**NEXT NOVEMBER.**

(By World, August 20th.)

The size of the Democratic victory that will be announced on the morning of November 9th next will be staggering. It will include an overwhelming majority in the House of Representatives and a gain of many United States Senators. Ohio, the President's own State, will be lost to the Republicans. New York, the State of the ex-president, will be sweepingly Democratic. Majorities will be so large that people will tire of comparing them.

Not through Democratic virtues and abilities but in spite of Democratic blunders and weaknesses are those things to come about, not because there are more Democrats than Republicans but because there are more American progressives than standpatners; not as a rebuke to this man or that man in particular but as a condemnation of many men; not as a rejection of one policy but as a repudiation of many policies; not as an evidence of momentary indignation but as voicing the demands of a great and free people for light, for truth, for justice, for economy, for peace!

What are these bitter Republican quarrels but attempts in advance to escape the judgment which all know is at hand? There is a mad rush for safety. Responsible men are posing as irresponsibles. Old offenders masquerade as innocents. Sacrifices are offered up in the hope that the popular wrath may be appeased. There is talk even of a third term in the White House for the vociferous and lawless person under whom Cannon and Aldrich and Payne and Sherman and Dalzell got their strangle grip on party and country.

In spite of all this there will be no mistake about that which is to take place in November. It is to be more a Republican defeat than a Democratic victory; more a popular uprising against plutocracy and privilege than a party revival; more a matured verdict on Rooseveltism than upon Republicanism; more a rebuke of Taft as proxy than of Taft as President; more an expression of hope in Democracy than of faith in Democracy.

**"BURY THE HATCHET."**

Our neighbor, the Enfield Progress, supported the anti-ring ticket and worked for its success. Having been defeated by an overwhelming majority it gracefully submits to the will of this majority and comes out for the regular Democratic ticket.

Here is the way it preaches the Democratic faith:

"We who have supported the anti-ring side of the question and fought for what we thought to be right have been overwhelmingly defeated, we believe fairly and squarely. Now let us bury the hatchet and make friends as that is the only reasonable course to pursue. There is absolutely nothing to be gained by this continued kicking. The stamp of approval has been put upon the present administration of the county's affairs by over 75 per cent of the voters of Halifax county, and we should abide by the result in good faith. This friction has caused many things to be done and said that we all are sorry for and has done harm rather than good in some ways. We have always been open for conviction by a reasonable argument and we think the result of the primary last Friday is sufficient proof that a great majority of the voters are satisfied, and that argument enough for us. We have supported the anti-ring movement in the county because we thought it was right and that we of that faith had been mistreated. Now that we have had a fair show we are perfectly willing to lay down arms and join forces for the good of the Democratic party in Halifax county ever hereafter. So let us have harmony from now on and lay aside all unfriendly feeling as the Democratic party can ill afford it. Let every man who supported the anti-ring ticket at the primary go to the polls in the general election and cast his vote for the nominees, whether any one else goes or not, thereby showing that we are willing at all times to abide by majority rule. We repeat, let us bury the hatchet and make friends, and harmony will be the natural result."

**"THE COUNTRY IS SERENE"**

We have our little troubles and we know not what they mean. But the big Sun says, "Good morning!" and the country is serene. The wind's a lively whistler—the rivers sing to sea. An I guess we're 'bout as happy as we're wantin' for to be!

Joy is at the highway. Don't you hear him sing. Bearing to the winter all the blossoms of the spring. Evermore he's tellin' of the happy days we'll see. "Oh, I guess you're just as happy as you're wantin' for to be."

So, in spite of all our troubles, Joy's lightin' up the scene. There's a springtime in the feelin' that the country's all serene. The ripened fruit is fallin' in abundance from the tree. Oh, I guess we're 'bout as happy as we're wantin' for to be. —F. L. Stanton
