RATES OF SUBSCRIPTIONS IN ADVANCE:

One Year, (by mail) postpaid, \$1.50.
Six Months, .75.

A weekly Democratic journal devoted to the material, educational, political and agricultural interests of Halifax and surrounding counties.

Advertising rates reasonable and furnished on application.

I pledge allegiance to MY FLAG and to the Republic for which it stands, one nation indivisible with Liberty and Justice for all.

THE NATION'S SUPREME TASK

The nation's one job is to make war with every ounce of material—moral, physical and financial strength. Nothing else counts now.

War, war, vigorous, aggressive, all-powerful war, is our one supreme work. To that end the fullest measure of the nation's life must be given and upon it the utmost potentialities of our resources be concentrated. Banish everything else but the things which arm us with the power to strike for life and liberty.

COMPARATIVE SUGAR PRICES

During the first year of the war, the United States consumed more than four million tons of sugar. The wholesale price of refined sugar in this country at the present time is \$7.30 per hundred pounds as compared with \$9.15 last August. The regulated wholesale price of sugar in various countries makes an interesting comparison:

Per hundred pounds.	
United Kingdom.	\$12.59
France.	\$12.28
Italy.	26.30
Canada.	8.07
United States.	7.30

An increase of one cent per pound in the price of sugar in the United States would take at least \$82,185,820 out of the pockets of American consumers in one year.

PRODUCE EVERYTHING.

This means crowd every coal mine to the utmost of its capacity, run every furnace and steel plant as though the nation's life depended on it, which it does; build every ship, big and small, steel and wood, for which men and materials can be found, and count not the cost; run every cotton mill to its limit.

Produce every bale of cotton, every bushel of grain that can be grown, raise livestock and poultry, and keep on raising them, for our allies are hungry, and soon will starve if we cannot supply them bread and meat.

Make guns, the biggest and the best; produce explosives without limit; crowd all the potentialities of chemistry to the last notch of human energy; expand railroads; build permanent highways; make money with all possible energy, and turn it into Liberty Bonds and Red Cross or kindred interests.

MAY THERE BE NONE.

President Wilson, in his statement calling upon every man, woman, and child to pledge themselves to save constantly and to buy regularly the securities of the Government, says, "May there be none unenlisted."

As the President points out, "This war is one of nations—not of armies—and all of our 100,000,000 people must be economically and industrially adjusted to war conditions if this nation is to play its full part in the conflict."

Our Nation, not our Army and Navy only, is at war. And that means that all of us not actually fighting must do our part.

That part consists in giving the Army and the Navy all the support of which we are capable. To do that each one of us must first of all be a producer to our maximum ability and a consumer of necessities only, for every bit of man power and every particle of material is necessary for the use of the Army and Navy and for the making of the things essential to our citizens.

As a maximum producer and as a consumer of necessities only, each one of us will be an accumulator of savings. And these savings can be invested in War Savings Stamps with benefit both to the Government and ourselves.

YOU DARE NOT SHIRK.

Work, work, work, and keep on working, be you day laborer, mechanic, clerk, banker, manufacturer, merchant, capitalist, lawyer, preacher or teacher, or whatever may be your occupation. All that you have, all that you prize in life, the honor of woman—your women, be it remembered—the safety of the prancing baby, the child yet unborn, the religion of Christ, civilization, your own America.

REVENUE LEGISLATION.

Only fair, equitably distributed taxation of the widest incidence and drawing chiefly from the sources which would be likely to demoralize credit by their very abundance can prevent inflation and keep our industrial system free of speculation and waste. We shall naturally turn, therefore, I suppose, to war profits and incomes and luxuries for the additional taxes.

But the war profits and incomes upon which the increased taxes will be levied will be the profits and incomes of the calendar year 1918. It would be manifestly unfair to wait until the early months of 1919 to say what they are to be. It might be difficult, I should imagine, to run the mill with water that had already gone over the wheel.

Moreover, taxes of that sort will not be paid until June of next year, and the Treasury must anticipate them.—From President Wilson's Address to Congress.

WELDON 33 YEARS AGO.

From The Roanoke News, June 25, July 2, 1885.

Miss Campbell and Mrs. Daniel's school closed Friday after a most prosperous term.

Miss Kate Mills, of Wake Forest, is spending a few days with her aunt, Mrs. P. A. Lewis.

Miss F. C. Pierce's school closed for the term several days ago. The session was quite satisfactory.

A pleasant entertainment was given at Mr. H. Allen's, Monday night, complimentary to Master Raleigh Daniel.

The baseball clubs of Weldon and Garysburg played a game at Garysburg last Friday. Weldon beat by a score of 62 to 31.

Mr. Thomas L. Purnell left last Thursday night for Durham, where he has secured a position in one of the excellent hotels of that place.

Sheriff R. J. Lewis took his family to Littleton last week to spend the summer.

Mrs. Ellen Daniel, Miss Annie Conigland, Miss Fannie C. Pierce, and Miss Maggie Conigland left Sunday afternoon on the fast train for Wilson to attend the Normal School.

MARRIED.—On May 26th at the residence of John A. Walker, near Gaston, by Justice T. J. E. Hockaday, John Shehorn to Miss Emma Collins, daughter of the late H. R. Collins.

DIED.—We regret to announce the death of Cornelia, youngest child of Hon. J. M. Mullen, which took place at Halifax Monday, of cholera infantum. She was nearly a year old. Our sympathies go out to the bereaved parents.

MARRIED.—At the residence of Mrs. Gen'l. Clark, in Littleton, on Wednesday evening the 24th inst., at 3 o'clock, Mr. Joe Nicholson and Miss Dora Clark, of this county, were united in the holy bonds of wedlock, the Rev. J. R. Nelson officiating.

QUITE TRUE.—We hear the address of our young friend and brother, W. E. Daniel, Esq., of Weldon, before the Louisburg High School, highly praised. We had our eye on this young attorney ever since he acquitted himself so handsomely at Wake Forest, and we believe it only a question of time when he will be one of the first men in the State.—Biblical Recorder.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. Sold by all druggists. If all's Family Pills for Constipation

SWIFT & COMPANY

BILLS

The Packer's Bill for Live Stock

For the first six months of our operations under the Food Administration, ending April 30, 1918, Swift & Company paid for live stock - 1,558,600,000 \$323,800,000

For the same period in 1917 1,338,300,000 \$210,400,000

Increase in Weight 16 1/2% 220,300,000

Increase in cost 54% - - - \$113,400,000

The Consumer's Bill for Meat

must necessarily have increased correspondingly, as Live Stock prices and meat prices fluctuate together.

When the producer gets high prices for his live stock, the consumer's meat bill must necessarily be larger.

Year Book of interesting and instructive facts sent on request. Address Swift & Company, Union Stock Yards, Chicago, Illinois

Swift & Company, U.S.A.

HEALTH IS WEALTH

HEALTH & HYGIENE

by the STATE BOARD OF HEALTH

Schools And Physical Education

A school superintendent, principal or teacher who complains that the curriculum is already so completely taken up by other subjects that it is difficult to find time for physical education in the public school merely confuses to a faulty training, since every modern authority on education gives due place to the importance of regular daily exercise in the development of healthy, clean-minded young men and young women. Efficiency is the word nowadays, and physical training is one of the essentials. A curriculum which takes up so much time that even the inalienable right of the child to a daily forenoon and afternoon recess of fifteen minutes is ignored, is the hot product of history, mathematics or highfalutin chatter, says of substance, is a very poorly arranged curriculum indeed. Fifteen minutes of general exercise every morning and every afternoon would go far toward overcoming the inherent physical defects of the race which were so easily in evidence in the huge proportion of candidates rejected by army examining boards in the recent days. Before real physical education can be imparted in the public schools the principals and teachers themselves must acquire some knowledge of the subject. In the past it has been considered fashionable to be delicate and sickly and among the older generation of school teachers no fear there is still a sort of contempt for physical education—the contempt of error ignorance of the subject. Modern pedagogues however, as stated, are unanimous in their insistence upon the necessity of physical training along with mental training in the public schools. The great war has probably strengthened this feeling. We hope it has, at least. It is a curious, yet a deplorable fact that most of our laws regulating the practice of medicine or the healing art are made by legislators who know nothing of this art or of the ways of hygiene or health. It is a wonder that our laws are as good as they are. Shall we permit school superintendents, principals and teachers, with little or no knowledge of physical training and less respect for it, to enact laws which may be made in

GOOD HEALTH AND MENTAL AND PHYSICAL DEVELOPMENT

GOOD HEALTH OUT WEIGHS ALL ELSE.

With Good Health All Things Are Possible. Without It Nothing Is Worth While.

TO-DAY

There are thousands of men wearing W. L. D. Shoes. And there must be a reason. Perhaps, it's just the swing of the toe—or the "feel" of the leather—or maybe just the stitching—but the difference is there and in every pair of W. L. D. Shoes is so noticeable that you'll see it the minute you put on a pair your feet.

W. L. DOUGLAS

Douglas Shoes for Men and Boys are made of the finest grades of leathers—and they are made by only the most skilled shoe makers.

You'll find them as near perfect a shoe as can be made.
