THERE has been no complaint against the Democratic management of the State affairs. Why change and put in power a party that has raised no real issue?

If the Third party county ticket be elected what will it do for the people of the county? Draw the salaries and take the fees from the people allowed by law.

THE registration books close Saturday at twelve o'clock, after which time no one can register unless he become of age after that date. Be sure your name is properly registered and then be sure to vote the Democratic ticket.

WHEN a Republican votes for the Third party candidates in Halifax county or in the State he is voting for men who profess to be as good Democrats as they have ever been. Where, then, is the advantage for the Republican?

IN State and National matters the fight is between Democracy and Republicanism. The records of the two parties are before you. There can be no hesitation in your choice, if you know what good government is and want the genuine article.

THERE is said to be a secret colored organization in Ohio eight thousand strong and growing every day, whose purpose it is to defeat the Republican party. The press seems to be panic stricken at the news, and the Philadelphia Press says there is likely to be worse behind.

THE issue in Halifax county is between the Democrats and the Third party. You know the record of the Democratic party. What does the Third party promise in case of success? Nothing. The burden of their campaign has been denunciation of the Democrats, but they do not and cannot offer any improvement in the State government.

WHEN a political party is organized in order to get the support of the people it should offer some measure of government which will be beneficial to the people. What measure of State and county policy does the People's party offer? None in the world. The candidates, if elected, would get the fees and salaries and the people would have to pay them. That is all.

THE Third party believes in cutting down the rate of taxation. If they should control the Legislature and do so what would become of the institutions for both white and colored people—the schools, the asylums for the insane and the deaf and dumb, the Agricultural and Mechanical colleges which the Democrats have established for both races alike? That is a question that concerns every voter.

MRS. BENJAMIN HARRISON died Tuesday morning at 1:45 o'clock in the White House, aged sixty years, of consumption, brought on by an attack of grip she suffered from in the winter of 1890-91.

Mrs. Harrison was a model wife and mother, and indeed in every way a most estimable woman. Her death, especially at this time, will cause everybody to pause in the heat of the political campaign to offer silent sympathy for the man upon whom this great grief has fallen, for in the house desolated by sorrow not even the bitterest partisan would wish to carry his political hostility. Death touches a chord to which humanity in every phase and under every circumstance will respond, and Mr. Harrison has the hearty sympathy of the people, be they Democrats or Republicans.

Not by any means the least enjoyable features of the fair will be the hop and German at the Atlantic Coast Hotel. The music will be by the celebrated Richmond band.

The mother of Rev. Robert Fulton Cray, of Poughkeepsie, N. Y., is the only surviving child of Robert Fulton, the inventor of the steamboat.

SAVE THE LEGISLATURE.

THE tax payers of North Carolina cannot better serve their interests, which means the interest of their State, than by earnestly interesting themselves in the election of a Democratic legislature this year.

The Republicans are making a special effort in every county to defeat the Democratic candidates, and they will form any combination that promises such defeat. It will be too late, after losing the legislature, to regret that a greater effort was not made to secure it.

Those who have not time to participate in the campaign can materially aid in furthering the Democratic cause by substantially recognizing the fact that it requires means to place within the reach of voters the literature that will truthfully inform them of the political situation.

If the republicans should elect a majority representing their views, or under obligations to them, there is not a tax payer in the whole State who will not be made to feel very soon, after the next legislative assembly that his burden of taxes has been increased. The seal of our State will again be placed upon bonds to be sold in Wall street at ruinous rates of discount, and a lost credit and, then, bankruptcy will follow us in 1893-90. The credit of North Carolina stands as the credit of any State in the Union, which is due to the rule of the Democratic party, for no one can doubt that Democratic policy has governed the State since 1870, and that it succeeded the ascendancy of Republican policy, which had destroyed the credit of the State.

Can any good citizen, therefore, remain indifferent to the efforts of the republican party to again direct the policy and administer the affairs of North Carolina? The record of this party and its aims prove its corruption and warn against it.

Besides, are our people prepared to have the social fabric shaken by repealing and enacting statutes that it retire efficient and capable men from the race of preferment and open it only to the incompetent and corrupt?

If the system of internal government, specially the system of county government, now obtaining in the State is repealed, and it is the declared policy of the republican party to repeal it, it is not easy to conjecture the class of men who will soon become county commissioners and justices of the peace? Such as filled these positions in 1868-70 will be recalled, and it will require another twenty-five years to free the State from debt, and vindicate her financial honor, after having been plundered by a new generation of thieving scallawags and carpet baggers.

Let Democrats be on guard and save the Legislature.—State Chronicle.

CATARH IN THE HEAD.—Is undoubtedly a disease of the blood, and as such only a reliable blood-purifier can effect a perfect cure. Hood's Sarsaparilla is the best blood-purifier, and it has cured many very severe cases of catarrh. It gives an appetite and builds up the whole system.

Hood's Pills act especially upon the liver rousing it from torpidity to its natural duties, cure constipation and assist digestion.

COLORED VOTERS.

THEY ARE FOR CLEVELAND.—EX-CONSUL-GENERAL ASTWOOD TELLS WHY HE WON'T SUPPORT HARRISON.

New York World.

Henry C. C. Astwood, an active Republican all his life, for eight years Consul General to San Domingo, and one of the best known and most prominent colored men in the country, has come to New York to stump the State for Cleveland. He is a forcible and eloquent speaker and gives many excellent reasons why he has deserted the Republican party and joined issues with the Democrats.

"I was born and educated in the West Indies," he said yesterday, "and never was a slave. I came to this country after the war and settled in Louisiana, where I taught school. In 1876 Mr. Leonard, of Lake Providence, undertook to run for Congress. We had the Force bill in vogue then.

"On the face of the returns the Democrats carried the district, but I suggested to the Republicans a plan by which Ouchita might be counted out. This was adopted and the parishes were counted for Hayes. I begged the committee then to do something for my race. They informed me that the Government had decided to withdraw the troops from the South, and advised that the colored people make friends with the whites and get along as peaceably as possible. Since then I have continued to think that the best thing the black man could possibly do was to make friends with the white folk.

"Cleveland came in and we had fewer conflicts than ever. It was the best administration for the colored race we have ever known.

"Harrison got into his head an ambition for re-election, and he began to placate the negro voters by giving them offices and making them delegates to the National Convention. I refused to have anything to do with his machine schemes, and favored the nomination of Blaine.

"I firmly believe that Cleveland will be elected, and I look upon his election as the salvation of the colored race. Looking at it from a commercial and business standpoint, I think Mr. Cleveland's views on the tariff the best for this country.

HOW DO YOU LIKE IT.

The National Republican, a Radical newspaper published in Washington, D. C., has this to say:

"With the Lodge National Election law in full force over the South and various Democratic strongholds up North, we may confidently look for a different state of political affairs than now exists. New York city will then return several more Republican Congressmen than at present, while more than twenty negro representatives from the South will render the Republican control of the future Congress absolutely safe and secure.

"Heavy taxes should be laid upon the property of the whites to develop and extend the public school systems of these States. Separate schools for the two races should be abolished, and the plan of bringing the youth of both colors into an equal relation in schools and churches given a fair trial, as one of the most potent elements to break down the detestable Bourbonism of the South. The State laws against the inter-marriage of the races should be repealed, and any discrimination against the blacks in the matter of leaving trades or obtaining employment should be a criminal offense, while the colored man's rights to hold office should be sacredly protected and recognized. A few years of this policy will solve the race problem satisfactorily."

THE CAT OUT OF THE BAG.

National Democrat, Washington, D. C.

The Philadelphia Press, edited by one of Mr. Harrison's closest friends, Mr. Emory Smith, his late Minister to Russia, has the courage to say plainly what all observant men have known all the time, viz., that it is the purpose and policy of the Republican party to enact a force bill. But the Press is frank enough to urge a reason for it beyond mere political power, and declares that to pass the Lodge election bill is to destroy the dangerous competition that Southern prosperity erects against New England cotton goods and Pennsylvania iron.

Or, in other words the real down-right Republican North seeks to overwhelm the South with another ruin, after the South has so far risen from the ashes of war to compete with the northern States in commerce and manufacture.

If a single man or woman in the South ever had any doubt about the fiendish intentions of the Radicals let the following words of the Philadelphia Press settle the doubt and determine the only way to avoid the destruction proposed for that section:

"If the Democrats had never been allowed to regain control of the State governments of the South northern capital would never have embarked in the development of Southern coal and iron; and the surest and speediest way to put a stop to this competition from men who are our political enemies as well as our commercial rivals is to carry through and enforce measures like the Lodge National election law."

Mr. Smith is not only a Republican who fires the northern heart with a reflection of burning Columbia and the general destruction of war, but he is also a business man who puts the proposed force bill in the front as a material necessity to ruthlessly destroy the progress of the South and utterly ruin it, because, forsooth, it completes with northern interests.

The most rabid secessionist never attributed to the men like Ben Butler anything so virulent and fiendish as this open declaration of the Radical organ. Mr. Smith, late Minister to Russia, has learned the ancient barbarous methods of the Czars and added something to the devilry of Boss Reed and such other malign spirits of the Republican party, from whom the destructive policy emanated.

Mr. Smith did not carry a musket, like a brave soldier, and thereby learn to respect the southern people, as all the real soldiers did. He was one of the flock of political kites that represented ill omen and hatred.

After presenting a picture of the utter wreck of the South, he gloats over it in the following terms:

"And if we can once more get them into the condition they were before 1876 we won't hear any more about cheap iron and cheap cotton goods from the South. They will have other things to think about."

Thank you, Mr. Smith! The Democrats appreciate the picture, and there are certain things that they will think about now, and among others is the resolve to bring out the unanimous vote of the party which has long been in the majority, and another is to cut from the study of monarchical customs in Russia all such Grand Old Party patriots as the editor of the Philadelphia Press.

A QUICK and ABSOLUTE CURE for the TOBACCO HABIT!

Next to the whiskey traffic, it is the most expensive and loathsome habit of the American people. The annual cost runs up into millions. The average tobacco user pays to gratify this unnatural appetite from five to ten times more than he gives to support the Church. Shame on us.

This Cure has not yet failed where the party was in earnest about quitting and followed directions. Thousands have been cured of chewing, smoking and dipping. Here are samples of certificates:

Messrs. Brazzal & Co.: GENTLEMEN—I used tobacco for nineteen years, and finding it injurious, decided to quit it. About seven months ago, with the Rose Tobacco and Snuff Cure, I quit it, and now find my health greatly improved, and that I have gained 30 pounds in weight. A. T. BAKER.

Dear Sirs—The tobacco tablet bought of you December 30, 1891, has given perfect satisfaction. It has cured two persons of the tobacco habit—myself and another. I smoked cigarettes for four years, and had been chewing fourteen years. Since the use of the tablet I have no desire whatever either for smoking or chewing. It did the work in four days. Yours truly,
