June 3, 1918.

A DAY OF PRAYER.—Last Thursday was very generally observed in Weldon as a day of fasting and prayer and an atmosphere of seriousness was evident even on the streets. Good congregations gathered at the different churches and many of the stores were closed all day. These are serious times and our people are awakening to the fact that to accomplish the defeat of the hated Hun and to establish a righteous peace will require all the powers of sacrifice, self-denial, and united action.

I. E. GREEN, M. D.,
County Quarantine Office.

POSTMASTERS CALLED TO CON-
FERENCE.—The postmasters of the county met in conference here on Monday last. This conference was called for two purposes; first, to provide against the complaint that has been made from nearly every part of the State that the sale of War Savings Stamps has been retarded for the reason that local postoffices have failed to carry an adequate supply of stamps; second, to devise means whereby postoffices shall be able to meet the extraordinary demands that will be made upon them for stamps in the days and months following the great War Savings drive the week of June 23-28, when it is proposed to secure in purchases and pledges the State's entire quota of War Savings Stamps.

The postmasters were addressed by Prof. A. E. Akers, superintendent of Education for Halifax county, and he made a most excellent speech.

READY TO HELP.

To Families whose men have gone to fight for us in this great war for Democracy:

You are respectfully and urgently requested to write me your home address, and also the name and address of your son or relative, who has joined the colors.

I ask this as a member of the County Civilian Relief Committee because the Red Cross feels that it would merit the censure of a nation if it allowed any family which has made the supreme sacrifice to be without the necessities of life, or any helpful services which a friendly and sympathetic organization can and could give. I want to keep in close touch with each family, so come or write me whenever you fail to receive your allowance in order that we can look into the matter. The Committee wants you to feel that it stands ready at all times to render you all information and help in our power in every way possible.

Respectfully,
STERLING M. GARY,
Member County Civilian Relief Committee.

Halifax, N. C., June 3, 1918.

Sour Stomach

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.

A man likes to hear a woman say that she has never been kissed, even if he does not believe it.

RED CROSS NEWS.

We feel that the work in the Red Cross for the month of May is well worthy of mention. \$0 bed shirts were sent to Atlanta.

Two auxiliaries were organized. The Junior Auxiliary of the Weldon Graded School was organized with a membership of 200. The proceeds of the play, "Uncle Sam's Children," were put the auxiliary on a hundred per cent basis. The play was splendid, and credit is due the teachers and pupils for making it such a success, and the spirit shows the school as a whole is alive to the co-operation needed in these trying times.

Belgian Relief work such as making refugee garments, etc., has been turned over to the Junior Red Cross of America. We predict that Weldon children will do as well as any in America when it comes to sewing and knitting.

The Colored Auxiliary has 17 members and by the last of June expect to report a great many more. We find the colored people in our town ready and anxious to do their part in all war relief work.

The 160 men who left for Camp Jackson on the 29th of May were served cake and ice cream at one o'clock A. M. by the Pythians and a committee appointed to assist them.

Halifax Branch donated \$5.00 towards paying for these refreshments, which is appreciated.

Please return all finished garments immediately.

War Fund is still open and contributions can be made to Mr. R. S. Travis at the Weldon Bank and Trust Company. Call for Red Cross pins there also.

ARRIVE IN PARIS.

Boston, Mass.—Announcement is made by the Christian Science War Relief and Camp Welfare Committee of the First Church of Christ, Scientist, in Boston, of the arrival in Paris of a party of ten relief workers, sent to France from the headquarters of the Church in Boston. These representatives will be located in various parts of France to extend the War Relief work carried on through Christian Scientists in France since the beginning of hostilities.

Funds for this purpose have been contributed by Christian Scientists throughout the world, and have been used to relieve suffering due to the war among the families in France and other countries affected.

This aid has not been confined to Christian Scientists, but has been extended to all worthy of help.

The members of the party just sent to France are all experienced in the War Relief and Camp Welfare activities carried on by Christian Scientists in the United States since its entrance into the European war, and this experience will add greatly to the efficient administration of the funds in the stricken districts.

A CORRECTION.

In a recent report of the great Red Cross Drive in Weldon the writer unfortunately used the following expressions:

"We congratulate ourselves that in this and the Liberty Loan Campaign Weldon has redeemed herself and risen above a standing reproach in the past. That she has done so is due to hard and efficient work by the citizens of both sexes of all ages, nationality or color."

These expressions have been misunderstood and were perhaps unjust, but were written with no thought of giving offense but from only a jealous interest and desire that the town should appear as an equal to the very best in every particular. That she has measured up to this in all "war work" and contributions both of men and money is too well known to admit of doubt and we are sorry that this misrepresentation should have occurred.

WELDON 33 YEARS AGO.

From The Roanoke News, June 4, 1885.

Messrs. R. J. Lewis, Jr., and Isaac P. Dickens, left Tuesday to attend a regular course at Bryant and Stratton's Business College in Baltimore.

We return thanks for most delicious juleps sent to this office on Tuesday by Capell Brothers.

The trial of Claverius for the murder of Lillian Madison is the subject of conversation everywhere. He is generally believed to be guilty.

Misses Laura Sanders and Rebecca Shields, of Scotland Neck, spent last Sunday in town. They were on their way home from the Normal School at Nashville, Tennessee.

RELIGIOUS.—Quarterly meeting was to have been held here on Saturday and Sunday, but was not held on account of sickness in the presiding elder's family. Rev. J. M. Rhodes, of Littleton, filled the pulpit of the Methodist Church on Sunday morning and night.

PUBLIC EXECUTION.—The Board of County Commissioners at the solicitation of citizens have ordered that the execution of Eaton Mills be made public, and directed that the sheriff select the place of execution. It is said that Eaton himself preferred a public exhibition, but no doubt he had some plan or hope of either rescue or escape.

ORGANIZED.—The town commissioners organized last week. Major T. L. Emry was elected mayor; W. H. Capell, secretary; J. H. Gooch, and W. D. Smith, street commissioner.

DOUBLE-HEADED DUCK.—A party living near Halifax has an exhibition in alcohol a little duck with two heads, four eyes, all well developed.

DEATH.—We regret to announce the death of Mrs. Walter D. Shields which took place at Raleigh on Sunday evening last. Her body was taken to Scotland Neck and interred Monday.

Has a Good Opinion of Chamberlain's Tablets.

"Chamberlain's Tablets are a wonder. I never sold anything that beat them," writes F. B. Pressey, Richmond, Ky. When troubled with indigestion or constipation give them a trial.

Flies are estimated to cost the United States \$157,000,000 annually. Swatting them is therefore a money saving as well as health saving proposition.

It Cost Just 20 Cents More To Produce the Big One than the Little One.

THE BIG ONE WAS FED AVALON FARMS HOG-TONE

—THE RUNT WASN'T

THEY both started life at the same time and weight. They were given the same feed under the same conditions with one exception. The little one got his regular dose of AVALON FARMS HOG-TONE—the Liquid Hog Conditioner and Fatener—and the runt didn't.

The big one is the kind that pays for itself. It grows fast, it gains weight, it is healthy, it is clean, it is a credit to the farmer. The runt is the kind that costs more to produce, it is weak, it is sickly, it is a loss to the farmer.
