"IMPERIAL GERMANY"

WHAT IT IS

By DR. TALCOTT WILLIAMS,
Director of the Columbia University
School of Journalism.

Based on the principle, immoral in ethics, tyrannical in operation, and perilous to all liberty, that certain men are born to rule, the "Imperial German Government" has for a generation been the enemy of freedom. Its whole influence has been thrown to suppress freedom in the four Balkan states. It has provoked and their peaceful development, refused to enforce the Treaty of Berlin, which would have brought peace, and is responsible for four Balkan wars. A score of years ago it supported the absolutist Sultan of Turkey in Armenian massacres, and the officers of the "Imperial German Government" have aided and abetted these massacres now because the Armenians worked and planned for liberty when other races in Turkey were quiescent. It is the "Imperial German Government" which, by the aid of 800,000 Armenians, starved to death as Germans themselves testify.

Talcott Williams.

"Secret Enemy."
In 1908, when the revolutionary Turkish government was for freedom, Germany opposed it; when it became tyrannical Germany made this government its ally. The German government harassed France not merely because it was threatened by France, but because its success as a republic made the French people perilous to princes. The German government plotted to restore the Manchu Emperor and the Russian Czar to their thrones. Because the American people by its prosperity and power made liberty desired by all the world the German government has been its secret enemy. Thirty years ago it plotted against our treaty rights in Siam; it sent its fleet to worry and threaten Dewey at Manila in 1898; it offered to offend the Monroe Doctrine in Mexico. It has in fifteen years threatened Venezuela, Mexico, Haiti and other American states. When we were maintaining peace under great provocation, it proposed to Mexico and Japan to attack us, both refusing. It betrayed international faith in the dispatches sent through the Swedish Minister. It filled our land with spies, and unrelentingly to enmesh us with those of German birth resident in this country, slaughtered our citizens on the high seas, contrary to law, national and international, human and divine.

"Bore Much."
We waited long, we bore much, and we are now sending our sons to the war declared against the "Imperial German Government" because the record of thirty years shows that neither liberty nor democratic institutions are safe the world over while that government is powerful. We waited long, after what Belgium suffered, to fight Germany "somewhere in France" rather than in New York harbor; on the Sonoma, rather than on the Hudson. In one or the other we should have had to fight. In 1770 we sent our sons to fight for American liberty, and we won it. In 1812 we fought for the freedom of the sea, and we won that. In 1861 we sent our sons to fight for the liberty of the slave, and we won that. Today we send our sons out to fight for the liberty of humanity, and we shall win that.

GRAHAM FLOUR FROM NEW WHEAT WILL BE POPULAR
Raleigh—The grinding of new crop wheat into graham flour is being encouraged by the Food Administration. In some sections of North Carolina the new wheat is reaching some of the mills already. Most of the mills refuse to handle the new wheat except in very small quantities on account of its poor milling condition. The Food Administration is anxious that no further wheat flour shall be imported into the State and for this reason, and for the additional reason that mills find it exceedingly difficult to grind new wheat and get the extraction which they are required to get, is encouraging the grinding of wheat into graham flour. Whole wheat graham flour from the new crop wheat is sweet and wholesome, having a distinctive flavor which makes it exceedingly palatable and promises to make it very popular.

STATEMENT FROM FOOD ADMINISTRATOR HOOVER

"If you could stand in the middle of Europe and survey the land to its borders, you would discover its whole population of 400,000,000 human beings short of food. Millions of people in Poland, Finland, Serbia, Armenia and Russia are dying of starvation, and other millions are suffering from too little food. Our Allies and the neutrals are living on the barest margin that will support life and strength.

"This is the most appalling and dreadful thing that has come to humanity since the dawn of civilization. It is no outstanding creation of German militarism."

GENEROUS KID.

"Books are wanted for the soldiers, Tommy."
"I got a nice arithmetic they kin have."

THE HOUR OF PRAYER.

There's an hour that comes like a healing balm,
When evening shades are falling,
And we lay our cares at the Saviour's feet,
His gift of grace recalling.

'Tis the hour of prayer that renews our strength,
Makes Christian duty clearer,
'Tis the hour of prayer and its power that draws
Our heavenly home still nearer.

'Tis the prayer of faith that dispels our clouds
Gives joy beyond expression,
For it fills our hearts and it crowns our lives,
With all that's worth possessing.

Lovingly now, fervently bow, welcome this hour
Of holy calm so sweet;
Lovingly now, fervently bow,
Breathing the prayer of faith at Jesus feet.

THE HARP O' TREES.

If you lived where I live, where every vagrant breeze
Plays melodies harmonious, a-sweeping through the trees,
You'd get up in the morning with courage in your knees,
If you lived where I lived,
Beneath the Harp o' Trees.

The river flows, a silver band between the verdant hills
That sing their own big open song, the music of the rills;
And all the things that grow there nod a welcome to the breeze
That sings its song triumphant in the wondrous Harp o' Trees.

The Harp o' Trees, the Harp o' Trees,
O music of my soul!
The swift cadences rippling and
The broader songs that roll
In thickening waves of sheer delight,
That life a mighty voice
And bid mankind to leave his cares,
And bid mankind rejoice!

If you slept where I sleep, the murmuring of the leaves
With zephyrs whispering through them like echoes from the seas,
Would rock you off to Dreamland with its sacred harmonies,
If you slept where I sleep,
Beneath the Harp o' Trees!

If you loved as I love, the things that God hath given
To comfort us and solace us, these little bits of heaven,
You too, would sing as I must sing, such rhapsodies as these
In gratitude for respire by the singing Harp o' Trees!

GOOD IDEA.
The restaurant manager stood behind the cashier's desk, wearing his stock-in-trade smile for each customer. An old gentleman walked in.

"I notice," said he, "that you advertise to make your own pies."
"Yes, sir," answered the manager proudly, "we do."
"Would you permit me to offer a suggestion?"
"Certainly, sir. We would be so happy if you would do so."
"Well, then, let someone else make them."—Philadelphia Public Ledger.

NATION-WIDE FIGHT AGAINST GERMAN PAPERS

National Security League Starts Crusade for Their Elimination, Together With the Teaching of German.

A vigorous campaign to bring about the elimination of the teaching of German in the public schools of the country and to obtain the discontinuance of the publication of newspapers printed in German has been launched by the National Security League. To organize its effort for these ends the League has formed a Committee on Foreign Languages and Foreign Press, which will carry the fight into every nook and corner of the United States. The Committee is composed of Col. Charles E. Lydecker, member of the Board of Trustees of the College of the City of New York and Chairman of the National Security League's Board of Directors; Edward H. Clark, Treasurer of the Security League; Ernest C. Brown, well known New York editor and publisher, and Dr. Robert M. McBry, Educational Director of the National Security League under leave of absence from Princeton University, who is in head of the Department of History and Politics.

Stop Advertising.
The principal basis of the Committee's campaign against German newspapers will be the obtaining of the discontinuance of advertising in the Col. Lydecker's committee has laid the following plan of campaign before the Chairman and Secretaries of all the 211 branches of the Security League:
"There is no immediate need to have laws enacted to suppress the foreign language dailies. In towns where there is a strong patriotic sentiment a hostile minority should be persuaded by a clear and forceful expression of the views of the majority that ours must be, from this time forward, a one language nation.
"See Our Mistake."
"If a community will not support a newspaper which handles the daily papers printed in foreign tongues it can thereby force him to deal only in English language papers.
"Recommending a general willingness to be patriotic and the rapid acquiescence from many quarters to compel the use of English dailies, we urge reasonably active measures on the part of the branches of the League. Justice requires this, for the fault does not lie wholly with the alien. We have failed hitherto to prove the necessity of education which the wedding process required. We have continued and even encouraged the idea of procuring bilingual studies in racial groups in our midst. At last we see our mistake, and we must correct it as speedily as justice will allow.
"But we must not forget, and we must not allow alien enemies to forget, that this is a time of war. Quick processes of producing unity are justified by the peril of those institutions which we hold in trust for all humanity.
Newspapers:
"We therefore suggest:
(a) Meetings of citizens to express a one language sentiment.
(b) Discontinuance of all advertising in papers printed in the tongues of enemy nations.
(c) Procuring co-operation of newspapers."

WOULD INCREASE THE SUPPLY OF POULTRY
Saving of All Pullets Would Greatly Increase Egg and Meat Supply—More Money for Farmers.
Raleigh—The Food Administration is backing up and encouraging in every manner possible the efforts of the Agricultural Extension Service in promoting the poultry industry in the State. It is urging all farmers to save every pullet possible, disposing only of cockerels at this season for broilers and frying chickens.
It is pointed out that there are greater possibilities for increasing the meat supply through the raising to maturity of chickens than there is through the increased production of calves and hogs, the so-called meat animals. At present and prospective prices of poultry and eggs foresighted farmers cannot do otherwise than raise to maturity every pullet that they own maintain. The pullet which will sell today for 40 cents will produce eggs to the value of several times that sum during the winter or spring or can be sold as a matured hen during the winter for two or three times that sum.

Doing Good.
Few medicines have met with more favor or accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John F. Jantzen, Belmont, Mass., says of it: "I have used Chamberlain's Colic and Diarrhoea Remedy myself and in my family, and can recommend it as being an exceptionally fine preparation."

HIGHER STILL.
"He's a king among men."
"That's nothing. My daughter knows an American aviator who is an ace."

Chamberlain's Colic and Diarrhoea Remedy.
Now is the time to buy a bottle of this remedy so as to be prepared in case that any one of your family should have an attack of colic or diarrhoea during the summer months. It is worth a hundred times its cost when needed.
