MORTE POUR FRANCE

Spring has come again and tender green covers the battle-scarred earth. Nature, the sovereign panacea, has already begun her work of restoration—flowers blossom over the graves of fallen heroes. Soon May will bring the poppies, "between the crosses, row on row" little gray crosses, each with its aluminum identification tag—and those that mark the graves of the men who are buried in French cemeteries inscribed with the words "Morte Pour France."

Sixty thousand Americans lie asleep in France. "Morte Pour France"—surely no other sentence could tell the story half so well. "Dead for France." Probably the best known poem of the war is one quoted below, "In Flanders Fields," breathing the fine spirit of sacrifice for an ideal. "America's Answer" stilled all fear that the sacrifice was in vain, and now when victory in battle is won comes "America's Consecration," pledging a victory of right.

"Be it our task to save,
In memory of the life you gave,
Those rights for which your blood was shed
"In Flanders Fields!"

This is our task, in memory of those sixty thousand dead, to insure the victory they won, also they have died for.

To every citizen of the United States belongs this opportunity, the last opportunity to measure up to the standard set by the boys. The greatest victory of all must be won now, and the shots that will bring it about will be made of dollars. Lend yours to end the war. Buy Victory Liberty Loan bonds.

Battle Scarred Tanks in Victory Loan Drive

"No road is impassable, no stunt impossible," is the slogan of the crews of the twenty real battle tanks now touring the Fifth Federal Reserve District in the interest of the Victory Liberty Loan.

These tanks, manned by crews who saw active service on the Western front, are of the six-ton whippet type, the kind that proved so efficient in battle. They are in full battle regalia, even to the camouflage coat of paint.

The turrets, from which the machine guns project, are arranged to revolve so that the guns may be quickly aimed in any direction. This feature, coupled with the great agility of the whippet tanks make them unusually effective in action.

These agile steel terriers just "eat up" sticky spring roads, so even the

red-clay areas of the Fifth District may expect to see these battle veterans.

The commander of one of the tank squadrons that saw service during the last drive before the signing of the armistice was recently telling of an instance of heroism he witnessed. The Germans were holding a position at great cost to the allies. A detachment of British tanks was sent out to take the place. It failed. Then American volunteers were called for, and twenty tanks went over. Only six came back—but they took the position.

That is the kind of stuff the American troops are made of. Let's show them that we, too, will see the job through—that "can't" is left out of our vocabulary as well as theirs. We must put this Victory Liberty Loan over—way over—to do that America expects every man to do his duty.

SAMUEL GOMPERS STANDS BEHIND VICTORY BONDS

Samuel Gompers, for many years head of the labor movement in the United States and at present one of the leaders of the labor movement at the Peace Conference at Paris, urges labor, both organized and unorganized, to support the Victory Liberty Loan.

He says in part:

"The Victory Loan is the forerunner of a happier state of society, a guarantee of peace and tranquility of the world, the hope of a better day and a brighter light. I heartily join with my fellow citizens in urging every worker and every organization of workers to take part in this splendid effort to finance our democracy's peace with the wealth and savings of all our people. Invest your savings made safe by the Victory of our arms."

COUNTRY HOLDS THIRD OF GOLD

Tremendous Guarantee Back of Every Bond Issued by United States to Pay Its War Bills.

Gold is the basis of all credit. The United States is now about to enter a fifth great popular campaign for the sale of government bonds to the citizens of the nation. America has contracted more than \$6,000,000,000 of debt since last November in paying war bills, and this money must be raised by the people.

Every reader of this paper knows that United States government bonds are the safest investment on earth. But many of them do not, perhaps, know just how to explain their belief.

One of the reasons why United States government bonds are the safest investment on earth is that the United States now possesses one-third of the world's gold. This has come about as a result of the war. It had large gold holdings before the fighting began in 1914, but since then the nations of the earth have been forced to get needed supplies and maintain trade relations.

The Federal Reserve banks do not hold probably more than two-thirds of this nation's supply of gold, yet they have in their reserves more than one-half as much as the State banks of the next fourteen most wealthy nations, and abroad the State banks have collected practically every gold piece that the people possessed.

DIRECTOR OF VICTORY LOAN ADVERTISING

GET THE HABIT

This year, with battles fought and won, with Peace the leading Paris style, there comes the urge to spend for fun. To fall for Folly's gilded lure. I know myself the day I heard the armistice was really signed, I ordered up a nice hot bird and sat right down and dined and wine—but just as we are creatures all of habits we allow to grow, my conscience started to recall some better way to use my dough. It's got me. You have guessed it—Thrift—the yeast that swells the penny's size, that teaches us to make short shift of things in which no value lies. Each morning when I seek my job, I plunge at least for one Thrift Stamp; perhaps it's from a baby rump—I do not care so long as they are working toward the selfsame end—for Thrift, the thing, which day by day informs us what we ought to spend.

Calomel Dynamite

Have you ever heard this?

"My baking powder," says the smooth solicitor, "costs less than Royal."

But he omits to say that it often leaves a bitter taste, that food made with it is likely to stale in a day and that it contains alum, which is condemned by many medical authorities for use in food.

England and France prohibit the sale of alum baking powders.

CALOMEL DYNAMITE A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

Mallory Hats

About the first question our salesman will ask you when you try on one of our new

Mallory Hats

Is "How does it feel?" In other stores they ask "How does it look?" The difference is that we will first select a hat that will become you, and we know that a "Mallory" Hat will look right, so what we want to know is whether the hat feels right on the head. Be sure to have a look at our window this week and come in and prove what we say.
