribulations. He says that when the people turned the government over to the Republican party in 1888, they did it on the pledge that the tariff should be revised and reduced, but not increased and this pledge has not been kept. The people have accordingly shown, by deserting to the Democrats, their disapproval of the policy that has been pursued. Therefore, argues Mr. Taylor, the only hope for restoring the party to the confidence of the people is by abandoning the McKinley tariff and making reductions in duties in accordance with the popular demand.

When tariff reform was the only issue in the last campaign the Republicans admitted the propriety of reforming the tariff, but argued that the friends of protection should be allowed to do it. And the McKinley bill is the reform given the country—an increase all along the line.

Mr. Platt being questioned upon the subject says the election in New York was carried by the Democrats by the expenditure of \$600,000 in bribes. By this Mr. Platt must mean that there were sufficient corrupt Republicans in the State to turn traitors to their party for the sake of pecuniary bribes. Mr. Platt has a poor opinion of the members of his party.

Whether Mr. Taylor or Mr. Platt be right it looks as if the grand old party was nearing the end of an ill-spent life.

So note it be.

EDISON'S NEW MOTOR.

THE THING WITH WHICH HE PROPOSES TO DRIVE TRAINS 100 MILES AN HOUR.

Mr. Edison has given out some, though very meager information about the new motor invented by him, which he predicts will revolutionize the entire railway business of the country. He says that its advantages are that it will make a speed of 100 miles an hour easily attainable, and that it will get from six to ten times as much available power out of a given quantity of coal as present methods get. In describing the method of its operation he said that the current will pass from the stationary engine to a central rail between the tracks, thence through the machinery attached to the bottom of the cars or motor. A freight train, of course, would need a motor because of the number of cars, although a single passenger car could be run carrying its own motor beneath, thence to the wheels, and thence back by the side rails to the power-house or stationary engine. Three of these, with a horse power of 10,000 or 12,000 each would run the whole Pennsylvania Railroad between New York and Philadelphia.

NEW ADVERTISEMENTS.

Catarrh

Is a constitutional and not a local disease, and therefore it cannot be cured by local applications. It requires a constitutional remedy like Hood's Sarsaparilla, which, working through the blood, eradicates the impurity which causes and promotes the disease, and effects a permanent cure. Thousands of people testify to the success of Hood's Sarsaparilla as a remedy for catarrh when other preparations had failed.

Catarrh

"I will say I have been troubled for several years with that terribly disagreeable disease, catarrh. I took Hood's Sarsaparilla with the very best results. It cured me of that continual dripping in my throat, and stuffed my feeling. It has also helped my mother, who has taken it for run down state of health and kidney trouble." Mrs. S. D. HEATH, Putnam, Conn.

"I have used Hood's Sarsaparilla for catarrh with very satisfactory results. I have received more permanent benefit from it than from any other remedy I have ever tried." M. E. READ, of A. Read & Son, Wauseon, O.

Hood's Sarsaparilla

Sold by all druggists, \$1; six for \$5. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar

NOTICE.

By virtue of a decree of the Superior Court of Halifax county, rendered at the March term 1891 of said Court, in the action therein pending wherein M. V. Barhill was plaintiff, and F. B. Lock and wife Pattie V. Lock, were defendants, I shall on Monday, the 18th day of November, 1891, at 12 o'clock M., expose to sale at public auction to the highest bidder for cash, at the court house door of said county, a tract of land situated in said county, on Beaver Dam Swamp, adjoining the lands of G. W. Morris and J. T. Ryan containing one hundred and five acres more or less. This 5th day of October 1891.
W. C. THORNE, Commissioner.

SADLER'S BRYANT & STRATTON COLLEGE

FOUNDED IN 1864 by the present executive—27 YEARS of continuous and successful management—increased annual attendance—stands unrivaled in facilities for educating YOUNG MEN AND WOMEN for success in life. In deciding upon a school for their children, PARENTS should send them to THE BEST, because it pays. It may require the expenditure of a few dollars more at first, but it will prove the cheapest in the end. CHEAP tuition is very dear, because it means cheap teachers, cheap surroundings, inferior facilities, and offers NO opportunities for securing POSITIONS for its pupils and graduates. This institution, owing to its HIGH standard of excellence, has placed in desirable positions more young men and women from Maryland, Virginia, North Carolina, South Carolina and Georgia, than all similar institutions combined. Catalogue and particulars mailed on application. Address, W. H. SADLER, President, and Founder; or F. A. SADLER, Secretary, BUSINESS COLLEGE, G. S. 10 & 12 N. Charles St., BALTIMORE, MD.
