VOL. XXIV.

WELDON, N. C., THURSDAY, MAY 18, 1893.

NO. 7

NEW ADVERTISEMENTS.

Is Life Worth Living?

That depends upon the Liver. If the Liver is inactive the whole system is out of order—the breath is bad, digestion poor, head dull or aching, energy and hopefulness gone, the spirit is depressed, a heavy weight exists after eating, with general despondency and the blues. The Liver is the housekeeper of the health; and a harmless, simple remedy that acts like Nature, does not constipate afterwards or require constant taking, does not interfere with business or pleasure during its use, makes Simmons Liver Regulator a medical perfection.

"I have tested it personally, and know that for Dyspepsia, Biliousness and Throbbing Headache, it is the best medicine the world ever saw."—H. H. Jones, Macon, Ga.

Take only the Genuine, which has on the wrapper the red S. S. Trade-mark and Signature of J. H. ZEILIN & CO.

TO THE LADIES OF WESTERN HALF OF HALIFAX CO.

I know Dr. J. A. McGill's ORANGE BLOSSOM to be a very great blessing to our sex. We have long needed something which we could use ourselves and which could conquer the stubborn forms of chronic inflammation and congestion which lie at the foundation of all female troubles. That Dr. McGill's treatment meets the demand of this long felt want is shown by the fact that many cases which have baffled the skill of our best physicians, are being cured by it. I have pledged myself to let my suffering sisters in the above Counties know of this simple, entirely safe, yet wonderful cure. To accomplish this I must have the help of some good Christian lady in each township. There are not less than one thousand ladies in each of the above Counties to whom this cure would be of inestimable value, many of them mothers who need strength that they may train their little ones; then there are so many young girls whose trouble is not considered serious, but nevertheless need attention, as only a little time will be required for it take the color from the cheeks and all the joy from their glad young lives as it has done in thousands of cases. Send a two-cent stamp for free Sample Box. I will also send Township's Agent's Terms to those who will assist me. MISS LIZZIE R. DAVIS, Areola, Warren Co., N. C. 4-20-ly

SALE OF LAND.

By virtue of a deed in trust executed to me by John R. Whitaker and his wife Annie R. Whitaker, on the 14th day of March 1887, and being duly recorded in the Register of Deeds office of Halifax county in book 75 B, at page 451, I will on Tuesday the 16th day of May 1893, expose to public sale to the highest bidder for cash, at the court house door in the town of Halifax, N. C., certain lots or parcels of land lying and being in Halifax county, and town of Enfield-to-wit: The old Whitaker store and lot, bounded by Wilmington and Weldon railroad, Dr. John A. Collins lot, the Methodist Protestant church lot, and Whitaker store, and lying on both sides of the street in front of the store. Also the house and lot bounded by said railroad, lot of E. T. Branch, lots or lands of James H. Parker on the east, and the double store commonly known as Spier Whitaker's; also the coach shop lot now occupied by F. J. Dennis and bounded by Whitaker and McDaniel streets, and the lots of the Methodist Protestant church and W. Dennis; also the old store lot known as the "Pulley" lot, lying just below the store on same opposite Dr. B. F. Whitaker's residence and bounded by said store, Mrs. John A. Collins, the W. & W. railroad and street or crossing. April 15th 1893. H. S. HARRISON, trustee. 4-20-td.

NOTICE.

There will be a joint meeting of the Board of Education and the Board of Commissioners on the first Monday in June for the purpose of electing a Superintendent of Public Instruction to fill the unexpired term occasioned by the death of the late W. A. Daniel. W. H. KITCHIN, Chairman Board of Education. R. W. BROWN, Chairman Board of Commissioners. May 1st, 1893.

STATE BANKS.

STATE BANKING ACT PASSED BY THE LAST LEGISLATURE.

THE NEW PROPOSITION IS TO REMOVE THE PROHIBITION FOR ALL STATE BANK ISSUE.

The New York Journal of Commerce, the highest authority on financial questions in the United States, has in its issue of March 15, 1893, the following to say editorially of the State Banking Act passed by the last North Carolina Legislature:

"It is well known that only by a very strained interpretation of the Federal Constitution can the right to prohibit the issue of notes from the State bank be upheld and the 10 per cent. tax justified. An act of Congress forbidding State banks to issue circulating notes would be negatory, the Federal government having no power in the premises. The tax in question was not laid for revenue, but designed solely to prohibit the issue of these notes. May Congress solely for the one purpose levy a prohibitory tax when the prohibition itself is not within its power? The tax ought to be repealed and that without any conditions. But some people are so apprehensive that "wildcat banking" would follow the renewed liberty that they hesitate to indorse the demand for this repeal. We noticed in our former article the project to do away with the tax on condition that the notes shall be issued under a statute precisely similar to the Federal Banking act.

"The new proposition is to remove the prohibition for all State bank issue, the redemption of which shall be guaranteed by the State in which the bank is located. When this was sent to us last week by a member of Congress for our opinion we replied that we knew of no State likely to furnish such a guaranty. At the very moment, but without our knowledge, an act had been passed by the State of North Carolina embodying this peculiar feature. We have a copy on our desk covering forty printed pages and too long for description here. But it proposes a banking system which furnishes the most ample security for the note holder. The State is to have the right to subscribe for one third of the capital stock of each institution, and to name one third of the directors. The 4 per cent. bonds of the State to pay the subscription are to be held as security. The State is to guarantee every note and to see its redemption. This act has been passed by the General Assembly and is now the law of the State. It makes provision for a vote of the people to change the Constitution, by which the statute shall become legally effective. The system, if thus approved, is to be inaugurated within ninety days after the repeal by Congress of the tax on State bank issues. It is sufficient to say that no loss could come to a note holder thus protected. It is an illustration of a statement we made some years ago that if State banks were permitted to issue the flexible currency so much needed in this country, the States would see to it, by appropriate legislation, that no loss fell upon the holders of the desired circulation.

FROM HEAD TO FOOT

you feel the good that's done by Dr. Pierce's Golden Medical Discovery. It purifies the blood. And through the blood, it cleanses, repairs, and invigorates the whole system. In recovering from "La Grippe" or in convalescence from pneumonia, fevers, or other wasting diseases, nothing can equal it as an appetizing, restorative tonic to build up needed flesh and strength. It rouses every organ into natural action, promotes all the bodily functions, and restores health and vigor. For every disease that comes from a torpid liver or impure blood, dyspepsia, indigestion, biliousness, and the most stubborn Skin, Scalp, or Scrofulous affections, the "Discovery" is the only remedy so certain that it can be guaranteed. If it doesn't benefit or cure, in every case, you have your money back. For a perfect and permanent cure for Catarrh, take Dr. Sage's Catarrh Remedy. Its proprietors offer \$500 reward for an incurable case of catarrh.

Many Persons are broken down from overwork or neglected cases. Brown's Iron Bitters rebuilds the system, aids digestion, removes excess of bile, and cures malaria. Get the genuine.

SAILOR'S BURIAL.

A GRAPHIC ACCOUNT OF A BURIAL AT SEA.

WHEN MARITIME JACK DIES HE IS BURIED WITHOUT UNDUE CEREMONY. A BRIEF PRAYER, A SHOTTED HAMMOH THE LEE RAIL, AND ALL IS OVER.

On board a ship of war a sailor's funeral is pathetic in its dignified simplicity. No muster of the ship's company is, naturally, so sad as this, and you can see on the faces of all when the subdued shrilling of the bo's'n's whistle is followed by the long drawn out and modulated call of "All hands to bury the dead!" The men come aft quickly and take their allotted stations. To leeward, if it be at sea, or upon the port side of the quarter deck if in port, the seamen are ranged in the front rank; behind them are the ordinary seamen, and in the rear of both the apprentices and the landsmen. In this the gangway forward of the mainmast on such ships as still have sail power, senior petty officers stand at attention. Around the coffin, folded in the jack or national ensign, are grouped the pallbearers, selected usually from the dead man's mess or gun division, and close at hand resting on arms, the marine guard is paraded. Nearest the coffin are the chaplain and the captain, and then in order of their rank stretch aft the other officers of the ship.

The ensign at the peak or staff flutters tremulously at half mast, and from overhead the yard and stay tackles swing lazily, ready to lift the coffin outboard. When the weather permits the way of the ship is stopped, and it may be, little flickers of idling steam curl upward and leeward like incense, and the wind in the backed and fretting topsails murmurs a dirge. The order to "uncover" is passed gently, and while the beautiful words of the burial service are being read the hush of the living is accentuated by the low accompaniments of sea sounds—by the rumble of eager waters eddying sternward, and by the surging of the breeze in the hollows of the canvass and through the rigging and gear. When the closing prayer is said, the last blessing given, the tackles are manned, the coffin is stripped of its flags and slung in straps and slowly, reverently, is hoisted above the rail and clear of the ship, until it is poised above the billows. The marines load, aim, fire, in all three volleys, that awaken rattling noises echoes in the bid. den space of the ship; the bugle sounds "taps" tenderly and sweetly, with a newer meaning of sleep and rest; the coffin swings further out, and is lowered gently until the foam and spindrift moisten it; the tackles are detached sudden jerk, and in an instant the weighted box shoots downward, bedded in foam and bubbles, and all is over until the sea gives up the dead.

In a little while the cheery whistle thrill out a call for duty, the half masted ensign climbs to the dasher block, the ship brought to her course and dazedly the men take up the wearying routine of the lives so sadly broken. An unusual quiet rests upon the vessel and around the mess table; but in the groups gathered to smoke during the supper hour and after the hammocks are piped down, the virtues—those heroic and honest sea virtues—of the dead sailor are recalled with a tenderness born of a comradeship closer than any other men except soldiers may know.

SHUT THE DOOR.—You hear it constantly. People feel the draughts but they never think of the over drafts upon nature which impair the digestive organs and makes the use of Simmons Liver Regulator necessary to effectually move the liver to action, and aid the digestive and assimilative powers of the body. The Regulator is the medicine for all disorders of the stomach. Try it and be convinced.

FARM SCHOOL.

A NOBLE INSTITUTION FOR BUNCOMBE COUNTY.

THE SCHOOL IS TO BE BUILT ON THE SWANNANOVA, NINE MILES EAST OF ASHEVILLE.

Buncombe county is to have another noble institution for the education of the youth of the country. It is not to be located in Asheville, but at a point as near here as the desired property could be procured.

The institution will be known as the Boys' Farm school, and will be erected and conducted under the auspices of the Board of Home Missions of the Presbyterian church in America.

The land which the school will be built was the property of Messrs. Davidson and Sherrill, and situated on the Swannanoa river, nine miles east of Asheville, three miles from Cooper's, and 1 1/2 miles from the Western North Carolina railroad. There are nearly 400 acres in the tract, of which 200 acres are bottom land, and the consideration was \$14,000.

Samuel Jeffrey, who has lately had charge of the farm department of Cornell university, is now on the ground and will superintend the school and farm. The erection of the school building proper, which will be somewhat after the style of the Asheville Normal and Collegiate institute, will be begun as soon as the arrangements necessary can be completed.

The education offered by the school will be a thorough English one, together with practical training in the agricultural and mechanical pursuits, such as carpentry, blacksmithing, stonecutting, etc. In short, the school will offer to young men and boys an education that will thoroughly fit them to make their way in the world, an honor to themselves and their country.

The school will be built to accommodate about 250 boys, and will be ready for opening by the first of October, this year.

The originator of this splendid idea is Dr. L. M. Pease, of Asheville, from whose labors have resulted the Home Industrial school and the Normal and Collegiate institute in Asheville. The negotiations leading up to the purchase of property for the Boys' Farm school were conducted by Dr. Pease.

WAITED UNTIL DARK.

AN INSTANCE OF THE UNION OF PRIDE AND POVERTY.

Pride and poverty often go hand in hand. A lady advertised for a woman to take her washing, and was called upon by a young girl in a veil and kid gloves, who said that her mother would like to get family washing, as she needed the money.

"Will you take it with you?" asked the lady.

"Oh, no, ma'am; not in the daytime," said the girl, looking quite hurt, "I will come for it after dark."

But she did not come and the lady, after waiting several days, sent her washing to a laundry. In about two weeks the girl called in the evening.

"I've come for the wash," she said.

"But you are too late; I have made other arrangements," said the lady; "besides, you did not keep your word and come that evening, as you said you would."

"I know it, ma'am," answered the girl, "but when I promised I forgot that it was moonlight. You see I couldn't carry home a wash when it was as light as day." And she had actually waited until there was no moon before she called again. Her pretensions had lost her another good customer.—Detroit Free Press.

BEWARE.

AN INTERESTING COMPARISON.

THE BOYS WHO SMOKE AND THOSE WHO DO NOT.

All observant teachers are aware of the effect which the use of tobacco has upon the school boys. It is declared by men of long experience in teaching that smoking makes boys sluggish and that the capacity for study is greatly impaired. Recently investigations have been made to ascertain the effect of tobacco upon the physical development. The board of health of the State of New Jersey has issued circulars to teachers of the public schools of the State containing interrogatories upon this subject. Dr. Laban Dennis, of Newark, who has paid much attention to the subject, has prepared an article giving the results of some of his investigations, which appears in the report of the board of health for 1892.

It seems that measurements made of 187 students at Yale College showed that the non-users of tobacco gained over 100 users during the college year in weight 22 per cent. in height 29 per cent., in girth of chest 19 per cent., in lung capacity 66 per cent. Measurements made at Amherst College showed even greater difference in favor of those who do not use tobacco.

There is really but little temptation for boys to smoke. In order to acquire the habit they undergo agonies of nausea, and the chief incentive to the habit is, perhaps, the belief that it increases their importance. It is useless to argue with them or to advise them that they lower themselves in public estimation by smoking, rather than raising themselves. But if it is possible to convince them that their standing in baseball or foot ball will be impaired by the habit, the more ambitious boys will give up tobacco. Of this the athletic associations bear abundant testimony. Members of them have reported that the use of tobacco is harmful to young men in training for a contest which requires strength and endurance.—Baltimore Sun.

HOW TO GET YOUR MAIL.

INFORMATION FOR THOSE WHO WILL ATTEND THE WORLD'S FAIR.

Postmaster General W. S. Biaseil has issued the following, in reference to the mail service at the World's Fair:

For the benefit of persons who intend to visit the forthcoming World's Columbian Exposition at Chicago, notice is hereby given to the public, through postmasters, that there is now in operation, in the Government Building on the grounds of the Exposition, a branch of the Chicago postoffice, known as the World's Fair Station, and which will continue during the entire period of the great fair.

This station postoffice will make regular collections and deliveries, through its own force of letter carriers, from and to all parts of the Exposition grounds, and will transact money or and registry business, as well as all other business pertaining to a first class postoffice.

Visitors to the Exposition, not knowing before leaving home their precise location in Chicago, may find it convenient to have their letters and other mail matter addressed to the World's Fair Station, or to have money orders payable there, rather than at the main office at Chicago. Afterwards, if desirable, they can have their addresses changed, either by notice to their correspondents, or by application to the postmaster at Chicago, or the superintendent of the World's Fair Station.

Mail matter intended for delivery on Exposition grounds should be plainly addressed "World's Fair Station, Chicago, Illinois," giving, if possible, also, the precise locality in the grounds to which the matter is to be delivered, so that carrier delivery can be easily effected.

IF YOU are really good for nothing, it is a good idea to try BROWN'S IRON BITTERS. It will cure you, cleanse your liver, and give you a good appetite.

NEW ADVERTISEMENTS.

Rose Tobacco Cure!

WHAT IT IS DOING.

I received Tablet about six days ago and commenced using according to directions, and can say now that I am cured of the habit of chewing and smoking, contracted about thirty-seven years ago. What are your terms to agents? I want two counties. Cleveland, Miss. E. C. Hopkins.

I have used the Rose Tobacco Cure with happy results. Please give me all the particulars in regard to agency, for one or more counties. Yours respectfully, Valdosta, Ga. W. D. Braswell.

I sent you a month ago for a Tablet of Rose Tobacco Cure. It broke me of the habit after using tobacco for fifty-seven or fifty-eight years. Yours, Travelers Rest, Ala. J. C. Powell.

I purchased a Tablet of Rose Cure some two weeks since and it has cured me. Please let me know if you will let an agent have as much territory as a State. Tibbestation, Miss. J. H. Ryland.

Rev. Mr. Onland, of this city, has used your Rose Tobacco Cure and he says it has cured him of the habit of tobacco using. I have been chewing and smoking for 45 years and yet am determined to quit. Please find enclosed \$1.00. Send me a Tablet. Jacksonville, Fla. Yours, W. E. Hatter.

Sometime ago I ordered from you a box of the Snuff Cure for myself. It gave perfect satisfaction and completely cured me of the Snuff habit in a few days. I would like to secure the agency for this section. Summit, Ala. Mrs. Carry Haden.

AN OLD CASE.—All that want to quit the use of tobacco, use the Rose Tobacco Cure. I am a free man after using it 55 years. Give terms to agents. Yours, Valley Head, Ala. R. S. Price.

I write this to say to you that the Rose Tobacco Cure is a wonderful stuff. I have used tobacco in all shape for 45 years, and after using one Tablet all desire is gone. I used two Tablets to be sure of a cure, but one did the work. Dr. R. M. Tucker.
