

CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Reyno City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

J. T.

That Salvation Army Smile

Several thousand veterans of the Arizona Forest recently entered New York harbor. Among them were several badly wounded Marines. One man, easily distinguished because of a coat sleeve that dangled empty at his side and a Croix de Guerre, was making his way slowly to the waiting ambulance when a Salvation Army girl approached him and offered doughnuts and coffee. "Now I know I am home," he said. "Those doughnuts helped a whole lot over there, and first crack out of the box when we land, we find more waiting for us. The best thing about the Salvation Army work out near the front line was the smile that accompanied the gift. Those girls had a knack of wrapping up every doughnut and every cup of coffee in a smile. The doughnuts were fine, but the smile—that took the place of powdered sugar. The Salvation Army Home Service Fund Campaign for \$10,000,000 opens May 10, to last Oct. 1924.

Fertilizing Growing Crops DOES IT PAY?

J. N. Harper, Soil Improvement Committee, Atlanta, Georgia.

Side applications of fertilizers to the growing crops as a supplement to a first application made at seeding time is quite widely practiced in the South.

The writer recently obtained from farmers of North and South Carolina who make a bale or more of cotton per acre. These farmers were addressed a letter and asked, among other things, to tell how they fertilized their cotton. In these answers a large proportion report that they make side applications of fertilizer. A few of these reports that are typical of the rest are given herewith:

Mr. J. C. Fletcher, McCall, S. C. Kind of soil: "Light loam with clay subsoil."

Fertilizer used and method of applying: "Used about 1,400 lbs. per acre, half applied just before planting and the other half about June 15th."

Mr. B. D. Mann, Enfield, N. C. Kind of soil: "Sandy loam and heavy loam to gray stiff soil."

Fertilizer used and method of applying: "From 500 to 1,000 lbs. per acre of an 8-3-8. At time of planting use from 400 to 800 lbs., about June 1st when cotton is chopped out make another application of 400 lbs."

Mr. Fred H. Young, Timmonsville, S. C. Kind of soil: "Sandy loam with clay subsoil."

Fertilizer used and method of applying: "900 to 1,000 lbs. of fertilizer used. April 1st apply 500 lbs. of fertilizer, riding on sows and planting about ten days later. Fertilizer applied in three applications: 500 lbs. before planting; about May 1st, another application of 500 lbs.; and still another application of 500 to 550 lbs. June 1st."

Mr. B. F. Shelton, Speed, N. C. Kind of soil: "Norfolk loam, or dark gray soil."

Fertilizer used and method of applying: "800 lbs. of a 9-5-2 used per acre (during normal times an 8-4-4). Half of fertilizer applied in drill at time of planting; the other half when cotton is 8 to 6 inches high."

Mr. A. G. Clarkson, Wateree, S. C. Kind of soil: "Houston loam."

Fertilizer used and method of applying: "1,500 lbs. of a fertilizer applying 10% phosphoric acid, 3% nitrogen, and no potash. Apply two-thirds of fertilizer at time of preparing the land and one-third in May or June."

Mr. S. P. Winburne, Como, N. C. Kind of soil: "Light loam."

Fertilizer used and method of applying: "600 lbs. per acre of a 10-6-0 during normal times 700 lbs. of an 8-4-4. Apply fertilizer and stable manure in drill before planting. Apply one-third of fertilizer as a side application when plants are about knee high."

Mr. H. A. Monroe, Cameron, N. C. Kind of soil: "Gravelly sandy loam with clay subsoil."

Fertilizer used and method of applying: "600 to 800 lbs. of fertilizer per acre used. Part applied at time of preparing the land, and 200 to 300 lbs. applied as a side dressing before blooms appear."

Mr. F. H. Waller, Kingston, N. C. Kind of soil: "Gray sandy soil."

Fertilizer used and method of applying: "300 lbs. per acre of a 10-4-4. Apply fertilizer in drill about ten days prior to planting. Side dress one or two times about June 20 and July 10."

Mr. W. F. Peterson, Clinton, S. C. Kind of soil: "Dark gray."

Fertilizer used and method of applying: "400 lbs. when rows are laid off, 250 lbs. as side application at second plowing after chipping, and 250 lbs. as another side application when plants are knee high."

Side Applications to Cotton. At the time the cotton plant is in full bloom simple plant food must be available or rise a large percentage of the squares will shed. While there are other factors that cause shedding, for example, a lack of a proper amount of moisture; still, it has been proven that even with the most favorable moisture conditions, a lack of plant food is the potent cause of this trouble.

Under boll weevil conditions, the fertilizer used in side applications should contain a high percentage of phosphoric acid and a rather low percentage of nitrogen. This fertilizer has the effect of forcing the young bolls to quick growth and early maturity.

Side Applications to Corn. While it usually pays to make a larger side application of fertilizer for cotton than for corn, still, many of the best farmers in the Southeast advocate liberal side applications for corn.

The period of the growth of corn is much shorter than that of cotton, consequently, there must be present in the soil large supplies of available plant food at the critical period of its growth, which is from the time it is well high to tasseling time.

SALVATION ARMY NEEDS

Annual Budget Shows Reasons for \$13,000,000 Drive.

Vast Activities Conducted by 1,000 Corps in United States—Future Plans.

New York—(Special)—The annual budget of the Salvation Army, containing a detailed and comprehensive statement of the cost of maintaining its varied activities throughout the United States, has been issued from National Headquarters, 122 West Fourteenth Street. The statistics show why it is necessary for the Salvation Army to go before the American people in the week of May 19 to 25 and ask them to contribute \$13,000,000 to its Home Service Fund.

There are 609 corps and outposts of the Salvation Army in the United States. The cost of maintaining these is \$2,085,000. This maximum income which these corps may expect from collections in meetings, contributions of members and other outside contributions is \$715,000, making the net total cost of supporting the corps \$1,370,000.

The cost of maintaining divisional and provincial headquarters, which supervise the work of the local corps, will be, according to the budget, \$530,000.

Besides the work of supervising the local headquarters, the provincial and divisional headquarters are in charge of several of the Salvation Army's largest activities, including the operation of 17,000 day camps for children, relief and employment bureaus and the hospital bands.

Under the heading of "national and territorial obligations" the Salvation Army includes the expenses of maintaining what are among its best known institutions, those which may be grouped under the general name of "social work." For this purpose the Army wants \$2,700,000.

The pension fund budget is \$1,000,000. The Salvation Army has determined on the erection of many new buildings for social work in the future. The building program will require expenditures of \$1,875,000.

The remainder of the amount sought for the Home Service Fund is for corps, divisional and provincial headquarters and a small contingent fund.

Details of the Salvation Army's activities in the United States for the last year show how remarkable is the scope of the Army's endeavors and what vast numbers of people it serves. For instance, the Army maintains several new hotels for men and women. Last year 1,690,528 persons found sleeping accommodations in these. Beds were supplied for 127,880 children in the Army's four children's homes in the same period, while 48,010 children were sheltered in the state hospitals. In the industrial homes, beds were supplied for 1,742,815. In the rescue homes and maternity hospitals, 889 girls went under the care of the Army last year.

The Army has 2,618 officers and 60,000 men in the United States. Last year 24,000,000 persons

WOMAN'S NERVES MADE STRONG

By Lydia E. Pinkham's Vegetable Compound.

Winona, Minn.—"I suffered for more than a year from nervousness, and was so bad I could not rest at night—I would lie awake and get so nervous I would have to get up and walk around and in the morning would be all tired out. I read about Lydia E. Pinkham's Vegetable Compound to make weak nerves strong."—Mr. ALBERT SUTZKE, 603 Olmstead St., Winona, Minn.

How often do we hear the expression among women, "I am so nervous, I cannot sleep," or "it seems as though I should fly." Such women should profit by Mrs. Sutzke's experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness and nervous prostration of women, and is now considered the standard remedy for such ailments.

Land Sale For Taxes

I will sell to the highest bidder for cash at the court house door in the town of Halifax, Monday, June 2, 1919, the following described lands in Littleton township, for taxes and costs for year 1918:

Sarah Alston, 1 town lot,	\$2 80
Miller Ash est., 10 acres Gee land,	2 41

A Good Tire Year

You have doubtless noticed the growing preponderance of United States Tires.

Every one is asking for tires of known value and proved dependability.

And that is precisely what United States Tires represent in the minds of motorists here and everywhere.

The idea back of United States Tires—to build good tires—the best tires that can be built, is appealing to rapidly growing numbers.

We can provide you with United States Tires to meet—and meet exactly—your individual needs.

United States Tires are Good Tires

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right off! Yes, magic! A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

WILSON ENDORSES SALVATION ARMY.

President Wilson, burdened as he is, found time to cable his endorsement of the Salvation Army Home Service Fund Campaign, which will be conducted during the week of May 19-20. The cablegram:

Commander Miss E. Booth, Personal, Salvation Army, 120 West Fourteenth Street, New York:

I am very much interested to know that the Salvation Army is about to enter into a campaign for a sustaining fund. I feel that the Salvation Army needs no commendation from me. The love and gratitude it has elicited from the troops is a sufficient evidence of the work it has done, and I feel that I should not so much commend it as to congratulate it. Cordially and sincerely yours, WOODROW WILSON.

SAYS LEMON JUICE WILL REMOVE FRECKLES

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quart of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocery list counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. You're harmless.

Cow Peas Soja Beans

Reduce your fertilizer expense and save food value by growing Cow Peas and Soja Beans.

They enrich the land not only when plowed under, but when used for food and grazing. They can be grown to advantage in your corn crop—adding nitrogen and building up your soil. It pays to order.

WOODS SEEDS

Our Cow Peas, Soja Beans are superior in cleanliness and quality to cow peas and beans ordinarily sold. Write for prices and reasonable information about all Field and Garden Seeds.

T. W. Wood & Sons SEEDSMEN, Richmond, Virginia.
