birth, or who suf-fers from the ef-fersts of disorders, derangements and displace-ments of the wo-manly organs, will find relief nament cove in Dr. Pierce's control of the believes that providence is with the democratic party this year, and the basis of his belief is his knowledge that many be people are praying that the country be relieved from the ruin and disaster wrought by the single gold standard. And, really, it seems as if there is more in the idea than a merely superficial observer would be willing to acknowledge. Pseudo science and the shallow philoso-

> phy that leads to skepticism have had a great vogue of late years; but there remains (ard it always will remain) in the hearts and minds of the common people a heart and wholesome belief in prayer and in the active ministrations of providence.

Thus far, almost every development in the campaign gives reason for the belief that some superhuman power is at work to lead the people out of the wildercoss. The Chicago convention was the outcome of perhaps the most extraordinary move ment that has ever been known in the history of our politics. It was the result of a popular upbeaval-call it a human tidal wave, or what you will-that was is irresistible in its forces as it was inexpected in its development. Four months ago the outlook seemed

to be particularly gloomy, so far as the democratic party was concerned. A prediction of democratic success would have aroused suspicions as to its author's sanity. The party leaders were hopeless; the rank and file of the party were in despair. In this state the belief was

general that when the party convention met it would be controlled by the agents of the money power, that it would declare for gold, and that the party would go to

So certain were the efficial cuckors that the convention would be controlled by the east, that the purpose of the free soinage democrats to make the money question the issue in selecting delegates gold?"
