

The ROANOKE NEWS

VOL. XXIII.

WELDON, N. C., THURSDAY, MAY 12, 1892.

STATE NEWS.

The Supreme court has adjourned until the fall term.

\$100,000 has been subscribed for a cotton mill at Reidville.

William B. Glenn, a prominent lawyer of Winston, died last week.

The Fifth district Republican convention instructed for Harrison.

Buildings to the value of \$360,000 are under contract at Durham.

Grading began Monday on the railroad from Southport to Wilmington.

A permanent arch will be built on Independence Square in Charlotte.

No less than \$15,000 worth of truck left New Bern one day last week.

There are now 47 young ladies in the senior class at Greensboro Female College.

A convict who escaped from the penitentiary in 1885 has just been re-captured.

Senator Willis R. Williams, of Pitt, is a candidate for the nomination for State Auditor.

The total loss by the fire at New Bern Thursday night was \$25,000. The total insurance was \$8,100.

Mrs. Lucy S. Edwards, wife of the late Weldon N. Edwards, died at her home in Warren county on the 2nd inst., aged 87 years.

John H. Williamson, colored, will contest the election of John Nicholls as a delegate from the Raleigh district to the Republican National convention.

Mrs. Mary M. Cureton claims possession of the whole of Tryon City in Polk county, under a State grant to James Logan, in 1790, of whom she is the heir.

The Franklin Press has been shown a set of crockery made of Jackson county Kaolin which in fineness and texture compares with the best it ever saw. It consists of over forty pieces.

Daniel Boone lived in Davidson county and the cabin in which he lived is now almost entirely obliterated but the hearth stone remains and efforts will be made to exhibit it at Chicago.

The number of students at the University is 248. The trustees have ordered the erection of a building for the Department of Agricultural Chemistry, of which Prof. Venable will be in charge.

Tuesday the 49th annual session of the Grand Lodge I. O. O. F. convened in Wilmington. The very rapid growth of the order in North Carolina during the past two years and the important question of the maintenance of the orphan's home recently established at Goldsboro made this session the largest and most interesting one ever held by the order in this State.

The collection of funds for the State building at the World's fair is progressing so favorably that the building is said to be assured. The material will be prepared here in perfect shape and shipped to Chicago. The students of the several colleges in the State will send a handsome desk to be used on the rostrum of the Woman's building in honor of Virginia Dare the first native born woman. The desk will be made from wood grown on Roanoke Island.

The preliminary arrangements for building the Norfolk, Wilmington and Charleston railroad are complete. Over three hundred miles of right of way has been obtained and the people along the line are anxious and doing all they can to facilitate the construction of the road. Gentlemen who are looking after the road have decided to recommend a deviation in the line to take in Washington and New Bern. This will cost \$300,000 more and they want the people of those localities to make up the money.

Bessie H. Bedloe, Burlington, Vt., had a disease of the scalp, causing her hair to become very harsh and dry, and to fall so freely that she scarcely dared to comb it. Ayer's Hair Vigor gave her a healthy scalp, removed the dandruff, and made the hair thick and glossy.

PROBLEM.

HOW LONG WILL IT TAKE TO CHRISTIANIZE THE WORLD?

We republish by request the above problem, and the solution by Mr. Eugene Johnston, of Littleton.

PROBLEM.

Three centuries after Christ there were 5,000,000 Christians, an average of 1,666,666 per century.

Eight centuries after Christ there were 30,000,000 Christians, an increase of 5,000,000 per century.

Ten centuries after Christ there were fifty million, an increase of 10,000,000 per century.

Fifteen centuries after Christ there were 100,000,000 Christians, an increase of 10,000,000 per century.

Eighteen centuries after Christ there were 174,000,000, an increase of, say, 25,000,000 per century.

Now there are 450,000,000, an increase of 276,000,000 to the present time, or about 300,000,000 per century.

AT THIS RATE OF INCREASE HOW LONG WILL IT TAKE TO CHRISTIANIZE THE WHOLE WORLD?

SOLUTION.

I assume the present population of the world to be, in round numbers 1500 millions, and the yearly increase of the population of the world to be 15 millions. This rate of increase for 50 years, will give a total increase of 750 millions, which added to 1500 millions, the present population of the world, will give 2250 millions for the population of the world, fifty years hence, or in the year A. D. 1942.

In the problem, the increase of Christianity is given for the 18th century at 25 million, and for the 19th century at 300 millions. This radical increase in the 18th and 19th centuries from the gradual progressive increase from the beginning, through the other preceding centuries, virtually eliminates all other rates of increase from the calculation and makes the difference in the increase of the 18th and 19th centuries the true and proper rate of increase to base calculation for future increase.

Now as the increase of Christianity was 300 millions in the 19th century or 12 times more than in the 18th century, it follows at the same rate of increase, it must be 12 times greater in the 20th than in the 19th century—which is 12 times 300 millions or 3600 millions increase for the 20th century or 1800 millions for half century of fifty years, to which add 450 millions, the present number of Christians, and we have 2250 millions Christians, fifty years hence, in the year A. D. 1942, which as shown above will also be the population of the world at that time. My answer is, I repeat, fifty years from the present time, or in the year A. D. 1942.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75c. to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer, every bottle has a printed guarantee on it, use according and if does you no good it will cost you nothing. Sold by W. M. Cohen.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper—W. A. Noyce, 820 Powers' Block, Rochester, N. Y. apr 20 ly.

OUR ZEB.

THE NEW YORK WORLD CORRESPONDENT HAS A PLEASANT WORD TO SAY OF SENATOR VANCE.

Senator Vance, of North Carolina, has been under the weather and has been cautioned by his physician to be extremely prudent. He is troubled with facial paralysis and with sinking spells that make breathing difficult. He has been similarly affected before. While he was Governor of North Carolina a few years ago his life for a time was despaired of.

There is probably no member of the Senate whose absence from the Chamber is more readily noted by his associates. Mr. Vance is a wit, a philosopher, an inimitable story teller and the jolliest of companions. He is the one member of that solemn and impressive body who refuses to succumb to the heavy atmosphere of his station. He insists, though a Senator, on taking life naturally and pleasantly and his running and racy comments on the debates are about the richest things heard in the Senate. Mr. Vance does not speak often, but he always commands attention. Neither does he attempt to lay down the law when he does take the floor. His speeches illustrate the unconventional type of the man, being full of homely phrases in vogue in rural communities and of apt and breezy references to every day affairs. The Senator enjoys a neatly turned parody and has more than once shocked the Senate but delighted his friends by quoting a bit of doggerel.

Mr. Vance is sixty-two, but he is heavy, and, like the majority of large men, he neglects to take sufficient exercise, and the results is some serious disorder of his system. His trip to Europe last year did not permanently benefit him.

N. C. GEOLOGICAL SURVEY.

The work of the North Carolina Geological survey is being actively pushed in several sections of the State. The State geologist will spend the month of May in the counties lying between the Raleigh & Gaston, and the Wilmington and Weldon Railroads, and north of the North Carolina Railroad, examining the general geological formations, building stones and iron ores. Mr. H. B. C. Nix, geologist in charge of the iron ore investigation, is now making an examination of the belts of iron ore and limestone of Gaston, Lincoln, Catawba and adjoining counties. Mr. J. V. Lewis is investigating the building stone formations of the Deep river Triassic sandstone belt, which extends from Granville county across the State to the South Carolina line. Other assistants connected with the survey will enter upon field work at an early date. In June of the survey parties will be concentrated in the mountain counties, where the work begun last summer will be continued. An important piece of work recently begun by the survey, and one in which all the assistants will take part, is the study of the rocks to be found in different parts of the State which are suitable for use in macadamizing public roads. The improvement of the public roads is being generally agitated, and quite a number of counties are macadamizing the more important roads, but some of them are using inferior rock, while much better material is near at hand. A report by the survey on the best stone for road material, where it is to be found in quantity and how to use it, will be of great service to the people.

Shut Down

that's what they call it when the mill closes and the work stops. The same term is applied to the liver when you suffer with Biliousness and Sick Headache. There is no action. A few doses of Simmons Liver Regulator will soon set the liver going properly, and keep the bowels regular. Take the regulator now and then to prevent any re-occurrences of these distressing symptoms.

For Malaria, Liver Trouble, or Indigestion, use BROWN'S IRON BITTERS

A WONDER OF SCIENCE.

ELECTRICITY UTILIZED IN A SURGICAL OPERATION.

One of the most delicate surgical operations ever performed in San Francisco was that to which A. Baehm, a patient at the City and County Hospital, was subjected recently. The operation was remarkable in that an endoscope or small electric light, was used during the process. This was thrust into the thoracic cavity, and by its illumination the action of the heart and lungs was plainly visible. This is the first case reported on the Pacific coast where the electric endoscope was used in difficult surgery with beneficial results.

Baehm was afflicted with an abscess, which had formed in the pleural cavity and attacked the left lung. The operation was an exceedingly dangerous one, and in order not to shock the patient no mention of the intention of the physicians was made to him.

The sick man was quickly anaesthetized and the inflated breast was exposed to view. A discoloration on the left side showed that the trouble lay under the tissue in that direction, and Dr. Ellinwood began operations at once by making two deep incisions crosswise, from which the blood spouted in streams. Several of the larger blood vessels were necessarily cut, but these were quickly ligatured with Dr. Stillman's assistance. The flaps of flesh were laid to one side, exposing the third rib to view. This rib was resected for three inches, and when it was cut away a dark and bloody opening was revealed, through which the thoracic cavity and the space between the lungs could be seen. Dr. Hirschfelder inserted the endoscope through the opening in Baehm's breast and the light was turned, illuminating the interior of the cavity with remarkable distinctness.

The heart worked slowly, owing to the effect of the ether. The aorta dilated and fell with every heart beat. The lung was also plainly visible. During the one hour and a half consumed in making the operation the action of the heart was plainly visible, and the unusual sight was the subject of much comment upon the part of the operators and spectators.

The operation was a highly successful one in every particular, and Baehm's condition shows that he is gaining strength.

ELIAS CARR NOT A CANDIDATE.

Barbora Southerner.

Mr. John L. Bridgers wrote to Mr. Elias Carr as follows: "There has been much said in connection with your nomination for governor. There is an impression among your friends that you are not a candidate for the position. Being aware of no public declaration on your part, as to this, I would be pleased to know your views about it, should you see fit to express them." To this Mr. Carr replies: "I beg to acknowledge the receipt of your esteemed favor, and to thank you for the opportunity afforded me of declining publicly what I have so often done in conversation, viz. the permission to use my name for the gubernatorial nomination. To my many friends, both in and out of the Alliance, and especially to my countrymen who have manifested such interest in my preference I tender my most hearty thanks, and assure them that I feel grateful for their confidence."

Oh, What a Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford the risk of doing nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves croup and whooping cough at once. Mothers, do not be without it. For lame back, side or chest use Shiloh's Porous Plaster. Sold by W. M. Cohen, Druggist.

BROWN'S IRON BITTERS Cures Dyspepsia, Indigestion & Debility.

PLAN OF ORGANIZATION

AS GOVERNING TOWNSHIP AND COUNTY CONVENTIONS AND COMMITTEES.

The unit of county organization shall be the township. In each township there shall be an executive committee, to consist of five active Democrats, who shall be elected by the Democratic voters of the several townships in meetings called by the county executive committee. And said committees so elected shall elect one of its members as chairman, who shall preside at all committee meetings.

The several township executive committees shall convene at the meetings of the several county conventions, or at any time and place that a majority of them may elect, and shall elect a county executive committee, to consist of not less than five members, one of whom shall be designated as chairman, who shall preside at all of the said committee meetings.

In case there shall be a failure on the part of any township to elect its executive committee for the period of thirty days, the county executive committee shall appoint said committee from the Democratic voters of said township.

The members of the township committees shall elect to any vacancy occurring in said committees.

The township conventions shall elect their delegates to represent the townships in the county conventions from the voters of the respective townships, which delegates, or such of them as shall attend, shall vote the full Democratic strength of their respective townships on all questions that may come before the said county conventions. In case no convention shall be held in any township in pursuance of said call, or no election shall be made, the township executive committee shall appoint such delegates.

Each township shall be entitled to cast in the county convention one vote for every twenty-five Democratic votes, and one vote for fractions of fifteen Democratic votes cast in the last gubernatorial election: Provided, That every township shall be entitled to cast at least one vote, and each township may send as many delegates as it may see fit.

The chairmen of township committees shall preside at all township conventions. In their absence any other member of said committees may preside.

In cases where all the township executive committees are required to meet for the purpose of electing county executive committees, said meetings shall be deemed to have a quorum when a majority of such townships shall be represented in said meetings.

COUNTY AND DISTRICT CONVENTIONS.

The several county conventions shall be entitled to elect to their senatorial, judicial and congressional conventions one delegate and one alternate for every fifty Democratic votes, and one delegate for fractions of over twenty-five Democratic votes cast at the last preceding gubernatorial election in their respective counties, and none but delegates or alternates so elected shall be entitled to seats in said conventions: Provided, That every county shall have at least one vote in each of said conventions.

GENERAL RULES.

1. Such delegates (or alternates of absent delegates) as may be present at any Democratic convention shall be allowed to cast the whole vote to which their township or county may be entitled.
2. In all conventions provided for by this system, after a vote is cast there shall be no change in such vote until the final result of the ballot shall be announced by the chairman of said convention.
3. All Democratic executive committees shall have the power to fill any vacancy occurring in their respective bodies.
4. The chairmen of the different county conventions shall certify the list of delegates and alternates to the different district and State conventions, and a certified list of said delegates and alternates to the State conventions shall be sent to the Secretary of the State Central Committee.

Man is often deceived in the age of a woman by her grace. Ladies, you can appear young and prevent this grayness by using Hall's Hair Renewer.
