is Life Worth Living?

That depends upon the Liver. if the Liver is inactive the whole systen is out of order-the breath is lad, digestion poor, head dull or aching, energy and hopefulness gone, the spirit is depressed, a heavy weight exists after cating, with general despondency and the blues. The Liver is the housekeeper of the health; and a harmless, simple remedy that acts like Nature, does not constipute afterwards or require constant taking, does not interfere with business or pleasure during its use, makes Simmons Liver Regulator a medical perfection.

I have tested its victures personally, and now that for byspepsia, follousness and brobbary Hoad, do, it is the best mod-ize the world ever saw. Have tried forty ther remades before Simmons Liver spelares, and rane of them have more has being set pellef, but the Kegulator H. H. JONES, Macon, Ga,

The Pulaski Democrat publishes the following loaf from J. B. Weaver's war record:

NESSEE.

"General Weaver, while in command at Pulaski, in January, 1864, issued an order to Charles C. Abernathy, John H Newhill, Robert Rhodes and others that they pay into his hands \$1,000 for the maintainance of refugees (meaning ne groes and renegades from Alabama This order was accompanied by the threat that if the money was not paid they and their families would be sent south and their property given to said refugees. All of these parties are dead now, and were over sixty years old when that order was issued. Can any Southern man vote for such a heartless wretch? A man by the name of C. W. Witt sold Mr. Jasper Cox, a very poor man, two thousand pounds of bacon, for which he received the cash. Mr. Cox took the bacon to the cotton mills in Lawrence county and traded it for cotton twist. This he carefully stored away in the little cabin, thinking it would assist him in purchasing a little home after the war, as he was very poor with a large family, and had no home. Weaver learned through some source that this gentleman had the cotton twist, and sent a detachment of soldiers to his home and took possession of it, and shipped it to Iowa for his own use. The cot ton twist was worth at the time it was stolen \$2,000. Jasper Cox is living in Giles county. John P. Williams, a poor g in Warren and Halifax counties which s owned and occupied by Samuel A. LIEUTENANT TOTTEN SAYS DISAPPEAR-ANCES WILL BECOME COMMON AND INEXPLICABLE.

Lieut. Totten has filed in the town clerk's office here the following document for record:

"This is to certify that in return for \$1 in hand this day and her affection always in heart, the which is mutual, and with a view to prevent any misunderstanding as to my wishes, I now and in the presence of witnesses make over and convey to my beloved wife, Mary Totten, all my personal effects and all my assets of every character whatsoever, to her and to hold in her name only henceforth; and this deed of gift is and shall to in lieu of any will or mine heretofore made and filed. And I specify that this deed takes effect now and shall remain in force until withdrawn, the which will never be by my hand. Should, therefore, any of the accidents of life overtake me, or should I apparently disappear, all person to whom this comes will know that what we have my wife alone owns, and may God bless her and reunite us in His own good time."

The deed is duly signed and witnessed as Liet. Totten's act by Col. N. G. Osborn, editor of the Register, and Col. L. L. Morgan, business manager of the same paper. Lieut. Totten, when asked to explain his reason for recording this document, said:

"The time will come when you will hear of some person, it may be in your own family, who has gone and no trace can be found of them. You will not know what has become of them. You will wonder, and the first you know some other person in some other family will also be missing. Disappearances will become common, and no one can explain them. You will see crowds of people

TOWNS WHICH HAVE THE WRONG NAMES FOR THE COUNTIES THEY ARE IN.

MISFIT NAMES OF PLACES.

If a stranger from another State were to look over a map of North Carolina be would find some perplexing cases, where the names of certain towns seem to be a mi-fit as regard the names of their respective counties. This may sometimes account for mail-matter going wrong or failing to reach the person addressed within a reasonable time.

For example, he would expect to find both Asheville and Ashboro in Ashe county, but instead of that arrangement he finds the former in Buncombe and the latter in Randolph county. He would naturally look for Greensboro and Greenville in Greene county, instead of Guilford and Pitt, while he would see Pittsboro not in Pitt county at all, but in Chatham. Beaufort ought to be in Beaufort county, instead of Carteret, while Washington, in Beaufort county, should be in Washington county. Mooresville, in Iredell county, should be in Moore county, and Jonesboro, in Moore county,

would be best suited for Jones county, Haywood, in Chatham, ought to be in Haywood county, while the capital of that county would just suit Wayne.

Why was not Jackson put in the county of that name instead of Northampton and Franklin, as well as Franklinton in

Franklin county? Then there is Macon, in Warren county instead of Macon, and Hertford in Perquimans instead of Hertford county. Yanceyville, in Caswell county, and Rockingham should be put in Rockingham county, instead of Richmond.

Columbus is in Polk county, and Polkton is in Auson county, while Columbus county has not even Columbia. Davidson college is not in Davidson county, nor flocking about the churches and asking is Yadkin college in Yadkin county. themselves what is happening, but they Neither Alexanders nor Alexandria is in cannot explain he mystery. TOBACCO HABIT!

Next to the whiskey traffic, it is the most expensive and loathsome habit of the American people. The annual cost runs up into millions. The average tobacco up into millions. The average tobacco user pays to gratify this unnatural appetite from five to ten times more than he gives to support the Church. Shame on us, This Cure has not yet failed where the

party was in carnest about quitting and followed directions. Thousands have been cuied of chewing, smoking and dipping. Here are samples of certificates:

GENTLEMEN-I used tobacco for nine-teen years, and finding it injurious, decided to quit it. About seven months ago. with the Rose Tobacco and Snuff Cure, I quit it, and now find my health greatly improved, and that I have gained 30 pounds in weight. A. T. BAKER.

MESSIO, BRAZEAL & CO.;

Dear Sirs—The tobacco tablet bought of you December 30, 1891, has given perfect satisfaction. It has cured two persons of the tobacco habit—myself and another. I smoked cigarettes for four years, and had been chewing fourteen years. Since the use of the tablet I have no desire whatever either for smoking or chewing. It did the work in four days. Yours truly,

Dear Sirs-I sold three bottles of P. P. P., large size yest aday, and one bottle small size to day.

The P. P. P. cured my wife of rheumatism winter before last. It came back on her the past winter and a half bottle, 81 00 size, relieved here again, and she has not had a symptom since.

I sold a bottle of P. P. P to a friend of mine, one of his turkeys, a small one took sick, and his wife gave it a teaspool ful, that was in the evening, and the little fellow turned over like he was dead, but next morning was up hollowing and well.

A POLITICAL JOBBERY.

Dr. W. P. Exum, the Third Party gubernatorial nominee, has confided to a most intimate friend that his party has perfected arrangements with National Republican headquarters that in pase Harrison's election looks favorable on the day of November Sth. nexe, the entire vote of the People's party will be thrown into the hands of the Republicans.

In return, the Republicans have pledged themselves to give their entire vote to Weaver, if Harrison's chances of election should look doubtful that day. This bargain, according to the Weaverite candidate, was made between both parties, to beat Cleveland at all hazard and with the express view to break the Solid South.

The gentleman who informed us of this conspiracy, and to whom this confession was made by Dr. Exnm, is a most reputable citizen of this county, and is willing to make affidavit to the above statement if it comes to the question of veracity between himself and Dr Exum. Doesn't this show plainly that a vote for Weaver means a ballot for Hurrison

THE REMEDY.

Louisville Home and Farm.

Ten years ago the amount of money in circulation was \$1,022,034,685; last year it was \$1,498,072,709. The amount per-capita ten years ago was \$20.37; it is now over \$24.00. As the currency has

not been contracted the decline (in the price in cotton) must be due to something else. To what? In our judgment first of all, to the tariff, which has lowered the the exchange value of the cotton exported not less than \$50,000,000. The loss on the crop consumed at home is \$50,-000,000. In the past ten years this has amounted to one thousand million of

dollars. In that time the South has paid in pensions \$30,000,000 annually, or \$300,060,000 in ten years. These two items in ten years amount to \$1,300,-000,000. Is it any wonder we are poor? The remely is first tariff reform; then currency reform, with possibly as the best situation State banks of issue.

PUBLIC SCHOOLS.

In answer to an "Inquiry" we give the following facts on this subject:

In 1868 there were, practically, no public schools in the State. From 1868 to 1870 there were only disbursed for public schools about \$39,000, while the balance of the school fund, over a hundred thousand dollars, was voted by the republican legislators to pay their per diem. So much for what the republicans did for education in two years. Of course, there were, practically, no public schools.

In 1870 the democrats came into power, and in 1878 there were 3,388 public schools taught for white children, and 1.761 taught for color d children. In 1878 there were 146 S1 white children, and \$1,411 colored children enrolled on school term was nine weeks per year.

In 1888 there were 4.438 public schools taught for white children, and 2.317 for colored children. The school books show an anrollment in 1888, of 211,408 white children, and 125,884 colored-the average school term being 121 weeks per year.

In 1891 there were 4,574 public schools taught for white children, and 2.260 for colored; and an enrollment of 214 907 of white children and 115,812 colored-the average school term being 121 weeks.

In 1802 the increased taxation will make the average school term about 14 weeks, and will show the amount disbursed for school purposes to be about \$\$00,000. Thus it will be seen that the public school system, under our excellent democratic Superintendents, sustained by dem. cratic legislation, has been prosperous tr in year to year This is clearly evidenced by the fact that the first year of Democratic rule in the State \$177. 497.94 were disbursed for public school purposes; in 1881, \$409,658.88; in 1883 \$691,188.20, and in 1892, as stated, about \$800,000. Do our people want the public schools closed and the school fund t ken to pay negro legislators? If not they can prevent it sby voting the Democratic t.eket, and in no other way
