TUNIUS DANIEL CHAPTER II ter U. D. C., met on Wednesday of last week with Mrs. Wilkins as Montfort Ashe Chapter will meet per announcement. The meeting was opened with a selection called "A Prayer," which voiced the sentiment of every patriot at this time. After reading a most interesting report of the last meeting held by the Chapter, Mrs. W. C. Aften read a New Year's greeting from our President, in which the years work of the U. D. C.s. was specially outlined. In this, the Daughters are urged to raise no money for monuments this year, out give liberally to aged veterans, the educational fund and the homes or Confederate men and women. Each chapter is also urged to contribute to a fund for the endow-ment of a bed in a base hospital at Nunilly, France, which is for the use of American soldiers and under the supervision of the U.S. army. These beds cost \$6,00 a army. year and it is the purpose of the N. C. Division U. D. C., to fur-nish this amount and name the bed for General "Stonewall" Jackson. This chapter voted to make a con-tribution to this fund. The chapREV. SAM W SMALL

musical program was rendered by cordial welcome seem more real Mrs. J. O. Applewhite and Mrs. and the guests felt their warming and the guests felt their warming influence. After the routine business when items of importance were discussed the regular program for the day was taken up. The subjects were "American Rail-JURORS DRAWN.—The follow- roads" and "The Conquest of the Court which convenes on Monday, son, who built the first railroad. Mrs. W. C. Allen had written a paper "Story of the American Railroad" which was read by Mrs. as that was opened for transporta-Waining for de cook wild de wellfilled plate."

WELDON MOTOR CO.

Table Cloths

Weldon, N. C.

THIS is the day of specialists or the person who can do one thing better than another fel-low. The day of the so-called "Jack of All Trades and Master of None" has passed and the master of one has taken his place. The Art of Specialization probably applies more closely to the automobile industry than to any other. Every automobile is constructed mechanically different.

We are specialist on FORD cars, having studied this car and its construction for the past two years, and have confined ourselves almost exclusively to the repairing of them. We have studied and learned all of the "short cuts" so that absolutely no time is lost, as every minute counts when a car is in trouble. We are prepared to give the quickest service.

Our stock of GENUINE FORD PARTS is a complete one, and is kept in this condition at all times. We do not handle IMITATION parts for Ford cars for obvious reasons We respectfully request that you give us a chance to make good with you.
