A SMALL STREAK APPEARS IN THE EAST WHICH MAY BRING US FROM DARKNESS INTO LIGHT.

There are some rumors afloat which may mean something or they may turn to ashes when touched by the finger of hope. However, we give them for what they are worth.

It is said that a rich firm contemplates leasing a site for an extensive agricultural works at this place for the manufacture of all kinds of farming implements. They will rent water power from the Roanoke Navigation and Water Power Company, if satisfactory terms can be made, and provided they decide positively to locate at this place.

And why not? Is there a better place for such an enterprise to be found within the borders of the South? We think not. Weldon offers every advantage for manufacturing of every description. Here we have a climate mild and beautiful, the opinion of those unacquainted with the place to the contrary notwithstanding, and our railroad facilities are second to none.

Labor is cheap and abundant, the soil is adapted to the cultivation of crops of every description and there is a growing demand for improved farming implements. The lands are well timbered, and no section of country on the earth can offer such a marvelous combination of advantages with so few disadvantages.

Where nature has done so much, it only remains for the people to do the rest in order to bring Weldon up to her high destiny. Now in order to attain the best results the real estate owners here should not take it for granted that manufacturers will come anyway, and place exorbitant prices upon their lands.

Offer inducements and sell factory sites at reasonable prices. Other towns in the State who are opening wide their gates and giving to all a welcome. Let us do the same. We have waited long and patiently for the utilization of our resources and now that a small ray of hope appears, don't jump at conclusions and say we have held out false hopes, and stated rumors for facts.

We only wish to remind you that capitalists are looking this way and it remains for you to help bring them here. Time and again we have pointed out the great natural resources of this section, and we have also shown to the world that the death rate here is much lower than in many of the so called health resorts. It remains for the citizens of this town to put forth a little effort, then we will see the wheels of commerce begin to turn and prosperity will perch upon our walls.

DR. W. R. WOOD.

HE TENDERS HIS RESIGNATION AS SUPERINTENDENT OF THE INSANE ASYLUM.

Dr. W. R. Wood has tendered his resignation as Superintendent of the North Carolina Insane Asylum, at Raleigh, to take effect June 1st next.

Personal considerations pertaining exclusively to his health prompted the doctor to resign a position which he has filled with so much credit to himself and to his county and State.

Dr. Wood will return to his home at Scotland Neck, and we gladly welcome him back to his native county.

In accepting his resignation the Board of Directors adopted the following preamble and resolutions:

"The personal considerations which have caused the resignation of Dr. Wm. R. Wood, superintendent, present a barrier to the retention of his services overriding the inclinations of this Board of Directors.

In receiving his announcement our regrets are mingled with the pleasant recollection that under his skillful management the condition of the unfortunate committed to his charge has been vastly improved, the percentage of cures largely increased, the finances of the institution honestly expended, the houses and grounds vastly improved and the Board of Directors have labored with him harmoniously, inspired by his enthusiasm and charmed by his constant courtesy; therefore

Resolved, That we regret the circumstances which deprive the State and the North Carolina Insane Asylum of his valued services and express a desire that the "lines may fall to him in pleasant places," commending him to frequent recurrences upon the past five years spent in the service of humanity as well spent and for which partial reward may be found in retrospection.

Resolved, That this expression be sent upon the minutes of this Board." Dr. Geo. L. Kirby, of Goldsboro, was elected Superintendent to fill the unexpired term of Dr. Wood and will assume the duties of his office on or about June 1st, 1894.

TWO CONFIDENCE MEN ADMINISTER DRUGS TO MR. SEPH P. HART IN NEW YORK AND RELIEVE HIM OF HIS VALUABLE JEWELRY.

The following from the New York Herald of the 6th explains itself. Mr. Hart is a brother of our townsman, Mr. M. F. Hart, and is one of the most popular travelling salesman in this country. His many friends everywhere will sympathize with him in his loss.

"Seth P. Hart, a travelling salesman in the employ of E. H. Louchheim and Haas, wholesale clothiers, is popular among the downtown drummers, and is considered as 'one of the boys.' It has just leaked out that he was 'buncoed,' that, in fact, he was given a 'knocker out' drink and relieved of money and jewelry to the value of \$1,500 by two plausible strangers, who have since disappeared.

That Seth, who is supposed to be 'up to all the tricks of the trade,' familiar with all the 'dodges' of 'bunco' men and 'sharps,' should have fallen a victim astonished his friends, but it was true, nevertheless. He told his story in the lobby of a Broadway hotel yesterday. It was noised abroad, and throughout the day many salesmen from various Broadway stores called on him and made him repeat the tale until he felt that life was a burden.

They 'guyed' him, but nothing he said could make him feel any worse than he did over the loss of so much personal property, and in such a manner. DROUGHT HIM, HE SAYS. This was how he says it happened: He strolled into the Broadway Central Hotel Saturday evening at seven o'clock. He wore two diamond solitaire rings, a diamond scarf pin and a handsome gold watch and chain. He carried but a small amount of money with him, about \$30, having left his 'bank roll' at the Colonnade Hotel, where he lives.

He was approached by two well dressed middle aged strangers. One of them seized his hand and exclaimed— "Why, hello, Seth, old man, how's business these days?" Mr. Hart did not recognize either of them, but supposing them to be customers he had met in his travels, did not like to appear forgetful, so he remarked: "Oh, business is so-so; are you doing anything in your line?"

The plausible stranger was, of course, and so the party adjourned to the hotel bar. They continued to chat freely on various topics, Mr. Hart watching, the while, where he had met them before. The party then went into the barroom of the New York Hotel next door. There the plausible strangers ordered another round of drinks.

After that Mr. Hart's mind was a blank for several hours. He heard strains of music and strange voices and was dimly conscious of wandering aimlessly about in unknown localities. The night clerk and porter of the Colonnade Hotel discovered him at ten o'clock that night sleeping peacefully in the lobby of the Lafayette place entrance to the hotel. They took him to his room and, after much difficulty, succeeded in restoring him to consciousness.

"Great Scott, buncoed!" remarked Mr. Hart, with his returning consciousness. His watch, rings and scarf pin, valued at \$1,500, were missing. His money was also gone.

He reported his loss to Inspector McLaughlin at Police Headquarters yesterday. "It was a pretty tough deal," he said when I saw him yesterday. He described the affair, as told above, and exhibited a massive gold watch chain, at the end of which dangled a bunch of keys.

"What puzzles me," he said, "is that the thief did not take my watch chain. It's worth \$50. They relieved me of everything else, though."

Mr. Hart has given an accurate description of the man who robbed him to the police. They were both, he said, very well dressed, suave of manner and plausible in their speech.

Let it run, and your cough may end in something serious. It's pretty sure to, if your blood is poor. That is just the time and condition that invites Consumption. The seeds are sown and it has fastened its hand upon you, before you know that it is near.

It won't do to trifle and delay, when the remedy is at hand. Every disorder that can be reached through the blood yields to Dr. Pierce's Golden Medical Discovery. For Sore Coughs, Bronchial, Throat and Lung Diseases, Asthma, Scrofula in every form, and even the Scrofulous affection of the lungs that is called Consumption, in all its earlier stages, it is a positive and complete cure.

It is the only blood-cleaner, and flesh-builder so effective that it can be guaranteed. If it doesn't benefit or cure, in every case you have your money back. Perfection is attained in Dr. Sage's Catarrh Remedy. It cures the worst cases. Only 50 cents; by druggists.

He—I want to marry a woman who I know knows more than I do. She—Well, if she is wise she will never let you know it.

The child's prattle is hushed, the happy haunts of baby's toddling feet are deserted, the funeral bell tolls farewell dirge, home is desolate. Had the young mother not been indifferent to the warning of that little cough, when she rocked the baby to sleep; but given it one or two drops of Dr. Bull's Cough Syrup, the relentless crop would not have appeared.
