THOSE men in eastern North Carolina who favor the Third party should remember that others of their interests are at stake as well as those formulated by the St. Louis platform; and that while bending all their energies to procure the advancement of the St. Louis demands they may lose sight of and throw away certain necessary things, the loss of which would render nugatory any advantages that might otherwise accrue from the enactment of the St. Louis demands into

It is generally admitted everywhere that local self-government is of paramount importance, that without it no other measure can be of much benefit. The people of Eastern Carolina have had the strongest and bitterest proof of the truth of this fact. For years they labored and suffered under an irresponsible government, and while they have again secured control of their local affairs they have not forgotten the dark days that accompanied the misrule inaugurated in 1868. They well remember the utter rottenness of the regime of that period, and they want no repetition of it.

But if they neglect everything but the St. Louis demands; if, in their zeal to incorporate these demands into the law of the land, they abandon their own local self-government, and put their liberties and their property again under the control of ignorant and unreliable men they will have themselves only to blame for it; they alone will be responsible.

it against their wishes as a matter of absolute necessity to the east. But if the east become careless and indifferent about it does the east suppose that the west will still agree to it? If the west sees that the cast is willing to sacrifice this system, for whatever purpose, will the west con-tions to live under it?

Let the west answer for itself. Indeed it has already indicated its purpose. Read what the Shelby Review says :

Mr. Skinner and Mr. Butler have given it out that "the people a e no longer to be frightened by the cry of the nigger in the woodpile." In view of the fact that the world cry from the eastern part of Alse State for protection from negro domination led the Democrats of Western domination led the Democrats of Western North Carolina to consent to the present system of county government and has caused them to light hard every campaign year for its continuance, losing many votes on account of it, doing all this and bearing all this in order that the very counties in which Mr. Skinner and Mr Butler live might be asved from negrodusmination, they should not be surprised if the Democrats of the West should refuse longer to submit to the county government system and should demand a change. If these men no longer fear the migges in the southle, they must believe their section capable now of managing its negro population and this section feels no longer any disposition to make any neckes, or unappreciated secrifices. So far, the main strength of the Third party which theatens the Desco cratic party with defect (and that means disaster to the State) is to be found in the very section for which the Democracy of this section has beene so much so patiently and so patriotically. Should it is a received at them if we demand a partial of capable government more con-

THE House of Representatives has passed the bill putting wool on the free ist. It is now tackling the bills to put on the free list bagging for cotton, muchinery for manufacturing bagging, cotton ties and cotton gins.

TRE election in Rhode Island on Wednesday resulted in an increased Republican vote. The Republican candidate for Governor was elected by a majority of 229 while last year the candidate did not get a majority but was elected by the Legislature. A grand fight was made by both parties. We hope Mr. Cleveland's friends will remember that he made a speech in Rhode Island and the Democratic convention had instructed its delegates to vote for him in the National convention.

AND now the Mugwumps say that Hill defeated the Democratic ticket in Rhode Island. This is a high tribute to the Senator's power. We do not believe this mugwump element which is apparently so determined to nominate Mr. Cleveland, has any idea that that gentleman will be nominated. They want Hill defeated because if he is nominated and elected they will be relegated to the rear where they belong and not be allowed to dictate the policy of the Democratic par ty with which they are only in sham sympathy. The bolters' movement in New York is not in the interest of the Democracy but solely of the bolters themselves.

### HILL AND CLEVELAND.

The fight is over in Rhode Island, and Cleveland, the man who is going to bring Little Rhody and Massachusetts into the Democratic column, went to Providence, took command, issued his orders, went through the same old sterotyped speech on free raw material for the Yankee which he says is the only issue before the

American people.

Well, since the smoke and dust of the battle has cleared away Little Rhody is the earthquake in Italy and in Charles more solidly Republican than ever. The Republican candidate for Governor beat the Democratic candidate about two thousand votes—an increased plurality over the last election for the Republicans. So instead of changing the political com-plexion of Rhode Island he has made it nore Republican.

This favorite of all the banks, boards This favorite of all the banks, boards of trade, bondholders, gold bugs, corporations and wealth in general, is very strong with all Republicans and in Republican States, but is not strong enough to carry the smallest Republican State in the Union for the Democratic ticket. All his admirers fully expected his voice, his p esence, and his great influence would change the political complexion of the State, and more than three thousand soomerangs had been carefully prepared to overwhelm the Democracy and drive it to his support. But lo and behold! in-stead of these beautiful penegerics meet-ing the eyes of the American people, a thousand and one excuses are given why Rhode Island did not wheel into the

Democratic column.
Well the truth is, neither Cleveland That the west has been restive under the prevailing system is well known. of the five New Eugland States Demoof the five New England States Demooratic in a presidential contest. Neither
Cleveland nor any other Democrat can
carry Pennsylvania, Ohio, Illinois, Wisconsin, Iowa, Michigan or any other
t Western State except Montana in a pres
idential contest. Yet these Republican
States propose to combine with the bolters
and conditional Democrats of New York
and the reonied influence of some of the
Southern States and distate the nomines
of the Chicago convention.

of the Chicago convention.

New York, Indiana, New Jersey, Connecticut, and the South, with Montana will be the only States that will cast their electoral vote for the Demogratic nomines, and those States ought to control in the nominating convention. If their will is regarded we shall have a Democratic President, if not, we shall have a Republican President.

Hill's message to the New York leg-islature, during the pendency of the in-famous force bill intended to degrade and humiliate the South, in which he declared he would veto any bill appropriating money to the World's Fair, unless the measure was defeated and the South saved from such an unjust and oppressive or-deal, ought to endear him to every true Sou hern gentleman But we are pained

Sou here gestleman. But we are pained to learn that is not the policy of the South nor of the Democracy of the South.

Hill's moreage to the Legislature of the Empire Stare did more to defeat the infamous reconstruction measure than any other on thing done except the voice.

any other the thing done except the voice against the bill. During all this time Mr. Cleveland apened not his mouth, said not a word against the measure in behalf of the South. But as quick as a flash of lightning he bounded the silver bill, the next day or day thereafter, after the silver bill passed the Senate.

Now take the truthful reports of Mr. Hill and Mr. Cleveland—is it not remarkably strange and past finding out that any Southern man should prefer Cleveland to Hill? Is it not stronger still that the South understey dreamstances, other than forced, yet in a consisting for some who opened not his meanth in her favor in none of her trying colonie, but on the contrary in his handle speech, since he has been fecune

and is infamously faise and damaster from a Democratic standpoint, however true from a Republican stand point?

But it has been the policy of the South to love its enemies and punish its friends, and Grover Cleveland carried out that policy to perfection when president and pledges his honor to do likewise if given another chauce. All the money lords and kings of the land, all the great business firms and movey lenders are booming Cleveland for the Democratic presidential candidate, regardless of party. In fact and in truth his strongest boomers are mugwumps, conditional Democrats and straightout Republicans. Whenever you find an intelligent Republican you find a strong advocate of Cleveland, and yet not one will vote for him.

This fact alone ought to open the eyes

of Democrats. But some animals not open their eyes under nine days after birth, and some, never.

The fact that all the Republicans in the United States hate Hill worse than the devil hates Holy water ought to teach sensible men a lesson, but some people never learn anything.

The writer tever saw Hill, but lov s him because the Republicans hate him He has never been weighed and found wanting. He has won every battle, de-feated his foe every time. He has done for the Democracy of the country what no other Democrat has done or could do and if permitted will make this country Democratic for twenty-five years to

If Cleveland is nominated at Chicago I will wager five thousand dollars he will not carry North Carolina. Secondly, I will wager five thousand dollars he will not carry New York; thirdly, I will wager five thousand dollars that he will be de feated as president and will bury the Democratic party in his defeat so deep that the hand of resurrection will never reach it. This is the size of my pile all told, or I would wager fifty times as

The Rev. Robert Clark, a colored man of Beaufort county, seventy-six years old, is said to possess the gift of prophecy. He predicted the close of the war and the day of Lee's surrender; he predicted ton and now he predicts that a new political party will send consternation into the old parties, that this new party will flourish for a while but will then die He also says there will be destructive earthquakes in some parts of the world, evelopes and whirlwinds in this country spreading death and destruction in their

"Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed years. In that time ten or cleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilis for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Wailling Mig.
