IN THE CITY OF DREAMS,

FRANK L. STANTON.

When the Happy Day is coming there are signs on sea and land; Then the world forgets the shadows-light is born at Love's command Then it is you reach the country of the pleasant vales and streams-It is composed of people who are Hear Love's sweetest benediction in the City of your Dreams.

> When the Happy Day is coming you may see the light that lies On the higher fields of Eden, through the windows of the skies; Then it is earth seems like heaven in the far off glory-gleams, Then you read Life's golden story in the City of your Dreams.

segregated superiorities, but spare Hasten, Day of days the brightest, over land and storm-tossed sea; For the world is weary waiting for the joy that is to be; From the gloom we pass to glory-brighter still the vision beams; May we read Life's sweetest story in the City of our Dreams.

A SMILE.

A smile, it's small if it's used at all; Most easily done, and at your call. A smile's worth while, if you only knew, And isn't it funny what a smile will do?

The missfit lost in the crowdy throng, Just give him a smile, help him along; It's a peace, it's a help, if you only knew, And isn't it funny what a smile will do?

When a friend's in trouble, down on luck, Just give him a smile, cheer his pluck; A smile's the ticket, if you only knew, And isn't it funny what a smile will do?

Many a life's been changed with just this; A small flirtation with a pretty little miss; A smile-it's answer, if you only knew, And isn't it funny what a smile will do?

It'il pass, never fear, when some one's sad, Working wonders and very easily had; Just try, it cost nothing, if you only knew. And isn't it funny what a smile will do?

A smile, it's small if it's used at all, Most easily done, and at your call; A smile's worth while, if you only knew, And isn't it funny what a smile will do?

PAYROLL OF **CIVILIZATION MET**

LIST OF EMPLOYES.

A CALL UPON THE LAW MAKERS TO PREVENT USELESS TAX UPON AGRICULTURE.

> By Peter Radford Lecturer National Farmers' Union

The farmer is the paymaster of industry and as such he must meet the nation's payroll. When industry which the farmer is compelled to honor without protest. This check drawn upon agriculture may travel to and fro over the highways of commerce; may build cities; girdle the globe with bands of steel; may search hidden treasures in the earth or traverse the skies, but in the end it will rest upon the soil. No dollar will remain suspended in midair; it is

as an apple that falls from a tree.

The total value of the nation's \$12,000,000,000, and it is sufe to estinot work more than thirty minutes per day for himself; the remaining Say that to some friends when the manufacturer, railroad, commercial and other servants.

> manufacturers, \$4,365,000,000; mining, miscellaneous payroll constitutes the | him in his mighty effort to feed and remainder.

It takes the corn crop, the most which is worth \$610,000,000, and the money derived from the remaining etc. After these obligations are paid,

When the farmer pays off his help he has very little left and to meet these tremendous payrolls he has been forced to mortgage homes, work women in the field and increase the hours of his labor. We are, therefore, compelled to call upon all in dustries dependent upon the farmers for subsistence to retreach in their expenditures and to cut off all unnecessary expenses. This course is absolutely necessary in order to avoid a reduction in wages, and we want, if possible, to retain the present wage appeals. But the preacher who scale paid ratiroad and all other in-

> We will devote this article to a discussion of unnecessary expenses and whether required by law or perinitied by the managements of the concerns, is wholly immaterial. We want all waste labor and extravagance, of whatever character, cut out We will mention the full crew bill as

WANTS NO "DEADHEADS" ON amount of service at the least pot

as certain to seek the earth's surface

When a farmer buys a plow he pays the man who mined the metal, the woodman who felled the tree, the manufacturer who assembled the raw material and shaped it into an article of usefulness, the railroad that transported it and the dealer who sold him the goods. He pays the wages of labor and capital employed in the transaction as well as pays for the tools, machinery, buildings, etc., used in the construction of the commodity and the same applies to all articles of use and diet of himself and those engaged in the subsidiary lines of industry.

There is no payroll in civilization that does not rest upon the back of the farmer. He must pay the bills -all of them

annual agricultural products is around mate that 95 cents on every dollar goes to meeting the expenses of subsidiary industries. The farmer does thirteen hours of the day's toil he devotes to meeting the payroll of the hired hands of agriculture, such as

A young man is not justified in taking an eye opener because he is blindly in love.

CASTORIA

flustrating the character of onnecesfory expenseur to which we refer Union Opposes "Full Crew" Bill The Texas Farmers' Union regle-

tered its apposition to this character of legislation at the last annual meetheld in Port Worth, Tex., August 1814, by resolution, which we quote,

The matter of prime importance to the farmers of this state is an ade quate and efficient marketing system; and we recognize that such a system read facilities, embracing the greatest sible cost. We further recognize that the farmers and producers in the end pay approximately 95 per cent of the expenses of operating the railreads and it is therefore to the interest of the producers that the expenses of the common carriers be as small as Is possible, consistent with good service and safety. We, therefore, call upon our law-makers, courts and juries to bear the foregoing facts in mind when dealing with the common carriers of this state, and we do especially reaffirm the declarations of the last annual convention of our State Union opposing the passage of the so-called full-crew hill before the thirty-tains legislature of Texas."

The farmers of Missourl in the last election, by an overwhelming majority, swept this law off the statute book of that state, and it should come off of all statute books where it appears and no legislature of this nation should pass such a law or elmilar legislation which requires un-

necessary expenditures.

The same rule applies to all regulatory measures which increase the expenses of industry without giving corresponding benefits to the public There is ofttimes a body of men assembled at legislatures—and they bave a right to be there—who, in their real for readering their fellowassociates a service, sometimes favor an increase in the expenses of industry without due regard for the men who bow their backs to the summer's sun to meet the payroll, but these committees, while making a record for themselves, rub the skin or the shoulders of the farmer by urging the legislature to lay another barden upon his heavy load and under the lash of "he it enacted" good irin on to pull and surge at the traces of civilhation, no matter how he may sweat, foun and gall at the task. When emislatures "cut a melon" for labor

they hand the farmer a lemon. The farmers of the United States are not forancially able to carry plead heads on their payrolls. Our own hired hands are not paid unless we have something for them to do and we are not willing to carry the hired help of dependent industries unless there is work for them. therefore insist upon the most rigid

Legislative House-Cleaning Needed. While the war is on and there is a

oll in business, we want all legislative bodies to take an inventory of the statute books and wipe off all The annual payroll of agriculture extravagant and useless laws. A good uscless expenses chopped down all banks: \$200,000,000; slong the line will add to the prosclothe the world

If any of these industries have surplus employes we can use them on the farm. We have no regular schedule of wages, but we pay good farm hands on an average of \$1.50 per day of thirteen hours when they board themselves; work usually runs about nine months of the year and the three months dead time, they can do the chores for their board. It they prefer to farm on their own account there are more than 14,000,000,000 acres of idle land on the earth's surface awaiting the magic touch of the plow. The compensation is easily obtainable from Federal Agricultural Department statistics. The total average annual sales of a farm in the continental United States amounts \$516.00; the cost of operation is \$340,00; leaving the farmer \$176 per annum to live on and educate his

There is no occasion for the legislatures making a position for surplus employes of industry. Let them com-"back to the soil" and share with us the prosperity of the farm.

When honesty is merely a good policy it is a poor virtue.

Lagy farmers are just as useless as dead ones and take up more room.

When the soul communes with the spirit of nature the back to the farm movement prevails. There are two kinds of farmers

One tries to take all the advice he

hears and the other won't take any
