this phenomenon a heavy sea boarded the vessel, stove in her boat and damaged the decks.

A BRIGHT OUTLOOK.

The Baltimore Manufacturers' Record says: Throughout the South there is a marked revival in industrial matters and many new enterprises are being established. A number that were projected during the boom days, and which collapsed when the panic came, are being pushed to completion now, or are being reorganized preparatory to active work again. It will be some time yet, though, before some of the crippled concerns can be put on their feet, but the outlook grows steadily brighter.

Local financial interests have been strengthed, debts have been paid, and the South generally has been putting its business affairs in order during the past two years. The confidence of outside capitalists in the South as a place for large investments has been greatly increased by the manner in which that section has stood the financial strain, and northern money will in the future go into southern manufacturing enterprises very freely.

THE SOUTH THE COUNTRY.

At a hearing before the labor committee of the Massachusetts Legislature, representatives of the cotton mills at Chicopee, Fall River, Lowell and Taunton remonstrated against the reduction of hours of labor in manufacturing compa-

nit 54 per week, claiming that they cet stand the competition of mills in oStates and England.

treasurer of the Massachusetts M Lowell, and the Whittenton Taunton; said he was absolutely com from the State and that he is ath to build a mill in order to export trade. His goods, he be made cheaper in the South entical machinery. The South on the North, though he did e the South would destroy the business .- Doston Dispatch.

AROSE TO THE OCCASION.

A pretty young schoolma'am in Kinmath county, Ore., puzzled the powers of pronounciation of her class recently with the word "husband" chalked on the blackboard.

To help them out she asked : "What should I have if I should get married ?" "Babies, ma'am," shouted the class in union .- New York Sun

A MATTER OF GRAMMAR

"Can I kiss you?" he asked the Boston girl after his proposal had been accepted.

"I do not know whether you can or not," she replied critically.'

He hesitated a moment. "May I kiss you ?" he murmured. "That's different," she responded, and e gathered them in.

A GOOD OPENING.

MISS LILLIE SANDOW'S FATHER OFFERS \$5,000 FOR A HUSBAND FOR HER.

Miss Lillie Saudow, of Henderson county, Tenn., is only 16 summers and weighs 130 pounds. She has a trim, well proportioned body, a lovely face crowned with a wealth of golden hair, and a No. 19 foot. The shoes are manufactured by a Boston firm and ordered through a local business house. The girl's father is wealthy and offers to any aspirant who will marry his daughter a free will offering of \$5,000.

to what he thought of the outlook of the follows: "Too early to tell yet, my boy. Start-

ing off fairly well, but there is serious four years."

"Yes; I hope and believe so, but there

cy?"

are things of more importance than which one of the several Democrats shall hold the offices. We have all the branches of the government, the responsibility is upon us. The people have commissioned the Democratic party to make a change, and as Sim Brazeal said when his wife fell in the well, 'something's got to be done and

that darn quick."" "You think the Democracy is safe for a long lease of power?"

"That depends. That's what I am talking about. We had widespread discontent last year. We held our people in line in the South by pointing out to them that the only hope of success was in standing by the Democracy, answered their objections to the past by pointing out that we had never been for years wholly in power. That answer will not do four years from now. We will be

judged by works and not promises. The people want the tariff reduced, the money question settled, silver restored to its rightful place; the pension robbery stopped, and the government put on an economical basis, and nothing less will satisfy them,

"If the Democrats will get together, compromise differences of opinion, make mutual concessions, and go in for genuine and far reaching reform in the interest of the common people, all will be well, and our seat in the saddle is firm. If they do not-well, I do not want to be around and have to undertake the explanation of the things I told the bays in the last campaign-that's all.

That cure of Geo. W. Turner, of Galon record.

e structure, but when completed Among other things, to the question as it will cost probably at least \$1,000,000, but it will be the greatest achievement new administration, Mr. Ham replied as in its line and prove of incalculabe benefit

to navigation."-Norfolk Landmark The coast of Hatteras is one of exceeding danger, consequently the erection of work ahead of the Democracy in the next this lighthouse is a very important matter. Great difficulties lie in the way, but "Will they be equal to the emergen- there should be no delay in the matter that can be avoided.

NO VETO.

F THE SILVER BILL IS CONSTITUTIONAL MR. CLEVELAND WILL LET IT BECOME A LAW.

A Southern Senator has had a talk with the President on the silver question. This Senator is a strong advocate of silver, and he is independent enough to speak plainly at the White House.

"We are now in the majority in both ends of the capitol," he said to the President. "Suppose that majority of the representatives of the people of this counpass a silver bill, will you veto it?"

"I shall veto no bill," replied the Pres ident, "unless there are constitutional reasons for doing so."

"There can be no constitutional grounds "There can be no constitutional grounds in three, and they paid me so well I for vetoing a silver bill," the Senator wouldn't mind tackling some more." argued.

A bill against which there are no constitutional grounds, replied the President. "will become a law. I may not sign it, but it will become a law, either with or without my signature. I shall not veto that rouses every organ into healthful ac-

"The fifty-third Congress," said the Senator, "will never repeal the Sherman law, unless at the same time it enacts a substitute. It will never consent to the demonetization of silver. It will accept nothing worse for the silver than the Bland bill.

it."

After that the President and the Senator talked along the lines of compromise.

A good prophet-100 per cent.

way, N. Y., of scrofula, by Hood's Sarsa-parilla, was one of the most remarkable Bible warns us that is not a way of purifier can be "just as good?" Isn't it safer to say that no other blood death. If it were, wouldn't it be sold so?

eloped with the daughter of Mr. J. F. Houpe, of Iredell county, was arrested last week at Independence, Va. The girl was brought back home and Godfrey is in jail.

The lamest set of officials upon record is to be found in Anson county, North Carolina. The coroner has but one arm, treasurer is crippled, the register of deeds has only one leg, two commissioners are are in the same plight, and the keeper of the county home is minus an arm.

Trinity College is in receipt of a lifesize crayon portrait of Edwin W. Fuller, author of "The Sea Gift," and "The Angel in the Clouds," a gift from the Bright Jewels, of Louisburg. The work was done by a young lady of Franklin, his native county.

> "BRACE UP."-Is a tantalizing admonition to those who at this season feel all tired out, weak, without appetite and discouraged. But the way in which Hood's Sarsaparilla builds up the tired frame and gives a good appetite, is really wonderful So we say, "Take Hood's and it will brace you up.'

For a general family eathartic we confidently recommend Hood's Pills.

Miss Laker-"Isn't it too bad there are so many failures in life?" Wiswell-"Can't say that it is, I've been assignee

ROOT AND BRANCH.

the poison in your blood, however it may have come, or whatever shape it may be taking, is cleared away by Doctor Pierce's Golden Medical Discovery. It's a remedy nou, patitics and enriches the blood, and

through it cleanses and invigorates the whole system. Salt rheum, Tetter Eczema, Erysipelas, Boils, Carbuncles, Enlarged Glands, and the worst Scrotulous Sores and Swellings, are perfectly and permanently cured by it.

Unise the ordinary spring medicines or sarsaparillas, the "Discovery" works equally well at all seasons. All the year

round, and in all cases, it is guaranteed, as no other blood medicine is. If it ever fails to benefit or cure, you have your money back. You pay for only the good you get.
