The Republicans show wonderful anxiety for the Third party candidate for Governor to remain in the field; yet they know there is no chance of his being elected. Their anxiety arises from the hope that if Dr. Exum remains in the field the Democracy will divide and they can elect Judge Furches.

The New York Herald says the Republican National Committee is said to be considering the advisability of abandoning the Republican State tickets in Indiana, Illinois, Wisconsin, and Kansas, and devoting their efforts to electing the electoral ticket in those States. This policy has been recommended by certain Republican leaders who believe it is the only way the electoral vote of those States can be saved to Harrison. The reports from Indiana, Illinois and Wisconsin received at Republican headquarters lately have not been very encouraging.

When it is remembered that these States have been Republican in National elections ever since they have been States it is a plain confession of weakness for the Republicans to abandon the candidates for State offices and trade them off for votes for Harrison and Reid. Should the Republican vote in these States fall off in the same proportion in November as it did in Maine two weeks ago, they will be lost to the Republicans and will take their place in the Democratic column, but this will not do for Democrats to bank on.

The plain object of that faction of the Republican party in North Carolina headed by Mr. Logan Harris and Dr. Mott is to carry the State for Harrison and this they hope to do by a trade. They hope that the Third party will help them in this little matter in return for what help they can give the Third party toward the election of their State and county tickets. The great object of the Third party according to their platform of principles is to secure certain reforms which the National government alone can enact. Yet they are asked to abandon these reforms and help Harrison in return for a promise of help in the election of their State ticket. Harrison represents the party which is responsible for every law and consequent evil caused by legislation, and yet the honest Third party men are asked to connive at, if not aid, in his election. In return for this a few Republicans with little following promise to help them to elect Dr. Exum. If such a bargain should be carried out what becomes of the reform movement? Dr. Exum as Governor could not help it along. Do Third party men believe their State ticket will under any circumstances get an appreciable number of Republican votes as long as a Republican State ticket is in the field?

Every testimonial regarding Hood's Sarsaparilla is an honest, unpurchased statement of what this medicine has actually done.

Judge FURCHES, the Republican candidate for Governor, is known to be an uncompromising Republican, believing in all the doctrines of his party, and accepting its platform without question. He is in the fight to win if he can, and he hopes to win by reason of the division in the Democratic party. In a speech at Statesville a few days before his nomination he said: "If the People's party get half the votes they say they will the Republicans will win. Some people claim if the Republicans nominate a State ticket the People's party will go back to the Democratic party." He said he didn't know about that, but there were some Republicans in the People's party; he hoped they would come back. He was opposed to the schemes of the People's party.

The Judge makes clear the hopes and purposes of his party. They are to divide and conquer. He is anxious for the Democrats to remain in the People's party, because if they do, his party will win, but he hopes if there are any Republicans among them they will leave. He evidently does not believe those Republicans who have joined the Third party are sincere and did so from principle. If this be true they either joined it for the sole purpose of getting office or with the intention of disrupting the Third party when the proper time should come. We do not charge this but it looks as if Judge Furches believes it. If he does not then he asks those Republicans who are in the Third party to betray the principles which lead them there by leaving it and voting the Republican ticket.

Mr. D. M. HARDY, who put Dr. Exum in nomination in the Third party convention and has since repudiated all connection with that party, was interviewed by the News and Observer last week. He said he went into the Third party movement because he knew that the people were suffering, and hoped something could be done for their relief through the new party. Before nominating him he asked Dr. Exum what he thought of this proposed change of county government and the Doctor replied that he was opposed to any change and wanted things to stand as they are. He particularly stated that "he didn't want any nigger government." A week after the nomination Dr. Exum stated in Mr. Hardy's hearing that he would rather have negro rule than the present State government. Mr. Hardy, thinking Dr. Exum had made that remark through anger and irritation, and being pained to hear it, later sought Dr. Exum and asked him about it. The doctor said yes, he did say it and he meant it, and had nothing to take back. Mr. Hardy said also that the Sunday after the nomination Dr. Exum told him that S. Ocho Wilson had told him that the Republicans would give fifty thousand dollars to secure the electoral vote of this State for Harrison, and would vote the Third party State ticket if they could get the electoral vote for Harrison, and Dr. Exum said he would rather give it to the Republicans than to the Democrats.

Mr. Hardy said that having studied financial matters he had ascertained that no law of which the people complained had been passed when the Democrats had control of either house of Congress, and he then became thoroughly satisfied that they were not to blame for the condition of things; and becoming satisfied that Dr. Exum was not a fit man for Governor and that there was a movement to give the electoral vote of the State to Harrison in pursuance of a corrupt bargain, he determined to leave the Third party and return to the Democratic party and did so.

This is straight evidence that the leaders of the Third party movement in North Carolina have been trifling with the honest convictions of their followers for the purpose not of securing the enactment of the reforms demanded but to give the electoral vote of the State to the Republicans. What was to be the consideration of this treachery toward the people who trusted them? Dr. Exum says fifty thousand dollars. Who would get this money? Certainly not the men who need relief and have been honest, if mistaken, in advocacy of the People's party and its platform.

Green Goods.

Don't be attempted to invest in them. You will get into trouble every time and in the end poverty and disgrace. The genuine Uncle Sam's green goods are the only ones of value. They make you rich; especially when used to purchase Simmons Liver Regulator to cure your Indigestion, Dyspepsia, or Biliousness, or drive away Malaria. Don't be tempted to take anything else in the place of the Regulator.

MAJOR W. H. MALONE, who was nominated by the Third party for Judge of the Twelfth judicial district, has refused absolutely to have anything to do with the People's party and wired Chairman Wilson declining to accept the nomination. Major Malone explains his action by saying that he sees no hope for the triumph of the People's party in this State, and if the State is to remain under the control of either of the old parties he would greatly prefer the Democratic party. He does not want to do anything that might aid the Republicans to get back into power. Further he said he sees nothing in the Republican party or platform that gives hope of relief to the country in financial matters. Major Malone does not abandon the Third party at all; he does not say he is a Democrat, and the presumption, judging from the tone of his explanation, is that he is still as much in favor of the St. Louis demands as he ever was, and that the contest in this State being between the Democrats and the Republicans he knows that it is better for the people that the Democrats should remain in control of the State Government. In other words Major Malone can see clearly that the Third party movement in North Carolina cannot advance the reforms demanded by the People's party, because they are purely and exclusively National, and that the only possible effect it can have in North Carolina will be to put again into power the party which brought so much evil upon the State and the people by its extravagance and corruption and incompetency when it controlled the administration of State affairs.

The people of Halifax county know well what Republicanism was during the years following reconstruction and they should know that the party has not changed one iota. The cause of reform is not advanced one step by injecting it into State politics, and in grasping at the shadow they may lose the substance. Consider!

The letter on the eighth page of this issue from W. H. Marslander, of Washington county, is worth reading. Mr. Marslander was a member of the Third party but has come back to the Democracy and in this letter gives his reasons for doing so. It is a plain statement of facts, which ought to convince everybody, it seems to us.

DR. EXUM says the Republicans promised him to nominate no State ticket, and when they did so they were guilty of treachery. They broke this promise because they thought they had too good an opportunity to elect a Republican. They want to use Dr. Exum to draw away enough votes from Elias Carr to elect Furches.
