MR. JOHN H. FENNER.

Died at the Hygea Hospital, Richmond, Va., on October the 20th, 1918. John H. Fenner, of Halifax, in the 67th year of his age.

No better man ever lived. A Christian gentleman of whom the Saviour said "Ye are the salt of the earth." Gentle, kind, modest, unassuming, genial, and sincere—the world is richer and better for his having lived in it. He has left the finest heritage a man can possibly leave—a blameless life. Interested in and assisting in every good work, he gave liberally of his means and talents to the cause of charity. He married Miss Clara Ferebee, of Camden, and into their four noble sons were born William Eaton, and John H. Jr., of Rocky Mount, Captain Edwin Ferebee, M. O. R. C., now in France, and Harry Shaw, Phoenix, Arizona. These sons cannot do better than to perpetuate the fine traits and good name of their father.

Emminently successful in business, and alive to the best interests of the community and State, he numbered his friends by his acquaintances. No happier home could be found, and God reigned supreme within its walls. His home life was ideal, and home his paradise; for no man ever had a more devoted and congenial family. The ministers, God's chosen ambassadors, always found a delightful welcome here, and the genuine hospitality of the Fenner home, was universally established.

All that devoted attention and skill could do, could not stay the hand of death, for God willed otherwise; and after many months of lingering illness, he fell asleep peacefully as the night follows the day, surrounded by his loved ones and friends. So gently and peacefully did the end come—that we thought him dying while he slept—and sleeping when he died.

The funeral services were conducted by Drs. Dodd and Wilcox, and his body laid to rest beneath a mound of beautiful flowers, in the old cemetery at Halifax, where his father, mother, sisters and brother had been buried many years. Friends, flowers and messages of sympathy came from all parts of this and adjoining States, a tribute to the memory of this lovable man.

May God in His infinite wisdom and mercy comfort and sustain his heart broken wife and children. "There is no death, what seems so is transition."

Mrs. W. A. PIERCE, Chair, Weldon Township. It is said that when one of our colored soldiers was asked, "Are you going to France?" his reply was, "No; I'm going to Berlin but I'm going by Paris." This has been the dream of our American Army and in all this talk of armistice and surrender this should be one item to be considered. The allied armies should be permitted to march through the streets of Berlin. Nothing less would compensate for the suffering and loss, and would only be doing as the Germans did in 1871 in Paris. Let the boys at least see the remains of the Kaiser if he is out of the game.

Greatly Benefitted by Chamberlain's Tablets. "I am thankful for the good I have received by using Chamberlain's Tablets. About two years ago when I began to feel a great deal of distress after eating, and from headache and a tired, languid feeling due to indigestion and a torpid liver. Chamberlain's Tablets correct these disorders in a short time, and since taking two bottles of them my health has been good," writes Mrs. M. P. Harwood, Auburn, N. C.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Medicine manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure.

No Mystery in Meat

Some things are so simple that they have to be explained again and again. When things are obvious, people keep looking for mysteries behind them.

So it is with the packing business. The mere size of Swift & Company confuses many. Because their imaginations are not geared up to scale, they believe there must be magic in it somewhere—some weird power.

Swift & Company is just like any other manufacturing business run by human beings like yourself; it takes in raw material on the one hand and turns out a finished product on the other.

Swift & Company keeps down the "spread," or the expense absorbed between raw and finished material, to as low a figure as possible. (If it didn't it would be put out of business by others who do.)

How much Swift & Company pays for the raw material, and how much it gets for the finished product, depends upon conditions which Swift & Company does not control.

It depends entirely upon how much people want the finished product, and how much raw material there is available to make it from.

The profits of Swift & Company amount to less than one cent per pound on all meats and by-products—less than one-fourth of a cent on beef.
